Performance Measures

Progress in achieving goals will be measured by:

Measure #1: Number of Payroll Payments made to Municipal Employees

- The Municipality of Anchorage maintained an average of 2666 employees during the second quarter of 2021.
- The number of payments processed include the 7 pay days in the quarter plus any off-cycle checks.
 - Off Cycles are usually for employees who are separating from the Municipality of Anchorage.
- Please note the drop in the number of payroll payments processed in 2021 is due to the sale of MLP.

Measure #2: Errors in Pay

When an error in pay occurs a pay correction form is submitted to Central Payroll. The graph below shows the percentage of pay corrections received in relation to the total number of payroll payments made. As you can see the number of pay corrections from second quarter 2019 compared to second quarter 2021 has decreased by 285 or 1.41%.

PVR Measure WC: Managing Workers' Compensation Claims

Reducing job-related injuries is a priority for the Administration by ensuring safe work conditions and safe practices. By instilling safe work practices, we ensure not only the safety of our employees but reduce the potential for injuries and property damage to the public. The Municipality is self-insured and every injury poses a financial burden on the public and the injured worker's family. It just makes good sense to WORK SAFE.

Results are tracked by monitoring monthly reports issued by the Risk Management Division.
