Project Nomination Form
June 14-July 14, 2017

Project Name:

Name of Person submitting this Nomination:

Affiliation:

Phone Number:

E-mail Address:

Description of Project (What is your project? Please describe.)

Operational Improvements

What impacts on traffic operations will the project have?

Regional Connections

Regional Connections are facilities that serve regional transportation needs (such as access to and from the area outside the region; major activity centers in the region; major planned developments such as new retail malls, sports complexes, or employment centers or transportation terminals.) Will the project provide a new or improved regional connection? What will the length of that new or improved connection be?

amatsinfo@muni.org
P: 907.343.7996
F: 907.249.7980

System Connectivity

What impact on system connectivity (Motorized and non-motorized) will the project have? If it provides new or improved system connectivity will it be closing a gap in connectivity of ½ mile or more?

Bicycle Route/ Trail use

What impact on bicycle route or trail use will the project have?

Transit Access

What impacts on transit access will the project have? Will the project improve transit access within ½ mile of a transit route?

Sidewalk Use

What impacts on sidewalk use will the project have?

Level of Environmental Impacts

Will consider factors such as property impacts, potential threatened and endangered species, wetlands, floodplains, stream crossing and parkland. What impacts on the natural environment will the project have?

amatsinfo@muni.org
P: 907.343.7996
F: 907.249.7980

Level of Community Impacts

Will consider factors such as impacts to educational facilities, negative visual impacts, impacts to recreational facilities, neighborhood division, and impacts to livability factors. What impacts on the surrounding community will the project have?

Level of Environmental Justice (EJ) Impacts

Environmental Justice at the Federal Highway Administration (FHWA) means identifying and addressing disproportionately high and adverse effects of the agency's programs, policies, and activities on minority populations and low-income populations to achieve an equitable distribution of benefits and burdens. What impacts on the minority and low-income populations will the project have?

Level of Americans with Disabilities Act (ADA) Impacts

The Americans with Disabilities Act (ADA) of 1990 prohibits discrimination and ensures equal opportunity and access for persons with disabilities. Will the project incorporate ADA elements?

Addresses Safety Issue

Does the project promote the safe movement of people and goods? Does the project directly or indirectly address an identified vehicular or bicycle/pedestrian safety issue?

F: 907.249.7980

Transportation System Management (TSM) and Transportation Demand Management (TDM)

TSM is a program to reduce congestion and improve traffic flow through traffic signal synchronization, freeway operations improvements, incident management (clearing crashes and breakdowns quickly) and other methods. TDM is the application of strategies and policies to reduce travel demand, or to redistribute this demand in space or in time, to increase transportation system efficiency. Does the project include TDM or TSM elements?

Consistency with Adopted Plan

Is this project consistent with currently adopted State or local plans including the Comprehensive Plan, the MTP, the OS&HP, Trails Plan, Pedestrian Plan, Bike Plan, Freight Mobility Study, etc? Describe and explain.

Economic Benefits

Does the project encourage economic development and/or redevelopment through improved access and transportation opportunities? Does the project provide minimal, moderate or significant benefits?

Preservation of Existing Facility

Does the project provide significant, moderate or minimal preservation benefits of an existing facility?
