

# ORGANICS & WILDLIFE

***Improper organics handling can attract animals, including bears.***

*Keep your neighborhood safe by following these organics rules:*

- Place carts out at 7 a.m. on the day of service ONLY. Do not leave carts on the street overnight. Participants will be removed from Curbside Organics if carts are left out.
- Keep food scraps indoors until the morning of pickup. Store food scraps in 5-gallon buckets or the freezer before placing it your cart.
- Store roll carts inside or in any secure location within 5-feet of main structure.
- Place all approved food scraps in compostable bags. If cart becomes odorous, wash the cart or contact SWS about cart cleaning and/or replacement.

**CURBSIDE ORGANICS**

## COMMUNITY COMPOST TIP

Store all food scraps in containers **inside** before bringing them to drop-off sites
