1 **CHAPTER 21.13: RULES OF CONSTRUCTION AND DEFINITIONS**

2 **21.13.010 INTERPRETATIONS¹**

3 **A. General**

4 The director has final authority to determine the interpretation or usage of terms used in
5 this title, pursuant to this section. Any person may request an interpretation of any term
6 by submitting a written request to the director, who shall respond in writing within 30
7 days. The director's interpretation shall be binding on all officers and departments of the
8 municipality.

9 **B. Record of Interpretations**

10 The director shall maintain a file of all interpretations made pursuant to this subsection.

11 **C. Appeal**

12 Any person may appeal an interpretation by the director regarding a term used in this title
13 to the zoning board of examiners and appeals in accordance with section 21.03.210B.

14 **21.13.020 RULES OF CONSTRUCTION AND INTERPRETATION**

15 The following rules shall apply for construing or interpreting the terms and provisions of this chapter.

16 **A. Meanings and Intent**

17 All provisions, terms, phrases, and expressions contained in this chapter shall be
18 construed according to the general purposes set forth in section 21.01.030 and the
19 specific purpose statements set forth throughout this chapter. When, in a specific section
20 of this chapter, a different meaning is given for a term defined for general purposes in this
21 chapter 21.13, the specific section's meaning and application of the term shall control.

22 **B. Headings, Illustrations, and Text**

23 In the event of a conflict or inconsistency between the text of this chapter and any
24 heading, caption, figure, illustration, table, or map, the text shall control.

25 **C. Lists and Examples**

26 Unless otherwise specifically indicated, lists of items or examples that use terms such as
27 "for example," "including," and "such as," or similar language are intended to provide
28 examples and are not exhaustive lists of all possibilities.

29 **D. Computation of Time**

30 The time in which an act is to be done shall be computed by excluding the first day and
31 including the last day. If a deadline or required date of action falls on a Saturday,
32 Sunday, or holiday observed by the municipality, the deadline or required date of action
33 shall be the next day that is not a Saturday, Sunday, or holiday observed by the
34 municipality. References to days are calendar days unless otherwise stated.

1 **E. References to Other Regulations/Publications**

2 Whenever reference is made to a resolution, ordinance, statute, regulation, or document,
3 it shall be construed as a reference to the most recent edition of such regulation,
4 resolution, ordinance, statute, regulation, or document, unless otherwise specifically
5 stated.

6 **F. Delegation of Authority**

7 Any act authorized by this chapter to be carried out by a specific official of the
8 municipality may be carried out by a designee of such official.

9 **G. Technical and Non-Technical Terms**

10 Words and phrases shall be construed according to the common and approved usage of
11 the language, but technical words and phrases that have acquired a peculiar and
12 appropriate meaning in law or practice shall be construed and understood according to
13 such meaning.

14 **H. Public Officials and Agencies**

15 All public officials, bodies, and agencies to which references are made are those of the
16 municipality, unless otherwise indicated.

17 **I. Mandatory and Discretionary Terms**

18 The words “shall,” “must,” and “will” are mandatory in nature, establishing an obligation or
19 duty to comply with the particular provision. The words “may” and “should” are
20 permissive in nature.

21 **J. Conjunctions**

22 Unless the context clearly suggests the contrary, conjunctions shall be interpreted as
23 follows:

- 24 **a.** “*And*” indicates that all connected items, conditions, provisions or events
25 apply; and
- 26 **b.** “*Or*” indicates that one or more of the connected items, conditions,
27 provisions or events apply.

28 **K. Tenses, Plurals, and Gender**

29 Words used in the present tense include the future tense. Words used in the singular
30 number include the plural number and the plural number includes the singular number,
31 unless the context of the particular usage clearly indicates otherwise. Words used in the
32 masculine gender include the feminine gender, and vice versa.

33 **L. Measurement of Distances For Separation of Land Uses**

34 Except where stated otherwise, whenever this title requires measurement of distance
35 between use types, development sites, or lots, such measurement shall be made from
36 the nearest property line of the first reference point to the property line of the second
37 reference point.

1 **21.13.030 DEFINITIONS²**

2 When used in this title, the following words and terms shall have the meaning set forth in this
3 section, unless other provisions of this title specifically indicate otherwise.

4 **Abandonment (as used in chapter 21.11, Nonconformities)**

5 A situation where a nonconforming use, structure, lot, or sign that has legal nonconforming status is
6 vacated, left, or discontinued for a period of 12 months or longer.

7 **Abutting**

8 **Adjoining or bordering.**

9
10 **Abutting Lots**

11 Two lots abut when they share a common lot line.

12 **Access**

13 A way or means of approach to provide vehicular or pedestrian physical entrance to a property.

14 **Accessibility**

15 The extent to which a property is easily accessed or approached.

16
17 **Adjacent**

18 **Near or close to, but not necessarily touching or bordering.**

19
20 **Adjacent Lots**

21 Two lots are adjacent where they have a common lot line or where they are separated only by an alley or
22 a street right-of-way ~~not designated as a collector on the official streets and highways plan.~~

23 **Afforestation**

24 The conversion of land that has not been forested for a period of time to forested land through human
25 activities such as planting and seeding.

26 **Airport Elevation**

27 The highest point of an airport's usable landing area, measured in feet above mean sea level.

28 **Alaska Water Quality Standards**

29 Those standards set forth in title 18, chapter 70, of the Alaska Administrative Code.

30 **Alley**

31 A permanent service right-of-way providing a secondary means of access to abutting properties.

32 **AMC**

33 Anchorage Municipal Code.

34 **Amortization**

35 A process where a legal nonconforming use, characteristic of use, structure, lot, or sign is required to be
36 brought into compliance with the requirements of this title over a period of time with sufficient length to
37 allow the owner of the legal nonconformity to realize any reasonable investment-backed expectations
38 regarding the legal nonconformity.

39 **Anchorage Metropolitan Area Transportation Solutions (AMATS)**

40 The transportation planning process for the municipality.

- 1 **Antenna or Antenna Array**
2 Any exterior transmitting or receiving device mounted on a tower, building, or structure and used in
3 communications that radiate or capture electromagnetic waves, digital signals, analog signals, radio
4 frequencies (excluding radar signals), amplitude modulation arrays, wireless telecommunications signals,
5 or other communications signals.
- 6 **Apartment or Apartment Building**³
7 Any building, or portion thereof, which is designed, built, rented, leased, let, or hired out to be occupied,
8 and which contains dwelling units for three or more families living independently of each other.
- 9 **Approach, Transitional, Horizontal, and Conical**
10 Surfaces or zones that are airspace zones defined as set forth in FAR part 77, subpart C, paragraph
11 77.25.
- 12 **Architectural Feature (as used in chapter 21.10, Signs)**
13 Any construction attendant to, but not an integral part of the sign, which may consist of landscape,
14 building, or structural forms that enhance the site in general; also, graphic stripes and other architectural
15 painting techniques applied to a structure that serves a functional purpose, or when the stripes or other
16 painting techniques are applied to a building provided such treatment does not include lettering, logos or
17 pictures.
- 18 **Architectural Feature (as used in chapter 21.07, Development and Design Standards)**
19 A part, portion, or projection that contributes to the aesthetic quality of a building or structure, exclusive of
20 signs, that is not necessary for the structural integrity of the building structure or to make the building or
21 structure habitable.
- 22 **Architectural Bay**
23 A spatial division of a wall, usually repeated at intervals as part of a series, marked off by vertical
24 supports of a structure.
- 25 **Area, Building**
26 The total of areas taken on a horizontal plane at the main grade level of the principal building and all
27 accessory buildings or structures exclusive of steps.
- 28 **Area Lighting**
29 Light fixtures located on public or private property that are designed to light spaces. Area lighting does
30 not include hardscape, façade, or landscape lighting.
- 31 **Areawide Zoning Map Amendment**
32 A zoning map amendment initiated to implement the comprehensive plan, adjust use district boundaries,
33 or redistrict property throughout a region or neighborhood as distinguished from a single subdivision or
34 tract.
- 35 **Assembly**
36 The assembly of the municipality.
- 37 **Assisted Living**
38 Has the same meaning as set forth in Alaska statutes chapter 47.33.
- 39 **Average**
40 The equaling of an arithmetic mean. As used in section 21.07.080, *Landscaping, Screening, and Fences*,
41 this shall be interpreted to mean the plantings may be grouped together in such a way as the designer
42 may choose so long as the total number of plants meets the standard.

1 **Average Slope**

2 Average slope is calculated by the following formula:

3 $S = (I \times L \times 0.0023) / A$

4 Where:

5 S = Average slope of lot or tract in percent.

6 I = Contour interval (20 feet or less).

7 L = Sum of the length of all contours on lot or tract in feet.

8 A = Area of the lot or tract in acres.

9 **Base Flood (100-Year)**

10 The flood having a one percent chance of being equaled or exceeded in any given year.

11 **Billboard**

12 A sign structure advertising an establishment, merchandise, event, service or entertainment that is not
13 sold, produced, manufactured or furnished at the property on which the sign is located. Any other
14 outdoor advertising prohibited by the provisions of Alaska statutes sections 19.25.075 – 19.25.180 shall
15 also be considered billboards.

16 **Block**

17 A block is defined by an area of land bounded by streets, or a combination of streets, railroad **utility**
18 **corridor**, ~~right-of-way~~, shorelines of waterways, or municipal boundary lines.

19 **Block Length**

20 The distance between intersections of through streets, such distance being measured along the longest
21 street bounding the block and from right-of-way line to right-of-way line of the two intersecting streets.

22 **Board of Adjustment**

23 The board of adjustment of the municipality.

24 **Board of Examiners and Appeals**

25 The zoning board of examiners and appeals of the municipality.

26 **Bollard-Style Lighting**

27 Lighting consisting of short posts that incorporate a lighting element.

28 **Brightness**

29 The human perception of luminance. See **Luminance** and **Candela**.

30 **Buffer, Perimeter**

31 A unit of land and any plants and structures (i.e., walls, fences) thereon that is used to separate land uses
32 from each other.

33 **Building**

34 Any structure built for the support, shelter, or enclosure of persons, animals, chattels, or property of any
35 kind.

-
- 1 **Building, Accessory**
2 A building or structure that is on the same lot as, and of a nature customarily incidental and subordinate
3 to, a principal building or structure, and the use of which is clearly incidental and subordinate to that of the
4 principal building or structure.
- 5 **Building Coverage**
6 ~~That percentage of the total lot area covered by buildings.~~
- 7 **Building Envelope**
8 The three-dimensional space within which a structure is permitted to be built on a lot and which is defined
9 by regulations governing setbacks, maximum height and bulk; by other regulations; or any combination
10 thereof.
- 11 **Building, Front Line of**
12 The line of that part of the building nearest the front property line of the lot.
- 13 **Building, Principal**
14 A structure in which is conducted the main use of the lot on which the structure is situated.
- 15 **Building Permit**
16 See **Permit, Building**.
- 17 **Building Wall (as used in chapter 21.10, Signs)**
18 Any vertical surface of a building or structure (other than a pitched roof) that is integral to and could
19 reasonably be constructed as part of the architecture of the building when a sign(s) is not being
20 contemplated. Examples of building walls include but are not limited to: awnings, canopies, marquees,
21 the vertical portion of gable roofs, parapets, mechanical penthouses, etc.
- 22 **Business**
23 An enterprise that for consideration will provide for the sale or the rental of any article, substance, or
24 commodity, including but not limited to business services and personal services.
- 25 **Caliper**
26 The diameter of a tree six inches above the ground.
- 27 **Camper**
28 A portable structure mounted on a truck or truck chassis or a converted hearse, bus, station wagon or
29 panel truck designed for use as a temporary travel dwelling.
- 30 **Candela**
31 A unit measuring luminous intensity of a lighting source. An ordinary candle has a luminous intensity of
32 one candela. See **Luminance**.
- 33 **Canopy**
34 A permanent architectural element projecting out from a building façade over a sidewalk or walkway. A
35 canopy shall be at least five feet in horizontal width, and no less than eight feet and no more than 15 feet
36 above grade.
- 37 **Cartway**
38 The paved area of a street between the curbs, including travel lanes and parking areas, but not including
39 shoulders, curbs, sidewalks, or swales. If curbs are lacking and parking is restricted to shoulders, the
40 cartway is defined as the travelway (exclusive of shoulders).

1 **CATV**

2 A utility that operates non-broadcast facilities that distribute to subscribers the signals of one or more
3 television broadcast stations.

4 **Certificate to Plat**

5 A certificate prepared by a title company authorized by the laws of the state to write the title, showing the
6 names of all persons having any record title interest in the land to be platted, together with the nature of
7 their respective interests therein.

8 **Certificate of Occupancy**

9 A certificate of zoning compliance issued by the municipality allowing the occupancy or use of a building
10 in the building safety service area, and certifying that the structure or use has been constructed or will be
11 used in compliance with all applicable municipal codes and ordinances.

12 **Certificate of Zoning Compliance**

13 A document issued by the municipality indicating that a structure or use meets the applicable zoning
14 requirements at the time of issuance.

15 **Civil Penalty**

16 A fine levied by the municipality for a violation of this title.

17 **Clearing**

18 The removal of woody plants over six inches above the ground, without disturbing the vegetative mat,
19 using any method.

20
21 **Collocation**

22 The location of antennae on existing structures, including but not limited to towers occupied by another
23 provider, buildings, water towers, utility substations, utility poles, and church steeples.

24
25 **Color Rendering Index (of a light source) (CRI)**

26 A measure of the degree of color shift that objects undergo when illuminated by the light source as
27 compared with those same objects when illuminated by a reference source of comparable color
28 temperature.

29 **Combination**

30 The elimination of interior lot lines in a subdivision that does not involve the vacation of dedicated streets,
31 easements, or public areas.

32 **Commercial**

33 An enterprise involved in the production, processing, or merchandising of a commodity for, usually, but
34 not necessarily, a profit.

35
36 **Commercial Development**

37 A planned commercial center designed specifically for commercial use.

38 **Commercial Subdivision**

39 ~~A subdivision, or that part of a subdivision, that is within the AC, CBD-1, CBD-2, CBD-3, MC, MU, or O~~
40 ~~zoning districts.~~

41 **Commercial Tract Site Plan**

42 A map of a commercial tract depicting building footprints, parking areas, landscaping, driveway access
43 points to the property, site drainage and any fragment lots to be contained within the commercial tract.

1 **Common Areas and Facilities**

2 Those areas of a subdivision, building, planned unit development or condominium, including the property
3 upon which it is located, that are for the common use and enjoyment of the owners and occupants of the
4 subdivision, building, planned unit development or condominium. The areas may include the land, roofs,
5 main walls, elevators, staircases, lobbies, halls, parking space, open space, and communal facilities.
6 Common areas are shared by all tenants and are distinguished from space designated for private use.

7 **Common Wall**

8 A wall extending from the footing of a building to the roof along a side lot line between two lots on which
9 the building is located.

10 **Community Council**

11 Nonprofit, voluntary, self-governing associations composed of residents, property owners, business
12 owners, and representatives from nonprofit associations and other entities located within geographical
13 areas designated as districts by the assembly. Residents, for the purpose of this chapter, are defined as
14 residents, property owners, and representatives from nonprofit associations and other entities located
15 within geographical areas designated as districts by the assembly.

16 **Comprehensive Plan**

17 The collection of long-range municipal planning documents and maps that serves as the official policy
18 guide for the long-range physical, social, and economic development of **the municipality Anchorage**,
19 including the provision of its public infrastructure and services. The comprehensive plan is comprised of
20 a series of distinct plans adopted by the assembly as elements of the comprehensive plan, that each deal
21 with separate aspects of community planning. The term "comprehensive plan" as used in this title refers
22 to any or all of these long-range plans that taken together constitute the comprehensive plan for the
23 municipality.

24 **Comprehensive Plan Amendment, Cosmetic**

25 An amendment that affects the appearance, style, wording, or presentation of the comprehensive plan,
26 but does not alter its meaning, interpretation, or recommendations. Examples of cosmetic amendments
27 include, but are not limited to: revising map or document style, format, or layout to enhance clarity;
28 revising map or text content to accurately reflect additions to municipal facilities or revisions to adjoining
29 jurisdictions' adopted plans; adding explanatory text or labels; and correcting spelling or grammar.

30 **Comprehensive Plan Amendment, Substantive**

31 An amendment that affects the intent of the comprehensive plan. Examples of substantive amendments
32 include, but are not limited to: revising text to address a new policy direction or the addition of a new
33 zoning district.

34 **Comprehensive Plan Map**

35 An element of the Anchorage Comprehensive Plan, comprised of one or more land use plan maps,
36 residential intensity maps, and other maps, as well as supporting text and tables. The comprehensive
37 plan map provides a geographically explicit statement of the adopted plan's policies for future land use
38 and growth. It designates the ultimate future location, density, and general character of land uses in the
39 community. It also serves as a guide for the official zoning map.

40
41 **Construction**

42 Design, engineering, contract administration, work, labor, and materials furnished for an improvement.

43 **CRI**

44 See **Color Rendering Index**.

1 **Critical Root Zone**

2 The area beneath a tree's crown, within the tree's drip line, or one foot distance from the trunk for each
3 one inch in diameter, whichever is greater. The critical root zone is the portion of the root system that is
4 the minimum necessary to maintain the vitality or stability of the tree.

5 **DBH (as used in section 21.07.020, *Natural Resource Protection*)**

6 "Diameter at breast height," or diameter of a tree at four and one-half feet off the ground.

7 **Daylight Plane**

8 An inclined plane, beginning at a stated height above grade at a property or setback line, and extending
9 into the site at a stated upward angle to the horizontal, which may limit the height or horizontal extent of
10 structures at any specific point on the site where the daylight plane is more restrictive than the height limit
11 or the minimum setback applicable at such point on the site.

12
13 **Decision-Making Body**

14 The person, board, or commission with the authority to approve, modify, or deny an entitlement
15 application, as stated in section 21.02.020 and elsewhere in this title.

16
17 **Dedication**

18 The devotion of land to a public use by the owner manifesting the intention that it shall be accepted and
19 used presently or in the future for such public purpose. A dedication by the owner under the terms of this
20 subsection is a conveyance of an interest in property, which shall be deemed to include the warranties of
21 title listed in AS 34.15.030. The dedication of streets, alleys, sidewalks, or public open space shall
22 convey a fee interest in the area dedicated. The dedication of all other public rights-of-way, including
23 utility rights-of-way, shall be deemed to create an easement in gross to perform the indicated function in
24 the area depicted.

25 **Defined Bank**

26 The usual boundaries, not the flood boundaries, of a stream channel.

27 **Density, Gross**

28 The number of dwelling units per acre in any residential development.

29
30 **Density, Net**

31 The total number of dwelling units on a particular tract or parcel of land, not taking into account portions of
32 the tract or parcel that contain rights-of-way for streets, lakes, other water bodies, wetlands falling under
33 the regulatory jurisdiction of the U.S. Army Corps of Engineers, or other areas restricted from developed
34 by this title.

35 **Department**

36 Unless otherwise indicated in the text of this code, the planning department of the municipality.

37 **Depth**

38 When viewed from the front of an object or a three-dimensional space, the measurement from a forward
39 plane to a rearward plane.

40
41 **Developer**

42 That person or entity improving or developing land, who may or may not be the owner of the property.

43 **Development**

44 The initiation, construction, change, or enlargement of any use or structure, the disturbance of land, or the
45 division of land into two or more parcels. "Development" shall include, but not be limited to, the following:

- 1 • Construction or enlargement of a building or structure;
- 2 • Change in the type of use of a building, structure, or land;
- 3 • Material increase in the intensity of use of land, such as an increase in the number of businesses,
4 offices, manufacturing establishments, or dwelling units located in a building or structure or on the
5 land;
- 6 • Commencement or expansion of resource extraction, agricultural, horticultural, or forestry activities on
7 a parcel of land;
- 8 • Demolition of a structure or the removal of vegetation from a parcel of land;
- 9 • Deposition of refuse, solid or liquid waste, or fill on a parcel of land;
- 10 • Alteration, either physically or chemically, of the shore, bank, or channel of any stream, lake, or other
11 body of water or alteration of any wetland; and
- 12 • Any land-disturbing activity that adds to or changes the amount of impervious or partially impervious
13 cover on a land area or which otherwise decreases the infiltration of precipitation into the soil.

14 **Disability (or Handicap)**

15 Has the same meaning as “disability,” pursuant to the Americans with Disabilities Act of 1990, as
16 amended, 42 U.S.C. 126.

17 ~~**Distribution Substation**~~

18 ~~A utility facility where the electric voltage is transformed for distribution through a substation transformer.~~

19 **Director**

20 Unless otherwise indicated in the text of this code, the director of the planning department or designee.

21 **Double-Frontage Lot**

22 See **Lot, Double-Frontage**

23
24 **Dwelling**

25 A building or portion of a building designed or used exclusively as the living quarters for one ~~or more~~
26 families.

27 ~~**Dwelling, Mobile Home**~~

28 ~~A dwelling constructed and fabricated after July 13, 1994, into one or more sections at a factory and~~
29 ~~designed to be joined at the location of use on a permanent foundation.~~

30 **Easement**

31 An interest in land owned by another that entitles the easement holder to a specified limited use or
32 enjoyment.

33 **Elevation, Building**

34 A geometrical projection of a structure on a vertical picture plane parallel to one of its sides, drawn to
35 scale.

36

1 **Encroachment**

2 The projection or intrusion of a building, structure, or other land-disturbing activity into an area where
3 such projections or intrusions are typically prohibited.

4 **Engineer**

5 A registered professional civil engineer authorized to practice engineering in the state of Alaska.

6 **Entitlement**

7 Any permit or approval granted under this title, including, but not limited to zoning map amendments,
8 conditional use permits, preliminary or final plat approval, site plan approval, and variances. For
9 purposes of administering and enforcing this title, the term also includes building and land use permits.

10 **Entrance, Primary**

11 A principal entry through which people, including customers, residents, or members of the public enter a
12 building. For any commercial or institutional establishment which serves the visiting public, a primary
13 entrance is open to the public during all business hours and directly accesses lobby, reception, retail, or
14 other interior areas designed to receive the public. Fire exits, service doors, and employee entrances are
15 not primary entrances. A building or establishment may have more than one primary entrance.

16
17 **Erosion**

18 The wearing away of land surface by the action of wind, water, gravity, or any combination thereof.

19 **Erosion Control**

20 A measure, structure, or device that controls the soil material within the land area under responsible
21 control of the person conducting a land-disturbing activity.

22 **Existing Vegetation**

23 Vegetation that predates a development application by at least two years.

24
25 **Ex Parte Contact**

26 A communication involving a municipal official and a member of the public or a municipal consultant
27 regarding a pending quasi-judicial matter or appeal, such that the municipal official may be exposed to
28 only one perspective or part of the evidence with regard to a quasi-judicial matter pending before the
29 commission or board on which the municipal official serves. Ex parte communications occur at other than
30 a public meeting of the commission or board on which the municipal official serves at which the quasi-
31 judicial matter discussed has been publicly noticed.

32 **Extent Reasonably Feasible**

33 Under the circumstances, reasonable efforts have been undertaken to comply with the regulation, that the
34 costs of compliance clearly outweigh the potential benefits to the public, or would unreasonably burden
35 the proposed project, and reasonable steps have been undertaken to minimize any potential harm or
36 adverse impacts resulting from noncompliance with the regulation.

37 **Facade, Building**

38 A vertical plane of a structure.

39
40 **Family**

41 One or more persons occupying premises and living as a single housekeeping unit, as distinguished from
42 a group occupying a roominghouse, club, fraternity house or hotel.

43 **FAR**

44 See **Floor Area Ratio**.

1
2 **Feature, Architectural**
3 See **Architectural Feature**.

4 **Fence**
5 An artificially constructed barrier which is erected to enclose, screen, buffer, enhance or separate areas.

6
7 **Fence, Open**
8 A fence constructed with openings between materials used in its construction, such that three-fourths
9 (75%) or more of a visual image or light source may be seen through the fence.

10 **Fence, Semi-Open**
11 A fence constructed with openings between materials used in its construction, such that less than 75% of
12 a visual image or light source may be seen through the fence.

13 **Fence, Screening (Opaque)**
14 A fence, including any gates, constructed of solid material, wood or masonry, through which no visual
15 images or light sources may be seen.

16 **Final Acceptance**
17 Acceptance by the municipality, at the completion of construction, of a public improvement, constructed
18 under terms of a subdivision agreement.

19 **Flag**
20 Any fabric, banner or bunting containing distinctive colors, patterns or symbols, used as a symbol of a
21 government, political subdivision, corporate or commercial entity, or institution. A corporate or
22 commercial, or institutional flag may only display the name, trademark, or logo of the business or
23 institution on the parcel and such flag may not be used for other business or advertising purposes.

24 **Flag Lot**
25 See **Lot, Flag**.

26
27 **Flood and Flooding**
28 A general and temporary condition of partial or complete inundation of normally dry land areas from:

- 29 • The overflow of inland or tidal waters.
- 30 • The unusual or rapid accumulation or runoff of surface waters from any source.
- 31 • Mudslides that are proximately caused or precipitated by accumulations of water on or under the
32 ground.
- 33 • The collapse or subsidence of land along the shore of a lake or other body of water as a result of
34 erosion or undermining caused by waves or currents of water exceeding anticipated cyclical levels or
35 suddenly caused by an unusually high water level in a natural body of water, accompanied by a
36 severe storm, or by an unanticipated force of nature, such as a flash flood or an abnormal tide surge,
37 or by some similarly unusual or unforeseeable event which results in flooding as defined in this
38 subsection.

39 **Flood Insurance Rate Map (FIRM)**
40 The official map on which the Federal Insurance Administration has delineated both areas of special flood
41 hazards and the risk premium zones applicable to the community.

1 **Flood Insurance Study**

2 The official report provided by the Federal Insurance Administration that includes flood profiles, the flood
3 boundary/floodway map, and the water surface elevation of the base flood.

4 **Flood Hazard Area**

5 Land adjacent to a watercourse that includes the streambed, floodway, flood fringe, and the floodplain.

6 **Floodplain**

7 That area of land adjoining the channel of a river, stream or other similar body of water which may be
8 inundated by a flood that can reasonably be expected to occur. The floodplain, shall include all the land
9 within the limits of the 100-year flood, and the floodway within it if such floodway is delineated.

10 **Floodproofing**

11 Any combination of structural and nonstructural additions, changes or adjustments to structures which
12 reduce or eliminate flood damage to real estate or improved real property, water and sanitary facilities,
13 structures and their contents.

14 **Floodway, Regulatory**

15 The channel of a river or other watercourse and the adjacent land areas that must be reserved in order to
16 discharge the base flood without cumulatively increasing the water surface elevation more than one foot.
17 The boundaries of this area shall be established on the basis of the maps and reports adopted by section
18 21.04.070.E, *Flood Hazard Overlay District*.

19 **Floodway Fringe**

20 That area of land lying between the outer limit of the regulatory floodway and the outer limit of the base
21 flood elevation. The boundaries of this area shall be established on the basis of the maps and reports
22 adopted by section 21.04.070.E, *Flood Hazard Overlay District*.

23 **Floor Area Ratio (FAR)**

24 The maximum gross floor area of all buildings on a lot or parcel, divided by the area of the lot or parcel.
25 (A floor area ratio of 2.0 provides for 23,000 gross square feet of building area on a lot with an area of
26 11,500 square feet.)

27 **Footcandle**

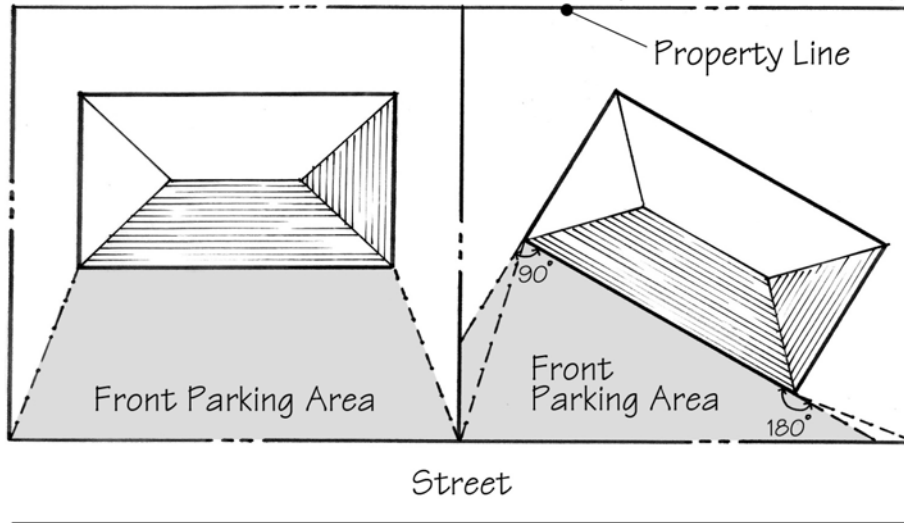

28 A unit of measure of the intensity of light falling on a surface, equal to one lumen per square foot and
29 originally defined with reference to a standardized candle burning at one foot from a given surface.

30 **Fragment Lot**

31 A division of a commercial tract for purposes of facilitating construction or financing of a commercial
32 development requiring multiple phases of construction. The term "fragment lot" does not include
33 properties outside of the boundaries of an approved commercial tract. Fragment lots may be described in
34 metes and bounds descriptions.

35 **Front Parking Area**

36 The portion of a site's parking areas that are between the façade of the principal building and an abutting
37 street. The front parking area shall be determined by drawing a line from the front corners of the building
38 to the nearest property corners. If any such line, when connected to the plane of the front façade of the
39 building, creates an angle that is greater than 180 degrees, then the line shall be adjusted to create an
40 angle of 180 degrees. If any such line, when connected to the plane of the front façade of the building,
41 creates an angle that is less than 90 degrees, then the line shall be adjusted to create an angle of 90
42 degrees when connected to the plane of the front façade of the building. The front parking area includes
43 all parking spaces that fall at least halfway into the boundaries of the front parking area, and all parking
44 spaces associated with any pad sites located within the front parking area boundaries.

Full Cutoff

See Luminaire, Full Cutoff A fixture that conforms to the Illuminating Engineer Society of North America (IESNA) criteria for full cut-off fixtures, that is, no significant amount of the fixture's total output may be emitted above a vertical cutoff angle of 90 degrees. Any structural part of the fixture providing this cutoff angle must be permanently affixed.

Full Membership

The total number of seats on a board or commission.

General Area of a Zoning Map Amendment

The area within one mile of the property subject to the zoning map amendment.

Geotechnical Advisory Commission

The geotechnical advisory commission of the municipality.

Glare

Light that makes it uncomfortable or difficult to see, causing a loss of visual performance.

Grade (Adjacent Ground Elevation)

The lowest point of elevation of the finished surface of the ground, paving or sidewalk within the area between the building and the property line, or, when the property line is more than five feet from the building, between the building and a line five feet from the building.

Greenbelt

A linear open space established along either a natural corridor, such as a riverfront, stream valley, or ridge line, or over land along a railroad utility corridor right-of-way converted to recreational use, a canal, a scenic road, or other route.

Grid

The 100-scale grid designation as established by the municipality.

- 1 **Gross Area**
2 The total site area, excluding bodies of water, to be included within a proposed development as indicated
3 on a site plan.
- 4 **Gross Floor Area**
5 The total horizontal area of all of the floors of a building, measured from exterior to exterior, including
6 interior balconies, mezzanines, stairwells, elevator shafts and ventilation shafts, etc.
- 7 **Ground Cover**
8 Grasses or other low-growing plants and landscaping.
- 9 **Grubbing**
10 Removal by any method of stumps, roots, and vegetative matter from the ground surface after clearing,
11 exposing bare soil.
12
- 13 **Guest**
14 Any person hiring or occupying a room for living or sleeping purposes.
- 15 **Guestroom**
16 A room intended or designed to be used for sleeping purposes.
- 17 **Health Authority Certificate**
18 A written confirmation signed by an engineer and the department of health and human services certifying
19 that the on-site sewer and water system serving a single-family dwelling is functional and complies with all
20 state and local regulations and codes.
- 21 **Height (as used in section 21.04.070.C., Airport Height Overlay District)**
22 For the purpose of the airport height map, the distance above mean sea level, unless otherwise specified.
- 23 **Height**
24 When viewed from the front of an object or a three-dimensional space, the measurement from a
25 horizontal plane to another horizontal plane.
26
- 27 **Height, Building**
28 The vertical distance above a reference datum measured to the highest point of the coping of a flat roof or
29 to the deck line of a mansard roof, or to the midpoint of the highest gable of a pitched or hipped roof.
- 30 **Hospital**
31 Has the same meaning as set forth in Alaska Statutes chapter 18.20.
- 32 **Illuminance**
33 The measure of light intensity striking a surface, measured in footcandles.
- 34 **Impervious Surface**
35 An area of ground that, by reason of its physical characteristics or the characteristics of materials
36 covering it, does not absorb rain or surface water. All parking areas, driveways, roads, sidewalks and
37 walkways, whether paved or not, and any areas covered by buildings or structures, concrete, asphalt,
38 brick, stone, wood, ceramic tile or metal, shall be considered to be impervious surfaces.
- 39 **Improvement Areas**
40 Portions of the municipality divided up into geographic areas for the purposes of determining public
41 improvement requirements.

- 1 **Improvements**
2 Any construction incident to servicing or furnishing facilities for a subdivision, such as grading, street
3 surfacing, curb and gutter, driveway approaches, sidewalks, crosswalks, water mains and lines, sanitary
4 sewers, storm sewers, culverts, bridges, utilities, waterways, lakes, bays and other appropriate items with
5 an appurtenant construction.
- 6 **Industrial**
7 An activity including manufacturing, processing, warehousing, storage, distribution, shipping and other
8 related uses.
- 9 **Industrial Development**
10 A planned industrial area designed specifically for industrial use.
- 11 **Industrial Subdivision**
12 ~~A subdivision, or that part of a subdivision, that is within the I-1, I-2, IC, or MI zoning district.~~
- 13 **Information, Piece of**
14 A word, whole number, telephone number, price, logo, picture, exclamation point, or similar separately
15 identifiable unit on a sign.
- 16 **Joint Trench**
17 A trench excavated for the underground placement of utility distribution lines owned or operated by two or
18 more utilities.
- 19 **Junk**
20 Any worn-out, wrecked, scrapped, partially or fully dismantled, discarded tangible material, or
21 combination of materials or items, including junk vehicles as defined in section 15.20.010. Also included
22 are machinery, metal, rags, rubber, paper, plastics, chemicals and building materials which cannot,
23 without further alteration and reconditioning, be used for their original purpose.
- 24 **Land-Disturbing Activity**
25 Any use of the land by any person for any activity that results in a change in the natural cover or
26 topography and that may cause or contribute to sedimentation. Within watershed management areas,
27 land-disturbing activity shall include the clear cutting of trees unless specifically exempted by this title.
- 28 **Landmark Tree**
29 ~~A tree or group of trees designated as such by the municipal arborist because of its exceptional value to~~
30 ~~the residents of the community.~~
- 31 **Landing Area**
32 ~~The area of the airport or airstrip used for landing, takeoff, or taxiing by aircraft.~~
- 33 **Landowner**
34 Any owner of a legal or equitable interest in real property, including the heirs, devisees, successors,
35 assigns, and agent or personal representative of the owner. The person shown on the records at the
36 Anchorage recording district shall be presumed to be the person in control of the property.
- 37 **Landscaping**
38 Trees, shrubs, ground covers, and related improvements, including furniture and other facilities intended
39 to enhance public activity spaces both within and outside the affected development. This definition shall
40 include spaces of varying degrees of enclosure from interior spaces to transitional spaces and outdoor
41 spaces.

- 1 **Landscaping Maintenance**
2 Includes but is not limited to appropriate watering, pruning, weeding, insecticide spraying, fertilizing, plant
3 replacement and other necessary functions as required to keep all plant materials in a vigorous healthy
4 growing condition.
- 5 **Legal Access**
6 Having legal access means being contiguous to a roadway as described in AMC section 9.04.010.
- 7 **Legal Nonconforming Status**
8 A state or condition where a documented nonconforming use, structure, lot, or sign, **characteristic of use**
9 is allowed to remain and be maintained **pursuant to chapter 21.11.** ~~until it is damaged beyond 50 percent~~
10 ~~of its value, redeveloped, or abandoned.~~
- 11 **Light Emitting Diode (LED)**
12 A semiconductor device that emits visible light when an electric current passes through it.
- 13 ~~**Light, Spill**~~
14 ~~Lighting from a lighting installation that falls outside of the boundaries of the property on which the~~
15 ~~installation is sited.~~
- 16 **Light Trespass**
17 Spill light that because of quantitative, directional, or spectral content causes annoyance, discomfort, or
18 loss of visual performance and visibility.
- 19 **Lighting, Temporary**
20 Lighting installed with temporary wiring and operated for less than 60 days in any calendar year.
- 21 **Loading Space, Off-Street**
22 A space located on premises for pickup and delivery at the premises.
- 23 **Lot**
24 A parcel of land shown as an individual unit on the most recent plat of record. The term "lot" includes
25 "plot," "parcel," or "tract."
- 26 **Lot Area**
27 The amount of horizontal land area contained inside the lot lines of a lot or site.
- 28 **Lot Coverage**
29 That percentage of the total lot area covered by buildings, except as provided in **subsection**
30 **21.06.020C B.2.b,** **Structures Not Considered in Measuring Lot Coverage.** ~~Projections into Required~~
31 ~~Setbacks~~
- 32 **Lot, Corner**
33 A lot located at the intersection of two or more streets. A lot abutting on a curved street shall be
34 considered a corner lot if straight lines drawn from the foremost points of the side lot lines to the foremost
35 point of the lot meet at an interior angle of less than 135 degrees.
- 36 **Lot, Depth of**
37 The mean horizontal distance between the front and rear property lines of a lot, measured in the general
38 direction of its side property lines between the midpoint of such lines, except that such measurement shall
39 not extend outside the lot lines of the lot being measured.

- 1 **Lot, Flag**
2 An irregularly shaped lot in which the buildable section typically has no street frontage, but has an arm
3 that provides street access, called the “flag pole.” The width of the arm does not meet the minimum lot
4 width standards in the zoning district in which it is located.
- 5 **Lot, Front**
6 The front of a lot shall be construed to be the portion nearest the street. ~~For the purposes of determining~~
7 ~~setback requirements on corner lots and double frontage lots, all sides of a lot adjacent to streets shall be~~
8 ~~considered frontage, and setbacks shall be provided as required in the schedule of district regulations.~~
- 9 **Lot Frontage**
10 All property abutting the right-of-way of a dedicated street, private street, or road easement, measured
11 along the right-of-way between side lot lines of a lot. In no case shall the line along an alley be
12 considered as lot frontage.
- 13 **Lot, Interior**
14 A lot other than a corner lot, with frontage only on one street.
- 15 **Lot Line**
16 The fixed boundaries or property lines of a lot described by survey located on a plat filed for record.
- 17 **Lot Line, Front**
18 That boundary of a lot measured along the edge of the right-of-way of a dedicated street, private street or
19 road easement that abuts that line. In the case of a corner lot, all lines that meet this description are front
20 lot lines.
- 21 **Lot Line, Rear**
22 That boundary of a lot that is most parallel to the front lot line and does not intersect the front lot line. ~~In~~
23 ~~the case of a triangular lot, the rear lot line is a line 20 feet in length within the lot parallel to and at the~~
24 ~~maximum distance from the front lot line.~~
- 25 **Lot Line, Side**
26 That boundary of a lot that is neither a front or rear lot line.
- 27 **Lot, Nonconforming**
28 A lot that met all legal requirements when it was platted or otherwise recorded but that does not comply
29 with the minimum lot area or minimum lot dimensions of this title, or a subsequent amendment hereto, for
30 the zoning district in which it is located.
- 31 **Lot of Record**
32 A lot that is recorded by the district recorder’s office.
- 33 **Lot, ~~Through and Double-Frontage Lot~~**
34 A lot other than a corner lot with frontage on more than one street.
- 35 **Lot, Townhouse**
36 A lot subdivided for the purposes of accommodating **townhouse-style** attached single-family residential
37 dwelling units. ~~Such lots may or may not include additional area not covered by the structure.~~
- 38 **Lot, Transverse**
39 A lot that is approximately at right angles to the general pattern of other lots in the same city block.

- 1 **Lot Width**
2 The distance between straight lines connecting the front and rear lot lines at each side of the lot,
3 measured between the midpoints of such lines, provided that such measurement **shall extend to the side**
4 **property lines and** shall not extend beyond the lot lines of the lot being measured. Flag-shaped lot width
5 shall be measured at the midpoint of the lot excluding the flagpole area of the lot.
- 6 **Lowest Floor**
7 The lowest floor of the lowest enclosed area, including basement **or crawl space**. An unfinished or flood
8 resistant enclosure, usable solely for parking of vehicles, building access or storage, in any area other
9 than a basement area, is not considered a building's lowest floor, provided that such enclosure is not built
10 so as to render the structure in violation of the application nonelevation design requirements of section
11 21.04.070.E.
- 12 **Lumen**
13 The unit of luminous flux (radiant energy): a measure of the amount of light emitted by a lamp. See also
14 **Illuminance**.
- 15 **Luminaire**
16 A complete lighting unit consisting of one or more electric lamps, the lamp holder, reflector, lens, ballast,
17 and/or other components and accessories.
- 18 **Luminaire, Cutoff**
19 A luminaire emitting a light distribution where the candela per 1000 lamp lumens does not numerically
20 exceed 25 (2.5 percent) at an angle of 90 degrees above nadir, and 100 (10 percent) at a vertical angle of
21 80 degrees above nadir. This applies to all lateral angles around the luminaire.
- 22 **Luminaire, Full Cutoff**
23 A luminaire emitting a light distribution where zero candela intensity occurs at or above an angle of 90
24 degrees above nadir. Additionally, the candela per 1000 lamp lumens does not numerically exceed 100
25 (10 percent) at a vertical angle of 80 degrees above nadir. This applies to all lateral angles around the
26 luminaire.
- 27 **Luminaire, Non Cutoff**
28 A luminaire emitting a light distribution where there is no candela limitation in the zone above maximum
29 candela. The luminaire may emit light in any direction.
- 30 **Luminaire, Semi Cutoff**
31 A luminaire emitting a light distribution where the candela per 1000 lamp lumens does not numerically
32 exceed 50 (5 percent) at an angle of 90 degrees above nadir, and 200 (20 percent) at a vertical angle of
33 80 degrees above nadir. This applies to all lateral angles around the luminaire.
- 34 ~~**Luminaire, Side Shielding**~~
35 ~~A vertical shield that blocks light in the direction of a sensitive land use or adjacent property, such as a~~
36 ~~house.~~
- 37 **Luminance**
38 The luminous intensity (photometric brightness) of a light source or reflecting surface, measured in
39 candelas per square meter.
- 40 **M.A.S.S.**
41 An abbreviation for the "Municipality of Anchorage Standard Specifications," which is a manual that
42 identifies the approved common construction practices associated with subdivision development and
43 public works projects.

- 1 **Maintenance Easement**
2 An easement appurtenant to a lot or parcel permitting entry upon another lot or parcel for the purpose of
3 maintaining, repairing or reconstructing a structure on the former lot or parcel.
- 4 **Manufactured Home**
5 A transportable, factory-built dwelling unit constructed entirely in a controlled factory environment, built to
6 the federal Manufactured Home Construction and Safety Standards (aka HUD code).
7
- 8 **Manufactured Home Community ~~Mobile Home Park~~**
9 A parcel, or contiguous parcels, of land divided into two or more mobile home or manufactured home lots
10 for rent or sale.
- 11 **Mean Sea Level**
12 The average height of the sea for all states of the tide. Datum is Greater Anchorage Area Borough, Post
13 Quake, U.S. Geodetic Survey of 1972.
- 14 **Maximum Extent Feasible**
15 That no feasible and prudent alternative exists, and all possible efforts to comply with the regulation or
16 minimize potential harm or adverse impacts have been undertaken.
- 17 **Minor Amendment**
18 An amendment to an approved permit or other form of approval granted under this title that involves a
19 relatively smaller amount of change from the original approval. Specific rules for granting minor
20 amendments are set forth in chapter 21.03, *Review and Approval Procedures*.
- 21 **Minor Modification**
22 A minor deviation from otherwise applicable standards of this title approved under section 21.03.180.
- 23 **Monument**
24 A permanent survey control point.
- 25 **Mounting Height**
26 The vertical distance between the lowest part of the luminaire and the ground surface directly below the
27 luminaire.
- 28 **Municipal Attorney**
29 The official legal representative for the municipality.
- 30 **Municipality**
31 The municipality of Anchorage.
32
- 33 **New Structures (as used in section 21.04.070.E., FHO: Flood Hazard Overlay District)**
34 Structures for which the start of construction commenced on or after September 25, 1979. The start of
35 construction means the first placement of a permanent foundation and appropriate structural framing.
- 36 **Nonconforming Use**
37 A use that was valid when brought into existence but by subsequent regulation becomes no longer
38 conforming.
- 39 **Nonconformity**
40 Any legally approved structure, lot, sign, ~~object of natural growth,~~ characteristic of use, or use of land that
41 no longer conforms with the requirements of this title.

1 **Nonresidential Lot**

2 ~~A lot that is not zoned for residential use.~~

3 **Nursing Facility**

4 Has the same meaning as set forth in Alaska Statutes chapter 18.20.

5 **Obstruction**

6 Any dam, wall, embankment, levee, dike, pile, abutment, projection, excavation, channel modification,
7 bridge, conduit, culvert, building, wire, fence, rock, gravel, refuse, fill, structure or matter in, along, across
8 or projecting into any channel, watercourse or regulatory flood hazard area which may impede, retard or
9 change the direction of the flow of water, either in itself or by catching or collecting debris carried by such
10 water, or that is placed where the flow of water might carry the material downstream to the damage of life
11 or property.

12 **On-Site Remediation**

13 Removal of volatile and semi-volatile contaminants from soils, sediments, slurries and filter cakes within
14 300 feet of the location where the material was originally contaminated.

15 **Open Space, Common**

16 Open space for the common use and enjoyment of the owners and occupants of the subdivision, building,
17 planned unit development or condominium. Common means shared by all tenants and is distinguished
18 from space designated for private use.

19 **Open Space, Usable**

20 Open space within a proposed development site, excluding areas devoted to roadways and parking. The
21 space may be common or private.

22 **Ornamental (Decorative) Fence**

23 An artificially constructed barrier of any material or combination of materials erected primarily for its
24 beauty or decorative purposes rather than for enclosure or screening.

25 **Overlay District**

26 A unique set of zoning regulations that are superimposed on one or more established zoning districts and
27 shown on the zoning map, and subsequently impose in addition to or in place of the regulations of the
28 underlying district. The overlay district may be used to impose supplemental restrictions on uses in these
29 districts, permit uses otherwise disallowed, or implement some form of site or architectural design
30 program. Developments within an overlay district must conform to the requirements of the underlying
31 district as modified by the overlay district and as set forth in the enacting ordinance.

32 **Parcel**

33 See Lot.

34 **Parking Space, Off-Street**

35 A space located outside of any right-of-way that is adequate for parking an automobile, meeting the
36 dimensional requirements of this title.

37 **Permeable Surface**

38 An area of ground that, by reason of its physical characteristics and the characteristics of materials
39 covering it, is able to absorb rain or surface water at a rate equal or greater than that of lawn turf.
40 Examples include natural vegetation, lawn turf, landscape beds, gardens, mulch, decorative gravel, and
41 some types of porous pavements.

1 **Permit, Building**

2 A land use permit issued by the municipality pursuant to the municipal code and the state building code
3 authorizing the erection, construction, reconstruction, restoration, alteration, enlargement, conversion,
4 remodeling, demolition, moving, or repair of a building or structure within the building safety service area.

5 **Permit, Land Use**

6 An official document issued by the municipality pursuant to this title required for the erection, construction,
7 establishment, moving, alteration, enlargement, repair, placement, or conversion of any building,
8 structure, or land in any district established under this title.

9 **Permit, Sign**

10 An official document issued by the municipality pursuant to this title required for the construction,
11 installation, maintenance, and operation of signs within the municipality.

12 **Permit, Special Flood Hazard**

13 An official document issued by the municipality pursuant to this title for uses, structures, or activities listed
14 in the floodplain regulations.

15 **Person**

16 Any individual, lessee, firm, partnership, association, joint venture, corporation, or agent of the
17 aforementioned groups, or the state of Alaska or any agency or political subdivision thereof.

18 **Physical Access**

19 Having physical access means being adjacent to a road suitable for travel by passenger automobiles that
20 is connected to the publicly dedicated and improved transportation network of the municipality.

21 **Pillow**

22 A sleeping accommodation for one person.

23 **Plan, Concept**

24 ~~A graphical depiction of one or more potential development alternatives for one or more parcels of land
25 which includes less detail than a site plan, but which is intended to convey information such as, but not
26 limited to: various general types of land uses or use classifications, their general arrangement, and their
27 general appearance within the plan's boundary.~~

28 **Plan, Landscaping**

29 A plan, drawn to scale, showing dimensions and details of the portion of a site devoted to planting
30 materials and their maintenance.

31 **Plan, Master**

32 The maps, illustrations, and supporting text associated with a planned development which conveys the
33 allowable uses, densities, non-residential intensities, and arrangement of uses within the boundaries of
34 the planned development along with any associated conditions, phasing schedules, and other
35 agreements.

36 **Plan, Plot**

37 A map identifying the outer extents of a single unit or parcel of land that can be referenced to a recorded
38 plat or map.

39 **Plan, Site**

40 A plan depicting the proposed development of a property, in terms of the location, scale, and
41 configuration of buildings, uses, and other features containing all the information required by this title. A
42 site plan may include but is not limited to lot lines, adjacent lots and streets, building sites, reserved open

1 space, buildings, interior vehicular and pedestrian access, parking lot design (calculations and layout),
2 signage, lighting and screening devices, existing and proposed landscaping, topography, drainage, and,
3 depending on requirements, floor plans, building elevations and locations of proposed utility services and
4 lines, and any other information that reasonably may be required in order that an informed decision can
5 be made by the approving authority.

6 **Plan, Sketch**

7 An informal plan or sketch drawn to scale, and in pencil, if desired, showing the existing features of a site
8 and its surroundings and the general layout of a proposed subdivision.

9 **Plan, Subdivision**

10 A proposed plan of development to establish a subdivision that contains all information such as lot lines,
11 streets, easements, and other features required by this title.

12 **Planning Commission**

13 The planning and zoning commission of the municipality.

14 **Plat**

15 A map document prepared by a registered surveyor representing a tract of land showing the boundaries
16 and location of individual properties, streets, and other related items for identifying property.

17 **Plat, Final**

18 A map of a subdivision of land made up in final form ready for approval and recording.

19 **Plat, Preliminary**

20 A map showing the salient features of a proposed subdivision of land submitted to the platting authority
21 for purposes of preliminary consideration and approval.

22 **Platting Authority**

23 The municipal platting board, or any other board so designated by the assembly.

24 **Platting Officer**

25 A member of the planning department who has been assigned primary responsibilities for reviewing plats
26 and making recommendations to the platting authority, and who has been so designated by the director of
27 the planning department.

28 **Plot**

29 See **Lot**.

30 **Pre-Application Conference**

31 A meeting between an applicant and the municipal staff intended to familiarize both parties with
32 conceptual plans or proposals presented by the applicant.

33 **Prisoner**

34 The same meaning as defined in AS 33.30.901 as to state prisoners, and includes persons convicted of a
35 felony described in AS 11.41, *Offenses Against the Person*, in Alaska or of an offense with the same or
36 substantially similar elements in another jurisdiction until they have successfully completed all conditions
37 of parole and probation and are no longer under the supervision of the court, the Alaska department of
38 corrections, another state or municipal agency, or contractor to those entities. The term "prisoner" also
39 includes federal offenders in the custody, control or under the care of supervision of the United States
40 attorney general or the bureau of prisons.

1 **Private Enforcement Action**

2 A process by which a private individual, homeowner's association, or community council can request that
3 the administrative hearings officer hear and investigate charges that another person or owner of land has
4 violated the requirements of this title.

5 **Profession**

6 An occupation, such as law, medicine, or engineering, which requires considerable training and
7 specialized study.

8 **Property Line**

9 A demarcation limit of a lot dividing it from right-of-way, or other lots or parcels of land.

10 **Public Enforcement Action**

11 An action brought by the municipality against owners or users of land for violating the provisions of this
12 title.

13 **Public Facility**

14 Any ~~of the following~~ buildings and structures (including streets and highways) owned, or leased ~~for no~~
15 ~~less than ten years, including all options to extend or renew,~~ by a government agency not exempt by law
16 from municipal land use regulation:

17 ~~◆ Any newly constructed building or buildings in which government operations or activities occupy~~
18 ~~more than a total of 4,000 square feet on the site, and any existing building acquired by purchase~~
19 ~~or lease in which government operations or activities occupy more than 15,000 square feet;~~

20 ~~◆ Any use of land over five acres in area;~~

21 ~~◆ Any regional trail alignment as shown in the areawide trails plan; and~~

22 ~~◆ Any public snow disposal site.~~

23 **Public Facility Project**

24 The construction or significant alteration of a public facility.

25 **Public Open Space**

26 Land dedicated or reserved for the use by the public, including but not limited to parks, greenbelts,
27 recreation areas, and school sites.

28 **Public Use Easement**

29 A right of use over portion(s) of real property granted by a property owner for specific present or future
30 uses of land by the public, or governmental entity, that is reserved, conveyed, or dedicated through the
31 recording of a plat, deed, or easement document.

32
33 **Public Utility**

34 Any person or organization subject to regulation under AS 42.05.

35 **Publicly Accessible**

36 Open to the general public during regular business hours.

37
38 **Record of Survey Map**

39 A map prepared by a professional land surveyor that reestablishes survey controls, boundaries, locations
40 of improvements, or the alignment of right-of-ways for recording

- 1 **Recreational Vehicle**
2 A vehicular type unit primarily designed as temporary living quarters for travel, camping, recreational or
3 vacation usage, which either has its own motive power or is mounted on or drawn by another vehicle.
4 The basic entities are travel trailer, camping trailer, pickup truck camper, fifth-wheel and motor home.
- 5 **Redevelopment**
6 The removal and replacement, rehabilitation, or adaptive reuse of an existing structure or structures, or of
7 land from which previous improvements have been removed.
- 8 **Reflectance**
9 **The fraction of solar radiation reflected by a material.**
- 10
11 **Regulatory Floodway**
12 See **Floodway, Regulatory**.
- 13 **Reinforcement**
14 Repair, replacement, or addition of a crossarm, guy, pole, stub, or conductor for a utility distribution
15 facility.
- 16 **Relocation**
17 A change in alignment of more than six spans.
- 18 **Reserve Strips**
19 Narrow strips of **privately-owned** land adjacent **and parallel** to a street ~~that are privately owned and are~~
20 ~~used to retain access to flagpole lots.~~
- 21 **Residential**
22 Activity involving the occupation of buildings for living, cooking, sleeping, and recreation.
- 23 ~~**Residential Cluster Development**~~
24 ~~A development design technique that concentrates buildings in specific areas on the site in a manner that~~
25 ~~would not otherwise be permitted in the underlying zoning district.~~
- 26 **Residential Subdivision**
27 A subdivision, or that part of a subdivision, that is within an **RS-1, RS-2, RT, RM-1, RM-2, RM-3, RM-4,**
28 **RL-1, RL-2, RL-3, RL-4,** ~~1, R-2, R-3, R-4, R-5, R-6, R-7, R-9, R-10, RMX,~~ or TA zoning district.
- 29 **Rezoning (Map Amendments)**
30 An amendment to the map and/or text of this title to effect a change in the boundaries of any zoning
31 district or the zone classification of any parcel of land in the municipality.
- 32 **Right-of-Way**
33 Streets, avenues, ways, boulevards, drives, circles, courts, alleys, sidewalks, walkways, trails, and other
34 such areas granted or dedicated for the use of the public for the placement of utilities and/or for the
35 passage of vehicles and/or pedestrians, including the space above and beneath such areas.
- 36 **Runway**
37 A defined area on land or water prepared for use for landing and takeoff of aircraft.
- 38 **Salvageable Improvements**
39 As used in section 21.08.080, *Subdivision Agreements*, and describes those portions of street
40 improvements constructed within a dedicated right-of-way that are usable as a part of the finally
41 constructed street. Salvageable improvements include such items of work as clearing and grubbing,

1 removal of unsuitable material and placement of classified backfill, but do not include temporary surfacing
2 and other work that would not be usable or beneficial to final street construction. This definition applies
3 only to those streets that are not, during their initial construction, improved to the final paved standard of
4 the municipality.

5 **Screening Structure**

6 A decorative fence four feet to six feet high.

7 **Secondary Building**

8 A building detached from a principal building located on the same lot and customarily incidental and
9 subordinate to the principal building or use.

10 **Setback**

11 The minimum distance required between any building or structure and a street right-of-way or lot line, or
12 from some other feature or object from which a separation distance is required.

13 **Setback, Front**

14 A setback that extends across the full frontage of a lot or tract on a public or private street. The front
15 setback is defined by the front lot line.

16 **Setback, Rear**

17 A setback that extends across the full rear of a lot or tract. The rear setback is defined by the rear lot
18 line. Corner lots, double-frontage through lots, and three-sided lots do not have rear setbacks.

19 **Setback, Side**

20 Any setback that is not a front or rear setback. Generally, side setbacks extend from the inner boundary
21 of the front setback (or from the front property line of the lot or tract where no front setback is required) to
22 the inner boundary of the rear setback (or to the rear property line of the lot or tract where no rear setback
23 is required.) For corner and double-frontage through lots, setbacks remaining after front setbacks have
24 been established shall be considered side setbacks.

25 **Service Canopy**

26 A permanent roofed shelter such as fuel station pump island canopies and bank drive-through canopies.
27 A point of service canopy is a canopy under which a business provides some service to a customer, such
28 as food service, a bank transaction, or the like.

29 **Service Connection**

30 Conductors transmitting utility service from a utility distribution line to a customer's riser or service
31 entrance.

32 **Shadow Platting**

33 ~~The platting of property in such a way as to provide for future subdivision into smaller lots.~~

34 **Shrub**

35 A woody perennial plant having more than one main stem at the ground, usually attaining a height of less
36 than 15 feet.

37 **Sidewalk**

38 An improved right-of-way for pedestrian circulation that is part of the street right-of-way.

39 **Sight Distance Triangle**

40 Refers to the roadway area visible to the driver. The required length is the distance necessary to allow
41 safe vehicular egress from a street, driveway, or alley to a street.

-
- 1 **Sign**
2 Any visual communication display, object, device, graphic, structure or part, situated indoors or outdoors,
3 or attached to, painted on or displayed from a building or structure, in order to direct or attract attention to,
4 or to announce or promote, an object, product, place, activity, person, institution, organization, or
5 business or the like, by means of letters, words, model, banner, flag, pennant, insignia, device, designs,
6 colors, symbols, fixtures, images, illuminations or representation used as, or which is in the nature of an
7 announcement, direction, or advertisement.
- 8 **Sign, Animated**
9 A sign that contains animation or animated effects, changeable copy, flashing, or moving parts.
- 10 **Sign, Banner**
11 A sign made of lightweight fabric or similar material with no enclosing framework that is mounted to a
12 building or other structure at one or more edges.
- 13 **Sign, Building**
14 Any sign attached to any part of a building and including wall, awning, canopy, and projecting signs. A
15 wall sign is a building sign that is parallel to and does not extend from the wall more than 12 inches.
- 16 **Sign, Changeable Copy**
17 A portion of a sign with letters, characters, or graphics that are not permanently affixed to the structure,
18 framing, or background allowing the letters, characters or graphics to be modified from time to time
19 manually or by electronic or mechanical devices, such as a bulletin board or electronic message board.
20 Changeable copy signs may not be used to display commercial messages relating to products or services
21 that are not offered on the property.
- 22 **Sign, Construction**
23 A temporary sign identifying a project or facility during the time of construction. Such signs typically
24 include the name of an architect, engineer, and/or contractor for a building or project located on the
25 parcel.
- 26 **Sign, Converted**
27 A sign that was temporary or portable that was subsequently affixed to the ground or a building so as to
28 become permanent.
- 29 **Sign, Entrance or Exit**
30 A sign located at the driveway entrance or exit and intended to provide for safe ingress and egress.
- 31 **Sign, Freestanding**
32 A sign supported from the ground and not attached to any building. A freestanding sign may be
33 supported by one or more poles or a solid base. Pole signs are considered freestanding signs.
- 34 **Sign, Historic**
35 Any sign that has been designated as historic by the urban design commission.
- 36 **Sign, Ideological or Political**
37 Any temporary sign displaying or advocating an idea, opinion, or position on any social, cultural, religious,
38 or political issue and containing no commercial message.
- 39 **Sign, Illuminated**
40 Any sign which is partially or entirely illuminated internally or externally so as to make the sign more
41 visible.

- 1 **Sign, Inflatable**
2 Any inflatable shape or figure designed or used to attract attention to a business event or location.
3 Inflatable promotional devices shall be considered to be temporary signs under the terms of this chapter
4 and, where applicable, subject to the regulations thereof.
- 5 **Sign, Instructional**
6 A sign that has a purpose secondary to the use on the lot and that is intended to instruct employees,
7 customers, or users as to matters of public safety or necessity such as specific parking requirements, the
8 location or regulations pertaining to specific activities on the site or in the building, and including a sign
9 erected by a public authority, utility, public service organization, or private industry that is intended to
10 control traffic; direct, identify or inform the public; or provide needed public service as determined by the
11 rules and regulations of governmental agencies or through public policy.
- 12 **Sign, Nonconforming**
13 A sign which was legally erected, but which is no longer in compliance with the requirements of this title.
- 14 **Sign, Off-Premises**
15 See *Billboard*.
- 16 **Sign Plate**
17 A building sign which does not exceed two square feet indicating the street number, the name of the
18 person, business, profession or activity occupying the lot, building, or part thereof; or other information
19 pertaining to the use on the lot.
- 20 **Sign, Portable**
21 Any sign that is not permanently attached to the ground or other permanent structure, or a sign designed
22 to be transported on wheels, skids, a bench, runners, brackets, or has a frame to which wheels, skids,
23 runners, brackets, or similar mechanical devices can be attached to or support the sign. A portable sign
24 also includes inflatable devices and mobile signs such as parked trailers or vehicles, which include signs
25 which are visible from the public right-of-way unless such vehicle is used in the normal day-to-day
26 operations of the business.
- 27 **Sign, Pole**
28 A sign that is mounted on a freestanding pole or poles, or other support structure that is visible.
- 29 **Sign, Projecting**
30 A sign that is attached to a building wall and extending perpendicular to (or approximately perpendicular
31 to) the building wall and 12 inches or more beyond the face of the wall.
- 32 **Sign, Roof**
33 A sign, or any portion thereof, erected, constructed, painted, placed, or projecting upon or ~~over~~ extending
34 above the roof or parapet wall of any building whether the principal support for the sign is on the roof, wall
35 or any other structural element of the building.
- 36 **Sign, Temporary**
37 A sign that is designed to be used only temporarily and is not intended to be permanently attached to a
38 building, structure or permanently installed in the ground. These include, but are not limited to, political
39 signs, special event signs, and for sale or leasing signs. Mobile and portable signs are temporary signs.
40 Temporary signs may be displayed as window signs.
- 41 **Sign, Traffic**
42 A sign indicating federal, state, or municipal regulations for automobile, truck, bicycle, and/or pedestrian
43 movement.

1 **Sign, Window**

2 A sign that is applied or attached to a window or door, or a sign located near a window within a building
3 for the purpose of being visible to and read from the outside of the building except for signs that are not
4 legible from a distance of more than three feet beyond the building in which such sign is located.

5 **Signature Tree**

6 **See Tree, Signature**

7
8 **Significant Alteration⁴**

9 An alteration costing more than \$500,000.00 or 20 percent of the value of the public facility, whichever is
10 less.

11 **Site Condominium**

12 [RESERVED]

13 **Site Plan**

14 See **Plan, Site**.

15 **Site Plan Review**

16 The process whereby the reviewing authority reviews the site plans and maps of a developer to ensure
17 that they meet the stated purposes and standards of the zone, provide for the necessary public facilities
18 such as roads and schools, and protect and preserve topographic features and adjacent properties
19 through appropriate siting of structures and landscaping.

20 **Site Selection**

21 The process by which the municipality shall review and decide the selection of a site for **specified** a public
22 facility~~iesy~~.

23 **Slope**

24 The vertical elevation of a land area divided by the horizontal distance, expressed as a percentage.

25 **Solar Access**

26 **The availability of, or access to, unobstructed direct sunlight.**

27
28 **Solar Orientation**

29 **A south facing orientation of a property line, street frontage, right-of-way, fence, building wall, or window**
30 **surface where the line, frontage, wall, or window faces within 30 degrees of south. This orientation of a**
31 **surface in relation to the path of the sun may be used to maximize the amount of sunlight and heat gained**
32 **from solar radiation.**

33
34 **Space**

35 As used in section 21.05.030, **Manufactured Home Community** ~~Mobile Home Parks~~, a defined land area
36 in a **manufactured home community** ~~mobile home park~~ on which a mobile home **or manufactured home**
37 may be placed and which is described by boundary lines measured in terms of:

- 38 • Its depth expressed as a mean distance between the front and rear of the space, measured in the
39 general direction of the side space lines.
- 40 • Its width expressed as a mean distance between the side lines of the space, measured in the general
41 direction of the front and rear space lines.

1 **Space, Reverse-Frontage**

2 ~~As used in section 21.05.030, *Manufactured Home Community*, a space which abuts a local street on one~~
3 ~~side and a street of Class I or greater classification on the opposite side.~~

4
5 **Special Hazard Area**

6 An area having special flood, mudslide, or flood-related erosion hazards.

7 **Special Limitation**

8 A provision adopted by ordinance which restricts the permitted principal uses and structures otherwise
9 allowed in a zoning district or which requires compliance with design standards not otherwise required by
10 zoning district regulations or other sections of this title.

11 **Start of Construction**

12 Includes substantial improvement, and means the date the building permit was issued, provided the
13 actual start of construction, repair, reconstruction, placement or other improvement was within 180 days
14 of the permit date. The actual start means either the first placement of permanent construction of a
15 structure on a site, such as the pouring of slab or footings, the installation of piles, the construction of
16 columns or any work beyond the stage of excavation; or the placement of a manufactured home on a
17 foundation. Permanent construction does not include land preparation, such as clearing, grading and
18 filling; nor does it include the installation of streets or walkways; nor does it include excavation for a
19 basement, footings, piers or foundation, or the erection of temporary forms; nor does it include the
20 installation on the property of accessory buildings, such as garages or sheds not occupied as dwelling
21 units or not part of the main structure.

22 ~~**State Highway Project**~~

23 ~~A highway project that has received design authorization from the federal highway administration or~~
24 ~~legislative approval from the state legislature.~~

25 **Station**

26 As used in connection with a drive-in bank, a location which is adequate to accommodate a single vehicle
27 at any one time for the purpose of allowing occupants of that vehicle to receive automated or personal
28 service from a financial institution while remaining in the vehicle.

29 **Steep Slope**

30 A slope that is 20 percent or greater.

31 **Stormwater**

32 Surface water runoff originating from surface water, rain, snowmelt, wash waters, street wash, subsurface
33 drainage, or other drainage but excludes wastewater as defined in AMC title 15.

34 **Story**

35 That portion of a building between any floor and the next floor above, except that the topmost story shall
36 be that portion of a building between the topmost floor and the ceiling or roof above it. If the finished floor
37 level directly above a basement, cellar, or unused floorspace is more than six feet above grade for more
38 than 50 percent of the total perimeter or is more than 12 feet above grade at any point, such basement,
39 cellar, or unused floorspace shall be considered a story.

40 ~~**Story, Half**~~

41 ~~A story under a gable, hip, gambrel or mansard roof, the wall plates of which on at least two opposite~~
42 ~~exterior walls are not more than two feet above the floor of such story.~~

-
- 1 **Stream**
2 Any natural conveyance of water flowing in a definite course or channel and possessing a bed and banks.
3 This includes any reaches of natural streams that have been modified or channeled that still convey
4 flows. A natural stream conveys more flow than can be attributed to a single snowmelt or rainfall event.
- 5 **Stream Bed**
6 That portion of a stream utilized for water flow during nonflood periods, normally extending from the
7 thalweg (low point) to each bank.
- 8 **Street**
9 A right-of-way improved for vehicular and pedestrian travel permanently open to general use that affords
10 the principal means of access to abutting property, such as an avenue, place, drive, boulevard, highway
11 and any other similar public thoroughfare, except an alley.
- 12 **Street, Access**
13 A street constructed to provide physical access to a subdivision.
- 14 ~~**Street, Alley**~~
15 ~~A public right-of-way providing secondary access to abutting properties.~~
- 16 **Street, Arterial**
17 Higher order streets with controlled access that are intended for through or regional traffic moving
18 between urban centers and not intended for local or residential neighborhood traffic. These streets have
19 multiple travel lanes, provide access to regional travelways, and carry high volumes of traffic.
- 20 **Street, Collector**
21 Streets that penetrate various land use classifications to provide both land access and mobility within
22 neighborhoods and commercial areas. Their primary function is traffic service, collecting traffic from
23 intersecting streets and funneling it to major thoroughfares. A major collector roadway/street has limited
24 direct access from individual lots/parcels. A minor collector roadway/street allows direct access of
25 individual lots/parcels.
- 26 ~~**Street, Commercial**~~
27 ~~An interior street in a commercial subdivision.~~
- 28 **Street, Cul-de-Sac**
29 A street having only one outlet, with provision for a turnaround at its termination, and which is not
30 intended to be extended or continued to serve future subdivisions or adjacent land.
- 31 **Street, Dead End**
32 A right-of-way that terminates without a cul-de-sac or a temporary turnaround and the terminus of which
33 has the same width as the width of the right-of-way.
- 34 **Street, Frontage**
35 A street adjacent to an arterial or higher order street that is intended to serve lots adjacent to the arterial.
- 36 **Street, Half**
37 A portion of a right of way, including the street pavement that is directly adjacent to a lot's frontage as
38 measured from the ultimate street centerline.
- 39 **Street, Interior**
40 A street contained entirely within the boundaries of a subdivision.

-
- 1 **Street, Loop**
2 A street that originates and terminates at intersections with the same street.
- 3 **Street, Peripheral**
4 A street parallel to the boundary of a subdivision and whose right-of-way abuts that boundary.
- 5 **Street, Residential Local**
6 An interior street in a residential subdivision designed and intended to serve local areas. Residential
7 Local streets feed traffic into collector and arterial street systems.
- 8 **Street, Stub**
9 A dead-end interior street provided for eventual extension onto unplatted land.
- 10 **Strip Commercial Area**
11 ~~A developed business frontage along a street and no more than 200 feet in depth from the front property~~
12 ~~line.~~
- 13 **Structure**
14 Anything that is constructed or erected and located on or under the ground, or attached to something
15 fixed to the ground, including a walled and roofed building, and/or a gas or liquid storage tank that is
16 principally above ground.
- 17 **Subdivider**
18 A person, firm, association, partnership, corporation, governmental unit, or combination of any of these
19 that may hold any recorded or equitable ownership interest in land being subdivided. The terms shall
20 also include all heirs, assigns, or successors in interest, or representatives of the subdivider, owner,
21 proprietor, or developer.
- 22 **Subdivision**
23 The division of a tract or parcel of land into two or more lots, sites or other divisions for the purpose,
24 whether immediate or future, of sale, lease or building development, including any resubdivision, and,
25 when appropriate to the context, the process of subdividing or the land subdivided.
- 26 **Subdivision Agreement**
27 A document which is approved by the department of project management and engineering which
28 specifies the tentative location, construction schedule, and estimated costs of public improvements to be
29 constructed as part of subdivision development.
- 30 **Subdivision, Minor**
31 The division of a tract or parcel of land into no more than three tracts or eight lots, which can be approved
32 administratively.
- 33 **Submission Date with Platting Authority**
34 That date when the planning department accepts a fee for the submission of a plat.
- 35 **Survey, As-Built**
36 A plan showing the true and actual location and nature of buildings, structures, plant materials, utility
37 easements, and other features or improvements that have been installed on or off the property pursuant
38 to a site and/or subdivision plan approved under this title, to be used to determine compliance with the
39 requirements of this title.
- 40 **Surveyor**
41 A land surveyor who is registered in the state.

1 **Substantial Improvement**

2 Any repair, reconstruction, or improvement of a structure, the cost of which equals or exceeds 50 percent
3 of the market value of the structure either:

- 4 • Before the improvement or repair is started; or
- 5 • If the structure has been damaged and is being restored, before the damage occurred. For the
6 purposes of this definition, substantial improvement is considered to occur when the first
7 alteration of any wall, ceiling, floor or other structural part of the building commences, whether or
8 not that alteration affects the external dimensions of the structure. The term does not, however,
9 include either:
- 10 1. Any project for improvement of a structure to comply with existing state or local health,
11 sanitary or safety code specifications which are solely necessary to ensure safe living
12 conditions; or
- 13 2. Any alteration of a structure listed on the National Register of Historic Places or a state
14 inventory of historic places.

15 **Substation Transformer**

16 ~~A utility facility that transforms electric voltage to the level supplied to the distribution system.~~

17 **Surrounding Development**

18 Immediately adjacent development on the same block face or on facing blocks as the subject site, as well
19 as prevalent patterns established in the existing neighborhood located within one-quarter mile of the
20 subject development site.

21 **Surrounding Neighborhood of a Zoning Map Amendment**

22 ~~The land whose owners are entitled to notice of the zoning map amendment under chapter 21.03.~~

23 **Take Action**

24 To approve, approve with conditions, deny, refer to another body, or postpone a decision on an
25 application for entitlement.

26
27 **Target Area**

28 An area designated under section 21.08.070 as a location in which overhead distribution lines are to be
29 placed underground as provided in this chapter.

30 **Tax Parcel**

31 An area of land shown as a unit or as continuous units on the current municipal real property tax roll.

32 **Thread of a Stream**

33 ~~A line following the thalweg (low point) of a stream.~~

34 **Through Lot**

35 ~~See Lot, Through~~

36 **Topographic Map**

37 A map showing the landform by the use of contour lines.

38 **Tower, Amateur Radio**

Chapter 21.13: Rules of Construction and Definitions

An antenna and structure of any type used exclusively by a licensed amateur operator which is part of federally licensed amateur radio station for radio communication for the purpose of self-training, intercommunication, and technical investigations carried

1 An antenna and structure of any type used exclusively by a licensed amateur operator which is part of
2 federally licensed amateur radio station for radio communication for the purpose of self-training,
3 intercommunication, and technical investigations carried out by amateurs solely with a personal aim and
4 without pecuniary interest.

6 **Tower, Community Interest**

7 Any structure principally designed to support an antenna(e) where the height of the structure (not
8 including any building height, if installed on top of a building) exceeds 100 feet, measured to the top of
9 any antennae.

11 **Tower, Local Interest**

12 Any structure principally designed to support antennae and not meeting the definition of a community
13 interest tower.

15 **Tower Site**

16 A lot, tract, or aggregate of abutting lots or tracts that has been planned and coordinated for development
17 with separate community interest towers and/or local interest towers in any combination, including
18 subordinate and related equipment and buildings in accordance with the applicable zoning district.

20 **Townhouse Unit**

21 One of three or more attached dwelling units where each unit is on its own lot.

22 **Tract**

23 A unit, or contiguous units, of land under single ownership.

24 **Traffic Control Device**

25 Includes all physical, mechanical and electrical equipment that directs, channelizes, commands or
26 controls traffic movement. These devices include but are not limited to signs (including street name
27 signs), channelization, signals, and striping.

28 **Trail**

29 A way designed for and used by equestrians, pedestrians, and cyclists using non-motorized transport.

31 **Trailer**

32 Has the same meaning as set forth in AMC title 9.

34 **Travel Trailer**

35 A motor vehicle, or portable vehicular structure capable of being towed on the highways by a motor
36 vehicle, designed and intended for casual or short-term human occupancy for travel, recreational and
37 vacation uses, identified by a model number, serial number and vehicle registration number, equipped
38 with limited water storage and other self-contained living facilities.

39 **Tree**

40 A woody perennial plant having a single main stem.

41 **Tree, Deciduous**

42 A tree that loses its leaves annually.

43 **Tree, Evergreen**

44 A tree that retains its leaves.

- 1 **Tree Retention Area**
2 An area in which measures have been taken to protect existing trees from damage or loss during
3 construction and development.
- 4 **Tree, Signature**
5 A tree that, at four and one-half feet above the ground, is greater than 12 inches in diameter and is
6 healthy; or a tree that has significant historical or cultural value.
7
- 8 **Tributary**
9 Any branch, fork, or channel that flows into and connects to a stream and also meets the basic definition
10 of a stream.
- 11 **Unified Sign Plan**
12 [RESERVED]
- 13 **Urban Design Commission**
14 The urban design commission of the municipality.
- 15 **Usable Open Space**
16 See **Open Space, Usable**.
- 17 **Use, Accessory**
18 As applied to a use, building, or structure, customarily subordinate or incidental to and located on the
19 same lot with a principal use, building, or structure.
- 20 **Use, Conditional**
21 A use or occupancy of a structure, or a use of land, permitted only upon issuance of a conditional use
22 permit and subject to the limitations and conditions specified therein.
- 23 **Use, Principal**
24 Any main activity permitted by this title.
- 25 **Use, Temporary**
26 Those land uses and structures that are needed or are in place for only short periods of time.
- 27 **Use District**
28 See **Zoning District**.
- 29 **Utility**
30 A public utility as defined in Alaska Statutes title 42.
- 31 **Utility Distribution Line**
32 All or any part of a conductor and supports owned or operated by a utility and used:
- 33 • To transmit no more than 69 kilovolts of energy; or
- 34 • To transmit messages, impressions, pictures, or signals by means of electricity or
35 electromagnetic waves; between a distribution substation or central office and the lot line of a
36 customer's premises, excluding auxiliary equipment such as aboveground transformers,
37 switching devices, pad-mounted distribution facilities, and CATV power supplies.
- 38 **Vacation**
39 The act of making legally void any right-of-way, easement, public area, or other public interest.

1 Variance

2 A grant of relief from the requirements, or a relaxation of the strict application of the terms of this chapter
3 that permits construction in a manner that would otherwise be prohibited by this chapter. This definition
4 shall not be construed to permit a use in any district which use is prohibited therein.

5 Verification of Nonconforming Status

6 A document issued by the municipality confirming the legal nonconforming status of a use, structure, or
7 characteristic of use.

8 Violator

9 A violator of this title is a person who:

- 10 • Occupies, maintains, alters, constructs, or establishes a structure, or use of land or a structure, in
11 violation of this title;
- 12 • Owns, controls, or has the right to control land or a structure where a structure, or use of land or a
13 structure, is occupied, maintained, altered, constructed, or established in violation of this title; or
- 14 • As principal or agent, violates this title under section 21.12.030, *Violations*.

15 Walkway

16 A right-of-way, dedicated to public use, which crosses within a block to facilitate pedestrian access to
17 adjacent streets and properties.

18 Wall

19 The vertical exterior surface of a building or structure.

20 Warranty Period

21 The period for which a subdivider's warranty remains in effect under section 21.08.080.

22 Water Body

23 A pond, lake, or other natural or artificial collection of water, whether permanent or temporary, not
24 including wetlands or watercourses.

25 Watercourse

26 A channel in which a flow of water occurs with some degree of regularity. Watercourses may be either
27 natural or artificial and may occur either on the surface or underground.

28 Water-Dependent

29 Any use or activity whose primary purpose requires direct access to a water body, or which can be carried
30 out on, in or adjacent to a water body only. The activity or use would not be possible if located away from
31 water sites or without direct water access.

32 Water-Related

33 Any use or activity which is not directly dependent upon access to a water body, but which provides
34 goods or services that are directly associated with water dependence or provide direct physical or visual
35 public access or use of the municipal waterfront, and which, if not located adjacent to a water body, would
36 result in a public loss of quality in goods or services offered or public access to the waterfront.

37 Width

38 When viewed from the front of an object or a three-dimensional space, the measurement from a vertical
39 plane to another vertical plane.
40

1 **Window, Providing Visual Access**

2 Windows that allow views into working areas, lobbies, entrances, sales areas, other public areas, or
3 indoor merchandise displays or art. The window is transparent enough to permit the view of activities
4 within a building from nearby streets and sidewalks, and so that objects beyond or behind the window can
5 be distinctly seen. Display cases less than three feet deep and/or attached to the outside wall are not
6 windows providing visual access.

7 **Where Physical Conditions Permit**

8 That the development application must comply with the regulation unless the applicant can demonstrate
9 that it is not physically possible to do so due to land form, sight line requirements, existing trees, utilities,
10 drainage requirements, access requirements or other constraints on the land.

11 **Yard, Usable**

12 One or more of the following located on the same lot or tract as the principal structure, for use by the
13 residents thereof for outdoor activities:

14 Well-drained open areas covered with lawn grass or other suitable cover material;

15 Paved areas such as sidewalks, recreation areas, patios, and the like, that are designed for the specific
16 use and enjoyment of the residents;

17 Private balconies or decks;

18 Roofs available for outdoor activity.

19 **Zoning Board of Examiners and Appeals**

20 The zoning board of examiners and appeals of the municipality.

21 **Zoning District**

22 A specifically delineated area or district within which uniform standards govern the use, placement,
23 spacing, size, and form of land and buildings.

24 **Zoning Map**

25 The map or maps that are a part of this title and that delineate the boundaries of all mapped zoning
26 districts within the physical boundaries of the municipality.

1 NOTE: This subsection includes a suggested new process to ensure that the director's interpretation binds employees in other departments (e.g., BS zoning plan reviewers, ROW enforcement officers, DHHS child care reviewers) who deal with title 21.

2 2005 NOTE: Dozens of changes have been made to this section based on comments – new definitions added, some deleted, some revised, etc.

3 Term is used in 21.05, but no definition is included in that chapter.

4 NOTE: Does this definition apply only to public facilities?
