Project Description	"For nearly two decades, Rural CAP has implemented services that address the needs of unsheltered individuals in Anchorage. The Supportive Housing team operates sixteen housing facilities in Anchorage, providing housing to hundreds of previously unhoused, special needs, and low-income people per year. Recent assessments indicated that the properties need drastic repairs and, if left uncorrected, 263 units of existing, affordable housing will become unlivable. This project will preserve existing affordable housing for the most vulnerable in Anchorage through necessary capital projects.

Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	Covenant House Alaska's vocational training and stable housing programs/resources serve our community's most vulnerable population of young people at-risk or experiencing homelessness and trafficking. These programs address economic impact by connecting to training and resources to ensure our clients have a pathway to employment which also leads to them attaining affordable housing.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	Our approach not only benefits the economy by connecting the clients to resources and providing training towards employment, but our housing options (on-site and community connections to stable housing units) give them a safe space to stay while attending trainings and employment opportunities to address the negative economic impact of COVID-19 and building the workforce again.

	The 2022 Henning, Inc. Transitional Housing Supportive

Project Description	Services Program provides supportive services for Anchorage's at-risk population experiencing homelessness at the Aviator Hotel. Services are provided onsite through our Housing Specialists and Peer Support staff to transition people from the streets or incarceration to stability and success. Our organization is peer led, meaning that staff have lived experience and have dedicated their careers and lives to supporting and improving the lives of people experiencing homelessness, behavioral health, and substance misuse challenges.

Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	Our goal was to help build a stronger community in downtown Anchorage by alleviating unsheltered homelessness by providing transitional housing and other services for individuals. In addition to displacing people from emergency low barrier shelters, the pandemic exacerbated mental health and substance use disorder needs in our community. Our objectives were to provide stable housing, while addressing mental health and substance use challenges using a housing first approach.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	Recognizing the disproportionate impact of the pandemic on the homeless community, the ARPA grant was instrumental in responding to the crisis. The Covid-19 pandemic displaced many people who were experiencing homelessness from the only low barrier shelter in Anchorage because of the requirement to socially distance. That created an additional crisis to the public health crisis created by the virus. Using ARPA funds allowed us to respond to the crisis by providing housing stability and support,

Project Description	<p>The purpose of this project is to provide connective tissue between efforts to ensure one coordinated and aligned housing push. As Emergency Operations work transitions to an endpoint, there is a need to coordinate funded services focused on the stand-down of Sullivan Arena and the housing navigation for those in congregate and non-congregate mass care and residing in unauthorized camps. The work done using these funds ensures that people experiencing homelessness (PEH) who are disproportionately impacted have the opportunity to be housed, not only in mass care but also in real opportunities after the close of mass care. This is accomplished by layering programs in our community to assist each individual, including, but not limited to: Emergency Housing Vouchers, Housing Stability Program, Rapid Rehousing, Landlord Housing Partnership incentives, etc. PEH are connected to services through case conferencing, a System Administrator, and an on-site Housing Transition Coordinator who provides assessments and makes connections to Intensive Case Management. ACEH is taking a hands-on approach to unit acquisition which will increase efforts to house PEH. As of the end of February, the housing push has offered services 1,348 times and has housed 149 adults. With access to HUD Technical Assistance, Coordinated Entry prioritization has been revamped to ensure a streamlined approach for those fitting into the buckets of a) Elderly and disabled, b) Disabled, c) Domestic Violence survivors, and d) Behavioral Health so that no one is overlooked in the housing first approach of ensuring homelessness is rare, brief, and one time.</p>

Project Description	The Elks currently rehome veterans in the Anchorage bowl. We are reimbursed 300.00 from our Grand Lodge to purchase bare essentials. 300.00 is barely enough to purchase them a shower curtain, toilet paper and a few other essentials. Our members and community have helped in donating some household goods and furniture but it would be more effective to be able to provide them with a complete home, giving them a quality of life and serving them as they have served our country. We also want to build a storage building, for the sole purpose of storing furniture etc. for those we rehome.

Ultimate goals for the school-based program are: (1) All students are able to access and receive school-based preventive early intervention and treatment services and as-needed community-based support; (2) The school community understands the signs and symptoms of behavioral health issues
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	Since 2015, VOA Alaska has provided mental health services within ASD schools. We first began offering these services as a co-located provider within four school-based health centers. In response to COVID-19, joined forces with Providence Alaska in 2020 to adopt an Integrated Multi-tiered Systems of Supports Model and expand our impact to serve 10 schools across the district. Our years of experience providing mental health services within schools has provided ample opportunity to refine.

Project Description	<p>ARPA funds for toilets and pathways will transform a paved parking lot into an economic and public health asset to help individuals and the tourism sector rebound from the pandemic.</p> <p>The pandemic spurred a huge demand for outdoor recreation and connection to nature. At Potter Marsh, a 55-car parking lot is funded for 2022, but it lacks adequate toilets and safe pedestrian circulation. Toilets and pedestrian connections are critical for public safety and health at the South Potter Marsh visitor site. In addition, a boardwalk would provide universal access and a tourist attraction.</p>

Project Description	Placemaking is ADP's space activation program. Year round, ADP activates underutilized public spaces downtown with free, community events and programs such as live concerts, fitness classes, children's events and more. These programs bring traffic into downtown to support local businesses before, after and during the event. These programs also employ local musicians, artists and create jobs within ADP's team. From making downtown Anchorage a destination for tourists and residents, to bringing significant dollars into the downtown economy, Placemaking creates investment into our community.

Project Description	AAS's Community Diaper Pantry serves families in the Anchorage area. We plan to mobilize and expand the pantry to better meet the needs in low-income neighborhoods in Anchorage and Eagle River. AAS currently distributes diapers/wipes to families in need, bi-monthly, from the AAS office. Diapers are an essential need for infants/toddlers and families suffering economic hardships due to COVID and inflation struggle to meet this need. This program addresses equity, quality of life, and economic development.

Project Description	Girdwood Inc. & Little Bears Playhouse are seeking grant funding to address the local workforce and childcare crisis by building a new childcare and learning facility. The current childcare building was built by volunteers in the 1960s, has structural issues and is not meeting the local childcare demand. The small capacity is limiting to Girdwood's success, as the workforce cannot go to work without adequate childcare. The project seeks to increase capacity to meet our community's needs and support Girdwood's workforce in an overdue and meaningful way. Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	The objective of the project is to develop a new and safe childcare facility in Girdwood Alaska. Inadequate access to childcare causes an intense negative impact on our local economy, causes workforce participants to be unavailable, in addition to children being currently served in an old and outdated facility with known structural defects. Girdwood is geographically separated from Anchorage, where the majority of other services are found.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	Not only is the current facility have structural issues, but it is also too small to properly socially distance. In the event of future health emergencies, we need adequate space, as young children can have difficulty with mask wearing and understanding the need to wear personal protective equipment. Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	"Management of stormwater in urbanizing watersheds has heavily relied on static, engineered conveyance systems during the last century. Population migration to urban centers, climate change and infrastructural capital investment and maintenance costs point to the need to develop a more resilient, dynamic, ""green"" infrastructural system as a sustainable solution in all urban watersheds, including Anchorage, as evidenced in other jurisdictions in America and the world.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	Key performance indicator for output measures for the project will be the impact of the initial dataset provided by the completed feasibility study on residents and decision makers. The information will reach residents in the Fish Creek watershed and in the wider Anchorage area to inform and educate and to foster collaborations among governmental, non-governmental and private constituencies. The outcome measure will be the follow-up projects that will focus on planning, funding and implementing

Project Description	LGBTQIA2S+ families in Alaska face discrimination, health inequities and a lack of access to welcoming, supportive and informed providers. Currently our sole Primary Care provider is usually booked several weeks out, which can lead to patients seeking care elsewhere; we do not have a Therapist on staff. This funding will support an expansion of behavioral health services and primary care services at the Clininc on Northern Lights. With this potential expansion, we will add two Primary Care providers, two CMAs, and a Therapist which will fill the gaps in our service array. Funding is to be released upon satisfactorily demonstrating matching fundraising commitments by June 1, 2024.

Project Description

how-to guides, homeschooling philosophies, and educational activity guides, as well as materials for homeschool curriculum reading lists, and popular books, educational books and DVDs, and STEM kits.

The Library experienced a significant rise in demand for digital materials during the COVID-19 closures. Use of the Library's online Wordbook Encyclopedia increased by 640% during that time due to additional use by students working from home without access to their school or public libraries.

Usage of the online learning platform [Lynda.com](https://www.lynda.com) and hoopla (digital books and movie streaming) increased over 50% as well. While digital usage slowed somewhat once curbside pick-up for physical materials was offered, many patrons have now transitioned to digital permanently, which will lead to further increased demand for these resources.

Purchase of 100 MiFi's that will provide access to low-income customers without technology through 2022.

Purchase of COVID-aware workstations that allow workers to return to public offices at the Chugiak-Eagle River Library.

Create an entrepreneurial creative space at the Library with a special keying system to allow entrance even when the library is closed; removing old case work to allow for an open and flexible space; updating the flooring; and installation of additional cameras so that the space is secure and safe for the users.

Funds 2 seasonal positions to coordinate seasonal activities dedicated to providing diverse and targeted programming in our parks and trails for underserved communities.

Provides Parks & Recreation Permit Fee Relief for Partners. "Beetle Kill Mitigation Program in Anchorage and Eagle River / Chugiak, Alaska

Includes expanding the MOA Tree Crew and procurement of equipment and contracted Tree Crews for beetle kill removal."

Funds a Roger Brooks "Road to Recovery" assessment of the Anchorage downtown and surrounding areas that would focus on development ideas, options, and ways Anchorage can recover and start on a path of success post-COVID.

Recovery Assessment includes activities such as "secret shopping," extensive photography, ideation – all focused on developing ideas, options, and ways Anchorage can recover and start on a path of success post-COVID.

Funds equipment upgrades for ADP to continue and expand their efforts to provide a clean and safe downtown and a parallel investment in funds to drive activation of public spaces in the downtown through a variety of efforts which aim to ensure the vitality of downtown. Further, these funds will be used to attract additional financial support to accomplish a broad array of projects including façade improvements, wayfinding with Indigenous place names, murals, Winter City activation.

Aid the Midtown Community Council in its exploration and organization around the formation of a Midtown Improvement District to promote security, safety and economic stimulus in Midtown. Funds will support outside expertise on the size of the district, necessary steps to create a tax improvement district and the scope of the work the district may wish to fund.

Lost revenue replacement. As a quasi-governmental agency, Anchorage Community Development Authority was

ineligible for any form of federal, state, or local economic relief throughout the pandemic. However, during that time, ACDA continued to provide its core public services throughout downtown Anchorage despite massive reductions in parking receipts and other revenues.

Public Transit Department funding for Underground Fuel Storage Tank Remediation at the Public Transportation facility on Elmore Road. This funding will be used in conjunction with FTA grant funds to replace the fuel storage tank.

Funding made available for facility safety and code upgrades at the Anchorage Health Department to include replacement of the original antiquated boilers to include; engineering, abatement, and replacement.

Available to the Anchorage Police Department for improvements at the Jewel Lake Training Center. In 2017, voters approved bond proposition 6 to complete this work, however, with the rising costs of supplies this project is in need of additional funds to complete the building improvements.

Funding made available to the Anchorage Fire Department to replace Emergency Medical Service (EMS) staff vehicles. This would allow for replacement of vehicles that have excessive mileage, suffer from unreliable performance, and have repairs that exceed the value of the vehicle.

Funding made available to MOA Maintenance & Operations for replacement of existing fleet inventory and have met their useful lives. Vehicles used beyond their useful lives can experience frequent down time and high maintenance costs if not replaced in a timely fashion. This would include replacement for APD, General Government, and Heavy Equipment.

Funds the installation of bicycle racks throughout the Municipality of Anchorage to provide more options for tourists and residents alike to access attractions and local businesses, and connect with outdoor public spaces.

Homeschool Students support. Development Midtown District. Replacement of fleet Inventory. Security and Cleaning of certain municipality owned properties

Description	For nearly two decades, RurAL CAP has implemented services that address the needs of unsheltered individuals in Anchorage. The Supportive Housing team operates sixteen housing facilities in Anchorage, providing housing to hundreds of previously unhoused, special needs, and low-income people per year. Recent assessments indicated that the properties need drastic repairs and, if left uncorrected, 263 units of existing, affordable housing will become unlivable. This project will preserve existing affordable housing for the most vulnerable in Anchorage through necessary capital projects.

Description	Shiloh Community Housing, Inc. (“SCH”) is a 501c(3) faith based, Black-led nonprofit organization operating in Anchorage since 2002. We’re addressing homelessness by offering accessibility to affordable, quality housing and eliminating the main causes of homelessness which we believe is lack of education, poor financial management, social barriers, lack of health and wellness knowledge, barriers to technology as well as lack of support and empathy from the community. SCH’s LIFE@Work program removes employment barriers by providing work readiness training, job training, work experience opportunities and wellness guidance to young adults 16 – 24 years of age. Funding will not only support our LIFE@Work program, it supports LIFE

Description	Hilltop needs to replace its aging rope tow system that brings beginners to the top of the learning hill with a modern, easy to use, energy efficient lift conveyor system. The rope tow that is currently in use is slow, aging, low capacity and learners struggle with grabbing the moving handle. The learning hill is an integral part of the snowsports school. Replacing the rope tow with a lift conveyor system, the student capacity for the Snowsports School would be exponentially increased, therefore reaching a larger number of Anchorage youth not only in lessons but also in youth employment.

Description	Anchorage Youth Court (AYC) is a juvenile justice program that empowers students to serve as defense attorneys, prosecutors, and judges in cases involving their peers. It gives students accountability, education, and the opportunity to have a positive influence on others' lives. AYC also gives young offenders a chance to resolve their legal issues with no long-term consequences and to learn from the experience. Our specific use of ARPA Funding will be to help cover staffing and other program expenses. Our goals in supporting our general program costs and staffing is to increase the engagement rates of defendants while continuing to support defendants in successful completion of their sentence.

Description	Conquer COVID Coalition had a specific focus at the height of the pandemic. As the pandemic evolved, the coalition adjusted to address other challenges in addition to COVID, including encouraging communities to get their flu shot while staying up-to-date on COVID vaccinations and other immunizations. The campaign has evolved from "Conquer COVID" to "Stay Healthy, Anchorage" to emphasize vigilance. The goal of the new messaging is to include COVID mitigation as part of overall good health and keeping businesses open. By doing so, the coalition hopes to normalize COVID mitigation behaviors.

Description	These funds will be used to operate the Anchorage Online Bootcamp program in 2022. The Anchorage Online Bootcamp program is in direct response to the COVID-19 public health emergency. ANC Online was developed to counteract the digital divide and help businessowners adapt to an increasingly online customer base due to COVID. Emergency ordinances have limited in-person transactions and some businessowners need extra support in adapting to the new, 'mostly-online' normal. That difficult transition threatens businesses and livelihoods, but can be overcome. The first Anchorage Online Bootcamp program ran in 2021, and served 30 businesses,

Description	The 2021 ARPA House of Transformations Grant consists of two major projects. The first program is the Signet Ring Vocational Center Project. This project includes programs such as: •CDL: We've successfully trained 1 CDL driver, partnered up with UAA to develop the apprenticeship for the commercial truck driving course. •Beauty School: We've licensed 2 hairdresser instructors, 2 permanent makeup instructors and 1 esthetician instructor. And from there we've licensed 2 hair braider students and 1 nail technician student. We have a student wait list, but we can only do 2 students at a time until the full beauty school license is completed then its 25 students per instructor.

Description	These funds will support continued Coordinated Entry implementation at Mass Care and new projects as the result of the exit strategy aiming to come online at the end of the first quarter of 2022. As was indicated in the grant proposal, it will be used as partial payment for an extended contract with Institute for Community Alliances (ICA). Per a notification letter dated 7/30/21, ICA is the Homelessness Management Information System (HMIS) contractor for the Alaska Continuums of Care. Due to ARPA, other COVID-19 relief funds, and homeless services created to respond to increased homelessness related to COVID-19, Anchorage added over a dozen new programs to assist persons experiencing
