

SOCIAL SECURITY - DID YOU KNOW?

Social Security earnings and credits are posted according to the name on file with Social Security. If the name on your Social Security card does not match the name on your Payroll record, your earnings and credits may be in a suspense file at Social Security. It pays to check your records with Social Security Administration. Please contact the Central Payroll Service Center at 907.343.6805 if you have any questions regarding this issue.
