PROJECT MANAGEMENT & ENGINEERING

Chugiak-Eagle River Areawide Aquifer Study and Drainage Plan

Problem: Development in this region has produced a need for an areawide plan to handle future drainage needs.

Scope: This project will study the aquifer in the Chugiak-Eagle River area and make drainage plan recommendations.

Status: No work is underway and no funding is proposed in the six-year Capital Improvement Program. The project has been added to the Capital Projects Needs List for future funding consideration.

Eagle River Area Snow Disposal Site

Problem: CBERRRSA needs additional snow storage capacity.

Scope: This project will construct a snow disposal facility serving the Chugiak, Birchwood, Eagle River Rural Road Service Area (CBERRRSA).

Status: No work is underway, However, a 2008 state grant has been requested for site selection, acquisition, and preliminary engineering funding.

South Creek Dr Regrading

Problem: The existing road needs regrading and drainage work.

Scope: Regrade road and ditches.

Status: No work is underway or scheduled in the six-year Capital Improvement Program. Funding priorities set by Chugiak, Birchwood, Eagle River Rural Road Service Area Board.

South Creek Rd to South River Ln Intersection Safety Improvements

Problem: Safety concerns have been raised regarding this intersection.

Scope: Construct safety improvements once they are identified and funded.

Status: No work is underway or scheduled in the six-year Capital Improvement Program. Funding priorities set by Chugiak, Birchwood, Eagle River Rural Road Service Area Board.

South Fork/Hiland Rd Access Study

Problem: The need is not clear on this and community input is welcome.

Scope: The scope of the study is not determined.

Status: No work is underway or scheduled in the six-year Capital Improvement Program. Funding priorities set by Chugiak, Birchwood, Eagle River Rural Road Service Area Board.

PROJECT MANAGEMENT & ENGINEERING

Yosemite Dr Area Drainage

Problem: A study is needed to identify areawide solutions.

Scope: The study phase will analyze drainage patterns, infrastructure needs, infrastructure options, and project costs in an area east of the Glenn Highway, north of Veterans Memorial Highway, and west of Eagle River Loop Road.

Status: This project will start with a drainage study of the Yosemite Drive area near Eagle River High School.

STATE OF ALASKA

Glenn Hwy Lane Expansion - Hiland Rd to Artillery Rd

Problem: Traffic volumes have continued to climb on one of the busiest road segments in Alaska. Frequent incidents along the roadway slow traffic to inefficient levels.

Scope: This project would add an additional traffic lane in each direction to the Glenn Highway from Hiland Road to Artillery Road. This would include widening or replacing the two bridges crossing Eagle River. In addition, the interchanges with Hiland Road and Artillery Road would be evaluated and new ramps installed if beneficial.

Status: No work is currently scheduled in the 6-year Capital Improvement Program. This is a state owned facility and evaluation and funding would be through the State of Alaska.

Glenn Hwy Rut Repairs - McCarrey St to Artillery Rd

Problem: Pavement is deteriorating.

Scope: Overlay the pavement.

Status: No work is currently scheduled in the 6-year Capital Improvement Program. This is a state owned facility and evaluation and funding would be through the State of Alaska.

Glenn Hwy Standard Highway Lighting - Hiland Rd to South Birchwood Loop

Problem: Interest in improved lighting on the Glenn Highway has been expressed.

Scope: Install improved lighting using standard highway lights. Hightower lighting is not desired due to the light "pollution" it produces.

Status: A state grant was provided for the phase I of these improvements. This is a state owned facility and the project is being managed by the State of Alaska. Future funding is uncertain.

STATE OF ALASKA

Glenn Hwy Trail Rehabilitation - Muldoon Rd to North Birchwood Lp

Problem: The trail has deteriorated to the point that maintenance is no longer cost effective.

Scope: This project will resurface the existing trail, formalize a parking facility near the weigh station, and construct a memorial pull-out.

Status: No work is underway. However, design funding is tentatively planned for 2008 or 2009 through the AMATS TIP. This is a state owned facility and evaluation and funding would be through the State of Alaska.

Glenn Hwy/Hiland Rd Interchange Expansion

Problem: Traffic, particularly left turn movements, has increased to the point that congestion is increasing and safety is a growing concern.

Scope: To be determined in the design study.

Status: A state grant was provided for preliminary analysis on the intersection needs. This is a state owned facility and evaluation and funding would be through the State of Alaska.

Hiland Rd Upgrade - MP 2.2 to MP 3.4

Problem: This road does not meet current standards.

Scope: Hiland Road would be upgraded from mile post 2.2 to mile post 3.4. Improvements are expected to include pavement, curbs, storm drains, street lighting, and landscaping.

Status: No work is underway. A 2009 state grant is proposed to fully fund the project.

Lower Hiland Rd Safety Improvements

Problem: Safety concerns have been raised in this area.

Scope: Construct safety improvements to be identified in a design study effort.

Status: No work is underway or scheduled in the six-year Capital Improvement Program. This is a state-owned facility and evaluation and funding would be through the State of Alaska.
