PETITIONING FOR	

CODE CITATIONS	
AMC 21.	
AMC 21.	

I hereby certify that (I am)(I have been authorized to act for) owner of the property described above and that I am petitioning for variance in conformance with Title 21 of the Anchorage Municipal Code of Ordinances. I understand that payment of the application fee is nonrefundable and is to cover the costs associated with processing this application, and that it does not assure approval of the variance. I understand that the burden of evidence to show compliance with the variance standards rests with me, the applicant. I also understand that assigned hearing dates are tentative and may have to be postponed by Planning Department staff or the Urban Design Commission for administrative reasons.

	(Additional information may be	required.)

VARIANCE STANDARDS

The Urban Design Commission may only grant a variance if the Commission finds that **all** of the following 8 standards are substantially met. Each standard must have a response in as much detail as it takes to explain how your property's condition satisfies the standard. The burden of proof rests with you.

- a. The proposed alternative achieves the intent of the subject design standard to the same or better degree than the subject standard;
- b. The proposed alternative achieves the goals and policies of the comprehensive plan to the same or better degree than the subject standard;
- c. The proposed alternative results in benefits to the community that are equivalent to or better than compliance with the subject standard;
- d. The variance, if granted, will not adversely affect the use of adjacent property as permitted under this code;
- e. The variance, if granted, does not change the character of the zoning district where the property is located, is in keeping with the intent of the code, and does not permit a use not otherwise permitted in the district in which the property lies;
- f. Persons with disabilities are provided with access as required by the Americans with Disabilities Act (ADA) and reasonable accommodation; and
- g. The variance, if granted, does not adversely affect the health, safety, and welfare of the people of the municipality.
- h. In evaluating the request for a variance from the maximum sign height, the urban design commission may consider whether there are special topographic circumstances that would result in a material impairment of visibility of the sign from the adjacent roadway which significantly diminishes the owner's or user's ability to continue to communicate adequately and effectively with the public through the use of the sign.
