

## Basic Operational Permit Instructions

### All Permitted Events:

1. Submit an Operational Permit Application form for review and approval at least 2 weeks prior to the event. **Operational Permits applications received less than 2 weeks prior to the event may be subject to additional fees including after-hours fees.**
2. Submit a detailed floor plan and event narrative for indoor events or site plan and event narrative for outdoor events.

#### Indoor events:

- Show location of all exits.
- Show location and types of any cooking appliances or any other open flame devices.
- Provide a seating arrangement unless using a previously approved plan on file at Fire Prevention.

#### Out-of-Doors Events:

- Show the specific location of the event; give distances to buildings, streets and other public ways.
- Show location and types of any cooking appliances or any other open flame devices.

3. Show occupant loads.
4. Include details and dimensions for aisles and exits.
5. Provide details of proposed fire extinguisher type(s) and locations. Note that deep fat fryer cooking requires a K-class fire extinguisher within 20 feet of the appliance.
6. Provide dates and times of the event.
7. Show location and size of all tents and canopies that exceed 400sf. Provide documentation of current proof of flame spread and flammability index with expiration date.
8. If fireworks will be used, a separate permit application is required. Those displays must be permitted by a State licensed pyrotechnics contractor. Call 267-4901 for more information.
9. After review and approval of the application you will be notified. A copy is given to the inspector who will conduct the inspection (if required). Inspection will be coordinated to happen after set-up is complete, but prior to opening to the public. Note that inspections which occur after the hours of 7:30 AM to 4:30 PM, M-F or on MOA holidays, will incur after hours inspection charges.

The event sponsor / applicant should allow time for the correction of any deficiencies found by the inspector. Upon approval, the inspector will sign off on the original permit being held by the applicant, and approve the copy and place it in the permit file at fire prevention. A separate fire inspection notice (FIN) will be mailed and/or faxed to you for the review of the plans and another for the site inspection, if required. The inspector will notify you if a site inspection is required.
