

## **MAINTENANCE & OPERATIONS**

### **Department Goal**

The goal of the Maintenance & Operations Department (formerly Facility and Fleet Management) for the 2006-2011 Capital Improvement Budget/Program is to maintain, refurbish or upgrade municipal facilities to maximize useful life through a program of proactive renovation projects focused on high priority items such as roofs, building structures, air/heating systems, life safety conditions and aesthetic value. Additionally, when it is no longer cost-effective to refurbish or renovate facilities, the department manages the construction of replacement facilities. Generally, funding requests for replacement projects appear in the capital improvement program of the department operating the facility.

The purpose of municipal facilities is to enhance the quality of life and the livability of Anchorage. The Municipality of Anchorage has over 300 facilities that are used for general government operations and civic, cultural and recreational services. These facilities include Loussac Library, Sullivan Arena, Egan Convention Center, Alaska Center for the Performing Arts, Anchorage Museum of History and Art, police and fire facilities, and parks and recreational facilities.

Millions of dollars have been invested in our public facilities. Safeguarding these investments for the use of future generations is a primary goal of Property & Facility Management. This capital improvement program addresses the highest priority needed renovation and upgrade projects that will extend the life and maintain the overall appearance of Municipal facilities.

### **Fleet Services**

The goal of the Fleet Services Capital Improvement Program is to program replacement of or additions to the general government vehicle and equipment fleet in support of existing or expanded municipal programs.
