

Appendix Q Local Government Profile

Geography

Anchorage is located in south central Alaska situated on a broad plain at the head of the Cook Inlet. It lies slightly farther north than Oslo, Stockholm, Helsinki and St. Petersburg. According to the United States Census Bureau, the municipality has a total area of 1980 square miles.

Organization

In 1975, the citizens of the Anchorage area ratified a Home Rule Charter for a unified municipal government. Under the Municipal Charter, the City of Anchorage, incorporated in 1920, the Greater Anchorage Area Borough, incorporated in 1964, and two small incorporated communities, Girdwood and Glen Alps were dissolved as of September 15, 1975, and the Municipality became their legal successor. Being a unified home rule municipality, the Municipality is responsible for a wide range of public services that are commonly provided through both a city and a county government.

The chief executive officer of the Municipality is the Mayor, who is elected at-large to a three-year term and who may not serve more than two consecutive terms. Subject to confirmation by the Assembly, the Mayor appoints the Municipal Manager, the Municipal Attorney, the Chief Fiscal Officer, and all heads of municipal departments. The Mayor may participate, but may not vote, in meetings of the Assembly. The Mayor may veto ordinances passed by the Assembly, and veto, strike or reduce budget or appropriation measure line items. A minimum of eight members of the Assembly must vote to override a veto by the Mayor.

The legislative power of the Municipality is vested in the Assembly comprised of eleven members, elected by district, to three-year staggering terms and who may not serve more than three consecutive terms. The presiding officer of the Assembly is the Chairperson, who is elected annually from and by the membership of the Assembly. The Assembly appoints the Municipal Clerk. Municipal ordinances, Assembly schedules, agendas and other legislative information are available on-line at www.muni.org.

The Municipality has multiple citizen boards and commissions to advise and assist the administration and Assembly with issues that range from animal control to zoning. Members are appointed by the Mayor and confirmed by the Assembly. Board members and commissioners volunteer their services and typically serve three-year, staggering terms.

Municipal services are provided through service areas. Each service area is treated as an individual taxing unit although only the Municipality can levy taxes. Certain services of the Municipality – education, planning and zoning, health services, animal control, environmental quality, taxing and assessing, emergency medical service and public transportation – are provided area-wide. The ad valorem tax rate for these services is uniform throughout the Municipality. In addition, service areas consisting of only part of the area within the Municipality have been created for such purposes as fire protection, police protection, road maintenance, parks and recreation, building safety, etc. As a result, the total tax rate applicable to any given

parcel of property is the sum of the Municipality-wide levy rates plus the rates for the special-purpose service areas within which that parcel is located.

Pursuant to the Municipal Charter, the Municipality owns and operates a number of utilities as enterprise funds. These include: Anchorage Water & Waste Water Utility, Municipal Light & Power, Solid Waste Services, Port of Anchorage, and Merrill Field Airport. The Municipality also runs the Anchorage Community Development Authority.

Climate

For its northern location (61° latitude), Anchorage enjoys a subarctic climate with strong maritime influences that moderate temperatures. Average daytime summer temperatures ranges from 55 to 78 degrees; average daytime winter temperature ranges between 5 to 30 degrees. Anchorage has a frost-free growing season that averages slightly over 101 days.

Demographics

The Anchorage Municipality is home to almost two-fifths of Alaska's population.

<u>Year</u>	<u>Anchorage</u>	<u>State of Alaska</u>
2013	300,950	735,132
2012	298,610	731,449

Economy

The Municipality of Anchorage is the leading trade, banking and communications center of Alaska as well as the headquarters city in Alaska for many of the national and international firms participating in the development of the petroleum, natural gas and other natural resources of the State. The Municipality is also an important seaport, a world air transportation center, the headquarters city for the Alaska Railroad and the site of the large and historically stable military base, Joint Base Elmendorf-Richardson, also known as JBER which is a combined installation of Elmendorf Air Force Base and Fort Richardson Army Bases. Federal and State government offices and tourism are also major factors in the economic base of the Municipality.

Politics

Anchorage sends 15 representatives to the 40-member Alaska House of Representatives and 7 senators to the 20-member senate, making up nearly half of both houses

Transportation

The Ted Stevens Anchorage International Airport is the primary passenger airport and is an important cargo airport globally due to Anchorage's location on the great circle routes between Asia and the lower 48. It is located approximately three miles southwest of the principal business district of the Municipality. This airport is the leader in international air freight gateway in the nation, by weight. Twenty-six percent of the tonnage of U.S. international air freight moves through Anchorage. The Ted Stevens International Airport includes both domestic and international terminals and general aviation.

Lake Hood Seaplane Base is the largest sea plane base in the world and is located adjacent to the Ted Stevens Anchorage International Airport along Lake Hood. The facility operates on a year-round basis, but weather conditions in the winter months dictate that the Seaplane Base operates as a ski-plane facility for part of the year.

More than 2,200 private aircraft are based in the Anchorage area and are served by 11 airfields and two float plane bases. Merrill Field, operated by the Municipality, is the largest general aviation airport for private aircraft in the State of Alaska.

The Alaska Railroad Corporation, which maintains its headquarters and principal repair shops, warehouses and yards in Anchorage, provides freight and passenger service spanning more than 685 track miles and connecting over 70% of Alaska's population. The railroad serves the cities of Anchorage and Fairbanks, the ports of Whittier, Seward, and Anchorage, as well as Denali National Park and military installations.

The Port of Anchorage received 95% of all goods destined for Alaska. Besides handling incoming and outgoing cargo shipments, the Port of Anchorage also serves as a storage facility for jet fuel from Alaska refineries utilized at both the Ted Stevens International Airport and Joint Base Elmendorf Richardson (JBER). The port is located just north of Ship Creek near downtown Anchorage on the Knik Arm of the Cook Inlet of the Pacific Ocean. The docks have excellent connections with the Alaska Railroad and highway connections to Alaska intrastate highway routes.

Anchorage is connected to the rest of Alaska through two major highways. Alaska Route 1 also known as the Seward Highway connects Anchorage south to the Kenai Peninsula. The Glenn Highway extends eastbound beyond Joint Base Elmendorf-Richardson and Eagle River, connecting Anchorage to the Matanuska-Susitna Valley. This route leads further to the Richardson Highways to go further north or to the Tok Cut-Off with further connections to the contiguous North American highway system via the Alaska Highway.

Anchorage has a bus system called People Mover with a central hub downtown and two satellite hubs that serve metropolitan and the suburbs of Eagle River and Birchwood.

Community Services

Police Department:

Call for Service: Is a police action but does not always generate a police report and does not represent actual, classified, crime statistics.

2012	254,790	2007	260,382
2011	268,744	2006	240,883
2010	286,111		
2009	292,865		
2008	267,433		

Police Reports: are calls for service that results in official documentation of the incident. Beginning in 2008 the method of counting reports changed to reflect the introduction of Mobile Data Computers and the automation of entering reports into the Records Management System.

2012	65,787	2007	62,129
2011	66,161	2006	61,297
2010	64,371		
2009	64,658		
2008	66,387
