John,

I apologize for the late response, I was out of town and didn't see this until now.

Given how long the rules have been in place, and the general level of awareness of these rules by the industry, I think it is time to revisit the fines for violations. In the towing industry we made all fines \$500 which really streamlined it for everyone. Updating the fines like we did in the towing industry encourages immediate resolution of violations. Our experience with that industry was that it only took issuance of a few fines for noncompliance for the industry to step up and become partners with us. I recommend we do the same for marijuana regulations.

Here is a copy of the existing Tow Operator fines, and the existing fine schedule for violation of marijuana regulations with the proposed change to the fine schedule in red, bold font.
