

2024 Construction Project Overview

Project Name: Anchorage Airport Taxiway R Tug Road Improvements

Project Number: CSAPT01127

Project Description: Through this project we will rehabilitate Tug Road from Taxiway V to the Alaska Cargo Port. Work will include pavement planing, paving, and striping. This segment of the Tug road system is the primary access point to the terminal, north airpark, and south airpark. This section of Tug Road was constructed between 2003 and 2005, and the existing asphalt is showing signs of distress including rutting and cracking. If this project is not completed the roadway will further deteriorate, which would require more expensive maintenance.
