# Percentage of Voters by Age

Alaska General Election - 1992\*

Source: Alaska Division of Elections. \*1992 data is more reliable than current data, because beginning in 1993, a change in election laws has meant that voter rolls are not purged of non-residents on a regular basis. As a result, in 2000 the number of registered voters is higher than the number of residents in all age groups, except 18-20 year olds.
