MUNICIPALITY OF ANCHORAGE
GIRDWOOD ROADS, FACILITIES, PARKS & RECREATION

DATE: January 21, 2019

TO: Girdwood Board of Supervisors

FROM: Kyle Kelley, Girdwood Service Area Manager & Margaret Tyler, Parks and Recreation

SUBJECT: **Roads, Facility, Cemetery & P & R Monthly Report**

Parks

Girdwood Parks and Rec will be seeking help for work this summer!
Girdwood Parks Caretaker position (30 hours/week). This job will post in April on the MOA jobs website: https://www.muni.org/departments/employee_relations/pages/jol.aspx

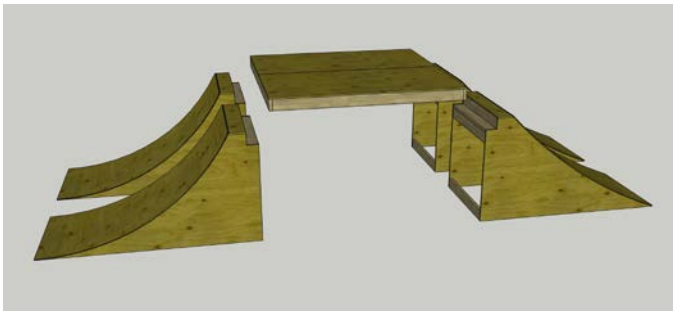
SCA Internships. These jobs are currently posted on the SCA website: https://www.thesca.org/serve/position/girdwood-trail-crew-interns/po-00727254

Girdwood Campground host. Contact Parks and Rec staff for more information: tylerms@muni.org.

Contracts:

Beautification/Parks:
Staff is handling trash collection and stocking mutt mitts. We also coordinate removal of downed trees on trails. If you see something that needs attention, please call 343-8373 or email tylerms@muni.org

- *Little Bears Playground:* Reviewing assessment for project list in 2019.
- *Lions Club Park:* Working on a plan to add a pavilion to the Lions Club Park. Next summer we plan to complete a trail from the park to Glacier Creek.
- *Tennis Courts:* Wrapped up for the winter.
- *Skate Park*: Group met Jan 17 and has plans to work on several projects at a spring work party. Group is working out details of ShowDown ThrowDown Event at Alyeska Resort in March and raffle of a quilt donated to the Friends of the Skate Park by the Girdwood Goldstitchers. Thank you Mica Wedeking, who will be building the Skate Park Kiosk as part of his Eagle Scout badge endeavor.



Trails: Girdwood Trails Committee is compiling a list of work projects for 2019 as well as long term projects and goals. GTC plans to hold trail work parties instead of regular meetings in the summer months. Goal of these meetings will be to brush and maintain existing trails that have become overgrown with several years of lower snowfall.

Winter grooming training was held over the holidays. Volunteer groomers must complete training and have a current volunteer agreement on file with parks and rec.

Grooming is on-going, one of our machines is in the shop. Thank you to Jeff & Sharon Samuels, Peter Zug, Shane Bowlin, Jim Braham, Deb Essex and all the other tireless volunteers who have put time in with shovels, snow machines, and lots of hard work. This is a collaborative effort with the Girdwood Nordic Ski Club; to receive more information contact tylerms@muni.org

Closures:
Hand tram and campground are closed for the season. Both are planned to reopen in May, based on weather.

GBOS Non-profit Grants: All 2019 grantees have completed their revision forms. 2018 year-end reports are due February 15, 2019. After Anchorage Assembly approves the 2019 budget and all year-end reports are received, 2019 grant contracts will be issued.

Other Grants:
KMTA Grants: $17,000 grant approved for California Creek Bridge construction. Project is on hold for the winter.

RTP Grants: Grant application for $75,000 for the next phase is due for review by the ORTAB January 25 and 26.

Social Media & Websites: We are active on Facebook as Girdwood Board of Supervisors GBOS and Girdwood Parks and Recreation. Websites are: www.muni.org/gbos; www.muni.org/gpr. Trail maps are at: www.muni.org/gprsummermap and www.muni.org/gprwintermap.

Cemetery:

CRW and cemetery designer, Jack Goodnoe came to Girdwood to review the site and hear the desires of the cemetery committee and to discuss development phases. Draft schematic design and phasing of the project is available on the GBOS website. Open house is currently scheduled for THU Feb 28 at 7PM in the Girdwood Community Room.

Roads

Roads Status: The road conditions continue to stay in a full winter mode with snow, rain and ice on any given day or hour. Road contractor has been very good on responding, dealing with breakdowns to minimize impact on providing services and proactive to be prepared for incoming weather. Lots of sanding but the stockpile is maintaining and looking to get us through the season.

Work completed since last GBOS meeting:

- Plow outs
- Pothole patching
- Pile ice off paved roads

Major project updates:

Little Bears/Glacier City Hall Replacement project:

- The project estimates to around $1.5 to $ 2.0 million
- Both buildings would be demolished and one structure would be built for both the garage and Day Care facility
- Little Bears is a financial partner and is proactive in fundraising efforts to contribute the project
  Karen Zaccaro Company ECI is providing pro bono service for the Pre-development of a new Little Bears facility at the same location.
- The new building will remain MOA owned
- Current work: Concept design, Meeting with HLB this week to discuss the project, looking at code text change to make the project work, Financing coordination

Expenses and Budget:

Undesignated Fund Balance for the Girdwood Service Area: $198,385.00 as of July 31, 2018

Roads: Road Expenditures by Month:

Month	2016	2017	2018
January	$23,691.00	$69,501.60	$37,768.21
February	$45,810.17	$51,470.39	$38,100.50
March	$23,787.50	$28,108.66	$33,570.94
April	$21,816.27	$34,856.29	$53,832.30
May	$61,379.43	$34,992.43	$35,768.06
June	$$125,270.42	$63,412.35	$58,073.29
July	$52,169.61	$29,944.81	$57,131.25
August	$39,834.13	$40,310.06	$46,797.14
September to 15th	$92,684.93	$11,307.78	$42,902.75
October	$13,360.50	$40,485.28	$47,671.51
November	$15,939.29	$14,486.25	$24,825.25
December	$49,035.69	$45,554.63	$88,113.63
Total thru December:	$565,439.88	$495,035.23	$564,554.53

Public works operation budget expended for 2018: $880,529.85 of $1,090,552.00 = 81%
2018 Capital Roads Project fund (406): $150,000.00

Parks:

2018 Expended Budget: $257,605.48 of **$**335,536.00 =76%
2018 Capital Park Project (406) Reserve Fund available: $211,643.00
2018 Community Room Capital Reserve Fund (406): $74,000.00
Funds encumbered for the Ped Crosswalk light: $97,420.00

Police:

2018 Expended Budget: $471,564.79 of $635,288.00 = 74%

Recent purchase from this account are Stop the bleed kit for Library and School, and an AED for Library/Community Room Foray

Whittier is not going to include a CPI increase for 2018 but will for 2019. We should get a CPI calculation in January 2019.

Fire:

2018 Expended Budget: $1,058,101.63 of $1,066,936.00 = 99%

Department Incident Activity Report

Girdwood Fire and Rescue

P.O. Box 915 Girdwood, Alaska 99587, Phone 783-2511 fire@girdwoodfire.com

Serving our Girdwood community and Turnagain Arm for 60 years

Situation Report January 2019

Total 2018 Responses = 465

New Year's Calls = 4 New Year's patient transports = 0

Fire and EMS: Operational Highlights:

- Operational Staffing 35
- Firefighter 1 class in progress
- EMT2 and 3 classes: Spring 2019 (open to public)
- Next member intake: April 2019 (No Girdwood applications received yet)
- Nominated May 2018 Mud Flat Rescue for Red Cross Real Heroes Breakfast
- 4 probationary members coming off probation mid January (3 Girdwood residents!)
- All federal wildland fire service classes cancelled due to federal shutdown
- Trained 80 ski patrollers and local snow machine tour operator in Stop the Bleed techniques
- Turnagain Pass Avalanche Prep: Snowmachines in service, met with US Forest Service

Top 4 Current Concerns

1. Girdwood Airport Road Access for firefighting: responsible owner: DOT-Airport Leasing: concerned about lack of emergency road plowing and new road configuration.
2. Met with DOT Highway Safety Corridor Manager about improvements to Alyeska Highway (swoop concern) and adding numbers or mileposts to Highway turnouts for easy identification by 911 callers and advocating for cell service in Turnagain Pass
3. Turnagain Pass: Requested Kenai Peninsula Borough/AST/DOT educate public on when to call 911 and not calling for abandoned vehicles and need for better flagging. Decrease in abandoned calls since request was made.
4. Staffing, need additional Girdwood residents to join membership.

Fire Prevention:

- Limited number of smoke detectors and carbon monoxide detectors available for purchase at station $20

CERT

- Monday January 28 630pm, next meeting: Training Topic: Traffic Control

Emergency Preparedness

- Working with MOA Emergency Operations Center, Anchorage School District and Red Cross to designate an Emergency Shelter for Girdwood
- Red Cross to provide Shelter Manager training and Disaster Assistance training to Girdwood Community Members
- Obtained supply trailer from MOA- Emergency Operations for community emergency supplies

**EMT 2 and 3 Classes are scheduled for Spring 2019

Propose replacing #1 under "Implementation" in the August 14th "Subcommittee Report to the Girdwood Trails Committee Regarding: "Forest Loop" trail" with the following:

Subcommittee held 8 public meetings over 4 1/2 months for approximately 2 hours per meeting. These meetings were publicly noticed and held in the Girdwood Community Room. Public comments (3 minutes maximum per person) were accepted at these meetings (verbal or written). Subcommittee members also made visits to the site to further familiarize themselves with the proposed trail route. Subcommittee exchanged some information and conducted administrative business via email which became part of public record when the subcommittee's work was complete.

Original text was as follows:

1. All subcommittee meetings were publicly noticed and held in the Girdwood Community Room and were open to the public. There was a period set aside at each meeting when public comments were taken (three minutes maximum per person). Emailed comments were accepted and read aloud.

GBOS and Committee Procedures:

FRI before the meeting draft agenda packet which includes all handouts will be posted.
All handouts to be included in the packet requested by 12N the FRI prior to meeting.

25 copies of the entire packet copied for attendees & GBOS

3 copies to stay at the back table for shared use

Request that public bringing new info to the meeting submit in advance or provide copies for all

Add note on agenda about deadlines and request for copies. (Question for GBOS…add this statement?)
Display on screen specific language of motions/resolutions/letters/statements (most of these should be pre-drafted and presented in the packet).

GBOS, committees, and subcommittees switch to on-line meeting information distribution (Mailchimp), which allows people to add or remove themselves to the distribution lists. This will be handled as links to the postings on the website. We're testing this currently.

Determine if any of this needs to be added to GBOS Rules and Procedures.

GBOS, Committees, and Subcommittees have new language on the agenda, as recommended by Ombudsman and Municipal Attorney. This does not include skate park, tennis, which are not GBOS committees/subcommittees:

> The Girdwood Board of Supervisors, its committees, and subcommittees are subject to the Alaska Open Meetings Act as found in Alaska Statute 44.62.310 and Anchorage Municipal Code1.25 - Public Meetings.

Sending information on meetings out via MailChimp, which allows people to subscribe and unsubscribe and protects individual email addresses.

Plan to video meetings and put videos on YouTube.

Motions, letters, etc drafted "on the fly" to be projected on the screen so that GBOS and public can see the language.

Still to be determined: Ethics committee determination regarding subcommittees and board training on board service, ethics and public meetings.

Municipal Attorney

The Ombudsman's memorandum dated December 6, 2018 regarding Girdwood Board of Supervisors' Committees and Subcommittees suggests that the Municipal Attorney's Office and/or the Board of Ethics consider whether or not AMC1.15 – Code of Ethics should be revised to cover members of GBOS committees and subcommittees.

The Girdwood Board of Supervisors request that the code not be revised to cover GBOS committees and subcommittees under AMC 1.15. Many community members serve on these advisory committees and subcommittees. For example, all community members can vote at Land Use Committee or Trails Committee meetings. Asking everyone who votes at a meeting to file a financial disclosure form seems unworkable.

The Girdwood Board of Supervisors (GBOS) requests that the municipality consider changing municipal code 1.25 public meetings to exempt GBOS committees and subcommittees. These committees and subcommittees are like community councils that are exempt from this code. Their functions are only advisory.

Agenda Revisions and Approval
January 28, 2019 GBOS/LUC Joint Meeting Agenda Approval

Announcements:

- GBOS Seat C is up for election in the Anchorage Municipal Election on April 2, 2019. Filing period is 8A Jan 18 thru 5P Feb 1. Contact the Municipal Clerk's Office at: http://www.muni.org/departments/assembly/clerk/elections/Pages/default.aspx or email wwmasmc@muni.org for more information.
- HLB 2019 Annual work plan program and 2020-2024 Five Year Management Plan is available for review and comment. Comments are due by 8AM Feb 4, 2019. http://www.muni.org/Departments/hlb/2014%20Docs/2019DRAFT+Appendices.pdf

1. Earthquake review: MOA facilities, dump day, EOC
2. Accessory Dwelling Units
3. APD policing contract proposal
4. EMS funding
5. % of Bed Tax funds from Girdwood for Girdwood use
6. Bear Issues:
   Update on what MOA is looking at regarding codes for bear issues
   GBOS resolution re: bear resistant trash storage

Action Item Updates as assigned:
Request for Executive Session:
Other:
Adjourn

GBOS Meeting Agendas and minutes are available on line: http://www.muni.org/gbos

Memorandum

Date: January 18, 2019
To: Kyle Kelly, MOA Girdwood Service Area Manager
Thru: Ryan Redick, PE – The Boutet Company, Inc.
From: Colin Singleton, PE – CRW Engineering Group, LLC
Project: Girdwood Pedestrian Crossing Flashers
Project No: GR14002
Subject: Affirmation of Basic Bid and Additive Alternative Options

We have finalized bid documents for the Girdwood Pedestrian Crossing Flashers project for the installation of Rectangular Rapid-Flashing Beacons (RRFB's) at the intersection of Alyeska Highway and Egloff Drive. Following the decision to not award the July 2018 bid for the project, the eastern RRFB crossing was prepared as an Additive Alternate. All lighting improvements are included in the Base Bid along with the western RRFB crossing, ensuring adequate lighting levels and prioritizing the most direct crossing for the major destinations south of the Alyeska Highway.

Separating the eastern RRFB crossing from the Base Bid, with the option that the Additive Alternate not be awarded, does not constitute a compromise in safety. Both the Base Bid and the combined Base Bid/Additive Alternate were analyzed for pedestrian and vehicle operations and comply with the Manual on Uniform Traffic Control Devices (MUTCD). If the Additive Alternate is not awarded, the Base Bid removes the eastern crosswalk, implements signage discouraging crossing, and focuses attention on a single crossing. Meanwhile the addition of the Additive Alternate provides double the RRFB flashers for approaching vehicles and allows for pedestrian crossing movements on both sides.

Please let me know if you have any questions or concerns.

Colin Singleton, PE
CRW Engineering Group, LLC

cc: Bill Johnson, PE – CRW Engineering Group, LLC

Land Use Permit

HLB Permit: 2009-13 (2019 Renewal)

Permittee:	Girdwood Board of Supervisors (GBOS)
Address:	P.O. Box 390, Girdwood, AK 99587
Permit Area Description:	Portion of HLB Parcel 6-057F, Lot 6 Block 3 of the proposed Girdwood Industrial Park Subdivision Phase II (see attached)

This agreement is between the Real Estate Department, Heritage Land Bank, Municipality of Anchorage, hereinafter "HLB," whose address is P.O. Box 196650, Anchorage, AK, 99519-6650, and GBOS, hereinafter "Permittee."

1. Permission. The HLB does hereby grant to the Permittee a non-exclusive, revocable Land Use Permit, hereinafter referred to as "Permit," containing the right, permission and authority to enter upon HLB property in the above-described Permit Area for the limited purpose(s) of: Storage of equipment, road materials, and related activities with current road service contractor operating off of this site. Permittee shall notify the HLB of its intent to use the Permit immediately prior to its commencement of above-mentioned activities and comply with any and all restrictions placed upon it under this Permit.

2. Term. This Permit shall be for a term of one (1) year, commencing on date of execution and ending December 31, 2019, provided that the HLB shall have the absolute right to terminate this Permit at any time, without cause, upon fifteen (15) days' notice to Permittee. Any continued use of the Permit Area by the Permittee after the expiration of the original term, absent prior to HLB approval, shall be deemed a trespass subject to ejectment. The Permittee may abandon the Permit Area and give up all rights under this Permit at any time. The Permittee's obligation to pay an annual fee, and any other affirmative obligations of Permittee under this Permit, shall continue until the Permittee has given written notification to the HLB that Permittee is abandoning all rights under this Permit and has removed any personal property from the Permit Area and has restored the Permit Area pursuant to Paragraph 6 of this Permit.

3. Fees. As consideration for this Permit, Permittee shall pay $2,689.33.

4. Title to property. This Permit does not create for the Permittee any interest in or title to the above-described property.

5. HLB use. The HLB reserves for itself, its successors, assigns, permittees and licensees, the right to use the Permit Area for any purpose whatsoever, subordinate to the parameters as outlined in Anchorage Municipal Code 25.40.

6. Restoration of the Permit Area. Upon the completion of the limited purpose(s) described in section 1, above, or by the date of termination, whichever first occurs, all rights or obligations contained within this Permit shall terminate except for obligations imposed by this Permit on Permittee to repair, replace or restore the Permit Area, structures or improvements thereon, and the indemnity imposed by paragraphs 8, 9 and 11 below. Structures or improvements, if any, currently existing within the Permit Area which are removed or damaged during the Permit period shall be replaced or repaired upon completion of the activities by Permittee, to the satisfaction of the HLB. Upon the expiration, abandonment, or termination of this Permit, the Permittee shall remove from and off the Permit Area all property owned or controlled by the Permittee and restore the Permit Area to its prior condition in a manner satisfactory to HLB. Upon failure to do so, the HLB may perform such work at Permittee's expense. Until said property is removed and the Permit Area restored, either by Permittee or by HLB at the Permittee's expense, this Permit and all terms contained herein, including payment of fees, shall, at HLB's option, remain in effect until said property is removed and the Permit Area is restored to its prior condition.

7. Alterations to the Permit Area, structures or improvements thereon. The general physical contour of the Permit Area shall not be altered without prior written approval from the HLB. No excavation work shall be performed upon the Permit Area. Permittee's use of the Permit Area shall not interfere with the use or operation of any facility, drainage ditch, or related facilities which may be located upon, over, or under the Permit Area. No structure, improvement or other facility, including but not limited to temporary structures and fences, may be constructed or placed in the Permit Area without prior written approval of HLB. Any construction or placement shall comply with local building and land use regulations.

8. Indemnification. Permittee agrees to indemnify, defend and hold the HLB and the Municipality of Anchorage (MOA) harmless from and against any and all claims arising, directly or indirectly, from Permittee's use and related conduct in the Permit Area or from the conduct of Permittee's business or from any activity, work or things done, permitted or suffered to be done by Permittee in or about the Permit Area. The Permittee further agrees to indemnify and hold HLB and the MOA harmless from and against any and all claims arising from any breach or default in the performance of any obligation on Permittee's part to be performed under the terms of this Permit, or from claims of any of Permittee's agents, contractors, employees, invitees, customers or visitors, and from and against all costs, attorney's fees, expenses and liabilities incurred in the defense of any such claim or any action or proceeding brought thereon. In case any action or proceeding is brought against the HLB or the MOA, Permittee shall defend the same at Permittee's expense by counsel reasonably satisfactory to HLB or the MOA.

9. Insurance. Girdwood Board of Supervisors consults with and advises the Assembly and the Mayor concerning the administration of the affairs of the Girdwood Valley Service Area and is an entity of the Municipality of Anchorage, which is self-insured and a certificate of liability insurance is hereby waived. However, contractors and subcontractors shall maintain in good standing the insurance required. Permittee shall deliver to the HLB certificates of liability insurance on or before

the effective date of this Permit or at another date as agreed to in writing by the HLB. Insurance shall cover the entire Permit Term. Permittee shall deliver to the HLB photocopies of the policy or policies of insurance, certificates of insurance, or copies of endorsements upon request by the HLB. The policy or policies purchased pursuant to this paragraph shall name HLB and Permittee as co-insureds with respect to the Permit Area and the use or business operated by Permittee on the Permit Area.

A. The Permittee shall maintain in good standing the insurance described in subsection B of this section. Before rendering any activities under the Permit, the Permittee shall furnish the HLB with proof of insurance in accordance with subsection B in a form acceptable to the MOA Risk Manager.

B. The Permittee shall provide the following insurance:
   1. Workers' compensation and employer's liability coverage in the amount of $1,000,000 as required by Alaska law. In addition, the Permittee is also responsible for complying with the laws of the state where Permittee maintains its principal place of business.
   2. Commercial general liability, including:
      $2,000,000 General Aggregate
      $2,000,000 Products/Completed Operations
      $1,000,000 Personal & Advertising Injury
      $1,000,000 Each Occurrence
      $5,000 Medical Payments
   3. Commercial automobile liability per occurrence in the amount of $1,000,000, single limit to include: owned, hired, and non-owned.

C. Policies written on a “claims made basis” must have a two (2) year tail of coverage from the completion of the contract requirements.

D. Each policy of insurance required by this section shall provide for no less than thirty (30) days advance notice to the MOA.

E. The MOA must be listed as an additional insured on all polices except Professional Liability and Worker’s Compensation Polices. The actual policy endorsement shall accompany each Certificate of Insurance.

F. All policies except Professional Liability and Worker’s Compensation shall contain a waiver of subrogation against the MOA. This policy endorsement should accompany each Certificate of Insurance.

G. Any self-insured retentions must be declared to and approved by the MOA.

10. Performance Bond. The Permittee shall provide and maintain in effect throughout the term of this Permit a performance bond in such form and in such amount as required by the HLB. The Bond amount shall be $0.00 and it shall secure Permittee’s performance of any and all of its

duties, obligations, and activities under this Permit. The HLB may adjust the bond amount, if applicable, effective on any one year 'anniversary date' following the beginning date of this Permit.

11. Compliance. Permittee shall, at its own expense, and with all due diligence, comply with all of the provisions of local, state, and federal law which are now in effect or may later be adopted by any governmental authority applicable to the Permit Area and Permittee's use thereof.

12. Taxes. During the term of this Permit, Permittee shall be responsible for and shall timely pay all personal property taxes for Permittee's personal property at the Premises. In addition, in the event that taxes are at any time imposed on Permit fee payments, Permittee shall be responsible for timely payment of such. Permittee shall be responsible for all real property and improvement taxes, assessments and charges imposed that are associated with the use of public property by private parties.

Permittee shall have the right to protest an assessment of taxes or other assessments or charges provided, prior to such protest, Permittee shall deposit with Permitter any sum in dispute, to insure payment in the event such contest is not successful.

13. Assignment. This Permit is personal to Permittee and may not be assigned or transferred in any manner, including by operation of law, without prior written consent of the HLB. Any attempt to assign or transfer this Permit shall cause an immediate termination of this Permit.

14. Notices.

A. All notices required or permitted in this Permit shall be deemed to have been fully given or made or sent in writing and deposited in the United States mail, registered or certified mail, and postage prepaid. All notices and other communications provided for herein shall be in writing and shall be delivered by hand or overnight courier service, mailed by certified or registered mail or sent by telecopy or other electronic means of communication as follows:

To HLB: ATTN: Heritage Land Bank
Municipality of Anchorage
P.O. Box 196650
Anchorage, AK 99519-6650
wwwhlb@muni.org

To Permittee: ATTN: Kyle Kelley, Girdwood Service Area Manager
Girdwood Board of Supervisors
P.O. Box 390
Girdwood, AK 99587
gbos@muni.org

B. The address for notice for either party may be changed by written notice given by that party to the other party as above provided.

15. Environmental Considerations. Permittee must, at its own expense, comply with all laws, ordinances, regulations and administrative agency or court orders relating to health, safety, noise, environmental protection, waste disposal, hazardous or toxic materials, and water and air quality. In the event any discharge, leakage, spillage, emission or pollution of any type occurs upon or from the Permit Area during the Permit Term or any holdover thereafter, Permittee shall immediately notify HLB and shall, at Permittee's own expense, clean and restore the Permit Area to the satisfaction of HLB and any governmental body or court having jurisdiction of the matter.

A. Condition of the Property. Based on HLB's use, on-site inspection, and knowledge of an information acquired about the Permit Area, and upon reasonably diligent inquiry, HLB has no knowledge, evidence or information of the possible existence of toxic or hazardous substances, as defined below, on the Permit Area property or in the Permit Area surface or subsurface soils or groundwater and that no toxic or hazardous substances are known to HLB to now exist on, in or under the Permit Area property.

B. Environmental Indemnity. Permittee agrees to indemnify, hold harmless and defend HLB against all liability, cost and expense (including, without limitation, any fines, penalties, diminution in value of the Permit Area, assessment and clean-up costs, judgments, litigation costs and attorneys' fees) incurred by or levied against HLB as a result of Permittee's breach of this paragraph or as a result of any discharge, leakage, spillage, emission or pollution on or discharged from the Permit Area, without regard to whether such liability, cost or expense arises during or after the Permit Term; provided, however, that Permittee shall not be required to indemnify HLB under this paragraph if the parties agree or a court of competent jurisdiction determines that such liability, cost or expense is caused directly and solely by the negligence of HLB, the MOA, or a third party actor who is not an agent, employee, successor, or independent contractor associated with Permittee. The foregoing indemnity shall survive the expiration or earlier termination of this Permit.

C. Toxic or Hazardous Substances. For purposes of this Permit, shall be interpreted broadly to include, but not be limited to, any material or substance that is defined or classified under federal, state or local laws as:

1. A "hazardous substance" pursuant to Section 101 of the Comprehensive Environmental Response, Compensation and Liability Act, 42 U.S.C. § 9601(14) or Section 311 of the Federal Water Pollution Control Act, 33 U.S.C. § 1321, each as now or hereafter amended;
2. A "hazardous waste" pursuant to Section 1004 or Section 3001 of the resource Conservation and Recovery Act, 42 U.S.C. § 6903, 42 U.S.C. § 6921, as now or hereafter amended;
3. A toxic pollutant under Section 307(1)(a) of the Federal Water Pollution Control Act, 33 U.S.C. §1317(1)(a);
4. A "hazardous air pollutant" under Section 112 of the Clean Air Act, 42 U.S.C. § 7412, as now or hereafter amended;
5. A "hazardous material" under the Hazardous Material Transportation Act, 49 U.S.C. §1802(2), as now or hereafter under the aforementioned laws; or

6. Presenting a risk to human health or the environment under other applicable federal, state or local laws, ordinance, or regulations, as now or as may be passed or promulgated in the future. "Toxic or Hazardous Substances" shall also mean any substance that after release into the environment and upon exposure, ingestion, inhalation or assimilation, either directly from the environment or indirectly by ingestion, inhalation or assimilation, either directly from the environment or indirectly by ingestion through food chains, will or may reasonably be anticipated to cause death, disease, behavior abnormalities, cancer or genetic abnormalities. "Toxic or Hazardous Substances" specifically includes, but is not limited to, asbestos, polychlorinated biphenyls (PCBs), petroleum based products and derivatives, flammable explosives, radioactive materials and urea formaldehyde.

D. Environmental Testing. Permittee agrees that it shall be solely responsible for all costs and expenses associated with the performance of environmental testing of the Permit Area, which may be required at the HLB's sole discretion, upon the expiration or other termination of this Permit. Such environmental testing, conducted by a recognized engineering or environmental consulting firm acceptable to the HLB, shall be the basis for determining the extent of any environmental impairment caused by the Permittee's use and occupancy of the Permit Area.

16. Default and Remedies. The occurrence of any one or more of the following events shall constitute a material default by Permittee:

A. The failure to make any payments required to be made by Permittee herein, as and when due.

B. The failure to observe or perform any of the covenants, conditions or provisions of this Permit, including the following:

1. Any general arrangement or general assignment by Permittee for the benefit of creditors;
2. Permittee becomes a debtor in bankruptcy;
3. Appointment of a trustee or receiver to take possession of substantially all of Permittee's assets;
4. Attachment, execution or other judicial seizure of substantially all of Permittee's assets;
5. Providing HLB any financial statement including a materially false financial statement from any assignee of Permittee, any successor in interest of the Permittee or any guarantor of Permittee's obligation herein, was materially false at the time given;
6. Vacation or abandonment of the Permit Area by the Permittee;
7. Failure to maintain the required insurance coverage;
8. Assignment, attempted assignment, or other transfer of this Permit without written consent from HLB;

9. Waste or damage to the Permit Area, including any storage, use, discharge, leak, spill, emission or pollution of, on, or in the Permit Area of hazardous material or petroleum products.

C. In the event of any material default by the Permittee, the HLB may at any time thereafter, without notice or demand and without limiting HLB in the exercise of any right or remedy which the HLB may have by reason of such default:

1. Terminate Permittee's rights under this Permit and pursue any remedies now or hereafter available to the HLB under this Permit in the Anchorage Municipal Code and Regulations, the laws or judicial decisions of the State of Alaska, or laws or judicial decisions of the United States; and
2. Maintain the Permittee's obligations under this Permit. In such event the HLB shall be entitled to enforce all of HLB's rights and remedies under this Permit, including the right to recover the payments due hereunder. The HLB may also pursue any other remedy now or hereafter available to HLB.

D. Any payment due from the Permittee not received by HLB when such amount shall be due.

17. No Warranties. The HLB gives no warranty, expressed or implied, that the permit area is safe, healthful or suitable for the purpose for which it is to be used under this permit. The absence of identification markers does not constitute a warranty by the HLB of no subsurface installations in the permit area.

18. Counterparts and Signatures by Email. This Agreement may be executed in counterparts, each of which shall constitute an original, and all of which together shall be deemed a single document. Signatures on this Agreement forwarded by email are intended to be the equivalent of original signatures, with the original executed Agreement thereafter to be provided promptly to the other party.

19. Miscellaneous.

A. The captions of paragraphs in this Permit are for convenience of reference only and shall not be used in the construction of any term hereof.

B. The terms of this Permit shall inure to the benefit of any successor or assign of the HLB.

C. This Permit represents the entire agreement of the parties with respect to the subject matter hereof, and it may not be modified except by an agreement in writing signed by both parties.

D. Time is of the essence with respect to any obligations to be performed under this Permit.

E. This agreement shall be interpreted under the laws of the State of Alaska. Venue is in the Third Judicial District at Anchorage.

F. Any clause herein found to be void or otherwise unenforceable may be severed, with the remainder of the Permit fully enforceable.

20. Reports. Copies of all pertinent documents generated as a result of use of the property shall be provided to the HLB at no cost. Delivery of the documents shall be within two (2) weeks of completion of the activity.

21. Special Conditions. No special conditions apply.

GBOS; LUP 2009-13

PROPOSAL 116

5 AAC 85.020. Hunting seasons and bag limits for brown bear.

5 AAC 92.132. Bag limit for brown bears.

Change the brown bear hunt in Unit 14C Remainder to a registration hunt with a bag limit of one bear every year as follows:

Brown/Grizzly Bear

Unit 14C Remainder

Resident and Nonresident

One bear every regulatory year by registration permit RB XXX Sept. 1—May 31.

What is the issue you would like the board to address and why?

One every 4-year bag limit for brown bear in Unit 14C Remainder.

Unit 14C Remainder within the Chugach National Forest is adjacent to Unit 7 that also includes the Chugach National Forest. Brown bear populations in both units are abundant.

The bag limit for brown bear in Unit 7 is one bear every regulatory year, September 1 – May 31, for both residents and nonresidents under the RB300 permit.

We see no reason the same bag limit and registration permit structure should not be implemented in Unit 14C Remainder.

PROPOSED BY: Resident Hunters of Alaska (HQ-F18-024)

****

PROPOSAL 117

5 AAC 85.015. Hunting seasons and bag limits for black bear.

Extend the hunting season for black bear in the Joint Base Elmendorf-Richardson Management Area in Unit 14C as follows:

Joint Base Elmendorf-Richardson (JBER) proposes to extend the black bear hunting season for 5 AAC 85.015. Unit 14C Joint Base Elmendorf-Richardson (DL455) to encompass the entire open season for black bears in Unit 14C: **Sept. 1—Jun 15** [APR. 15—JUN15]

What is the issue you would like the board to address and why? JBER would like to extend the black bear hunting season to encompass the entire open season for black bears in Unit 14C. For safety purposes during military training activities, portions of JBER are closed to the public while training occurs. Due to military training requirements, access to portions of JBER for the 2016 black bear hunt was curtailed for majority of the hunting season for safety to the military and public. To provide hunters with the greatest opportunity to have a successful hunt on JBER, we propose extending the open season dates of the hunt.

PROPOSED BY: Joint Base Elmendorf-Richardson (HQ-F18-010)

****

hunters an opportunity to take bears in a much safer way. Since most hunters harvest bears from a tree stand, the trajectory of the projectile is in a downward direction, eliminating a stray bullet from traveling far. It also provides a better opportunity for hunters by attracting the animal to a planned location where it would draw them away from more populated areas. Many Anchorage citizens were concerned over last year's many interactions between residents and bears. Panic in some after hearing of the death of a 14-year-old hiker. Over 30 animals were killed by ADF&G, police and residents claiming they or their property was in danger in the Anchorage area last year alone.

PROPOSED BY: Phillip Calhoun (EJ-F18-767)

****

PROPOSAL 121

5 AAC 92.044. Permit for hunting bear with the use of bait or scent lures.

Allow the harvest of bear with the use of bait in Unit 14C Remainder as follows:

Add Unit 14C Remainder to the list of areas under 5 AAC 92.044 where black bear baiting is allowed April 15 – June 30.

We also ask the Board of Game to consider allowing brown bear baiting from April 15 – May 31.

What is the issue you would like the board to address and why?

Bear baiting not allowed in Unit 14C Remainder.

Both black and brown bear hunting is allowed in Unit 14C Remainder for both residents and nonresidents and there is no closed season for black bear in Unit 14C Remainder.

Unit 14C Remainder is adjacent to Unit 7 and within the Chugach National Forest. Bear baiting is allowed in Unit 7 within the Chugach National Forest. There is no reason we can see that bear baiting is restricted in 14C Remainder. The area is fairly remote, there are plenty of bears, and opening up more baiting opportunities will help spread out bear baiters.

PROPOSED BY: Resident Hunters of Alaska (HQ-F18-023)

****

PROPOSAL 122

5 AAC 92.003. Hunter education and orientation requirements.

Require hunter education for small game hunting in the Joint Base Elmendorf-Richardson Management Area in Unit 14C as follows:

Joint Base Elmendorf-Richardson (JBER) proposes to be added to the list of areas identified requiring hunters to successfully complete a Basic Hunter Education course in the first paragraph of requirements for all hunters on page 13.
