

Meeting #5 - FINALIZATION AND CONCLUSION OF BASELINE DOCUMENT

Tuesday December 4, 2012, 5:30-7:30PM

ITEM 1: Comments on Baseline Document (Roundtable Discussion)

- *What we heard from the group:*
 - Many of the comments we received were focused on the same issues. This discussion is to explain how we incorporated your comments and what those issues were.
- *Language changes?*
 - If members of the advisory group have specific language variations or grammatical changes, please feel free to leave a hard copy with USKH, or email USKH staff with a digital copy. These will be reviewed and incorporated as deemed appropriate. While we anticipate that the structure of the document will remain as you have seen it, your comments have been very helpful and we welcome any added comments you may have.

ITEM 2: Disc Golf Course Suggested Sites (Roundtable Discussion)

- We had previously presented several parks as possibilities for locating new disc golf facilities, and those parks were used as a means of testing the criteria established previously. We would like you to now consider parks or other locations in the community that might make a great venue for a disc golf course. Please bring a list of potential sites that you would like to see disc golf in. Based on our discussions, we would like to consider adding these to our document for future consideration.

ITEM 3: Continuing the discussion of establishing an organization that can represent disc golf users in Anchorage (Mark McCaffery)

- You have all put considerable effort into the process so far. Mark McCaffrey will discuss on-going opportunities for involvement that may include:
 - Upcoming presentation of report to Parks and Recreation Commission for approval.
 - How you can assist Parks and Recreation in obtaining funding for new disc golf improvements.
 - Options for establishing a disc golf association as a means advocating for disc golf interests.

Thank you for your service!
