

Alaska Department of Transportation and Public Facilities

2024 Construction Project Overview

Project Name: Anchorage Airport Postmark Drive Repairs 2024

Project Number: CSAPT01146

Project Description: Rehabilitate Postmark Drive from Rockwell Avenue to Dehavilland Avenue, including pavement planing, paving, and striping.

Postmark Drive is the main roadway corridor to the North Airpark business district. The existing asphalt is showing signs of distress including rutting and cracking. Field maintenance has extended the life of this asphalt by performing preventative maintenance. A pavement preservation project is necessary in order to prevent a more expensive reconstruction project in the near future.
