Calls for Service

A **Call for Service** is simply a request for police assistance. Calls for Service do not always generate a police report and therefore cannot be considered actual crime statistics. **Police Reports** are Calls for Service that results in official documentation of the incident. These reports form the basis of local, state, and federal crime statistics.

Notes:

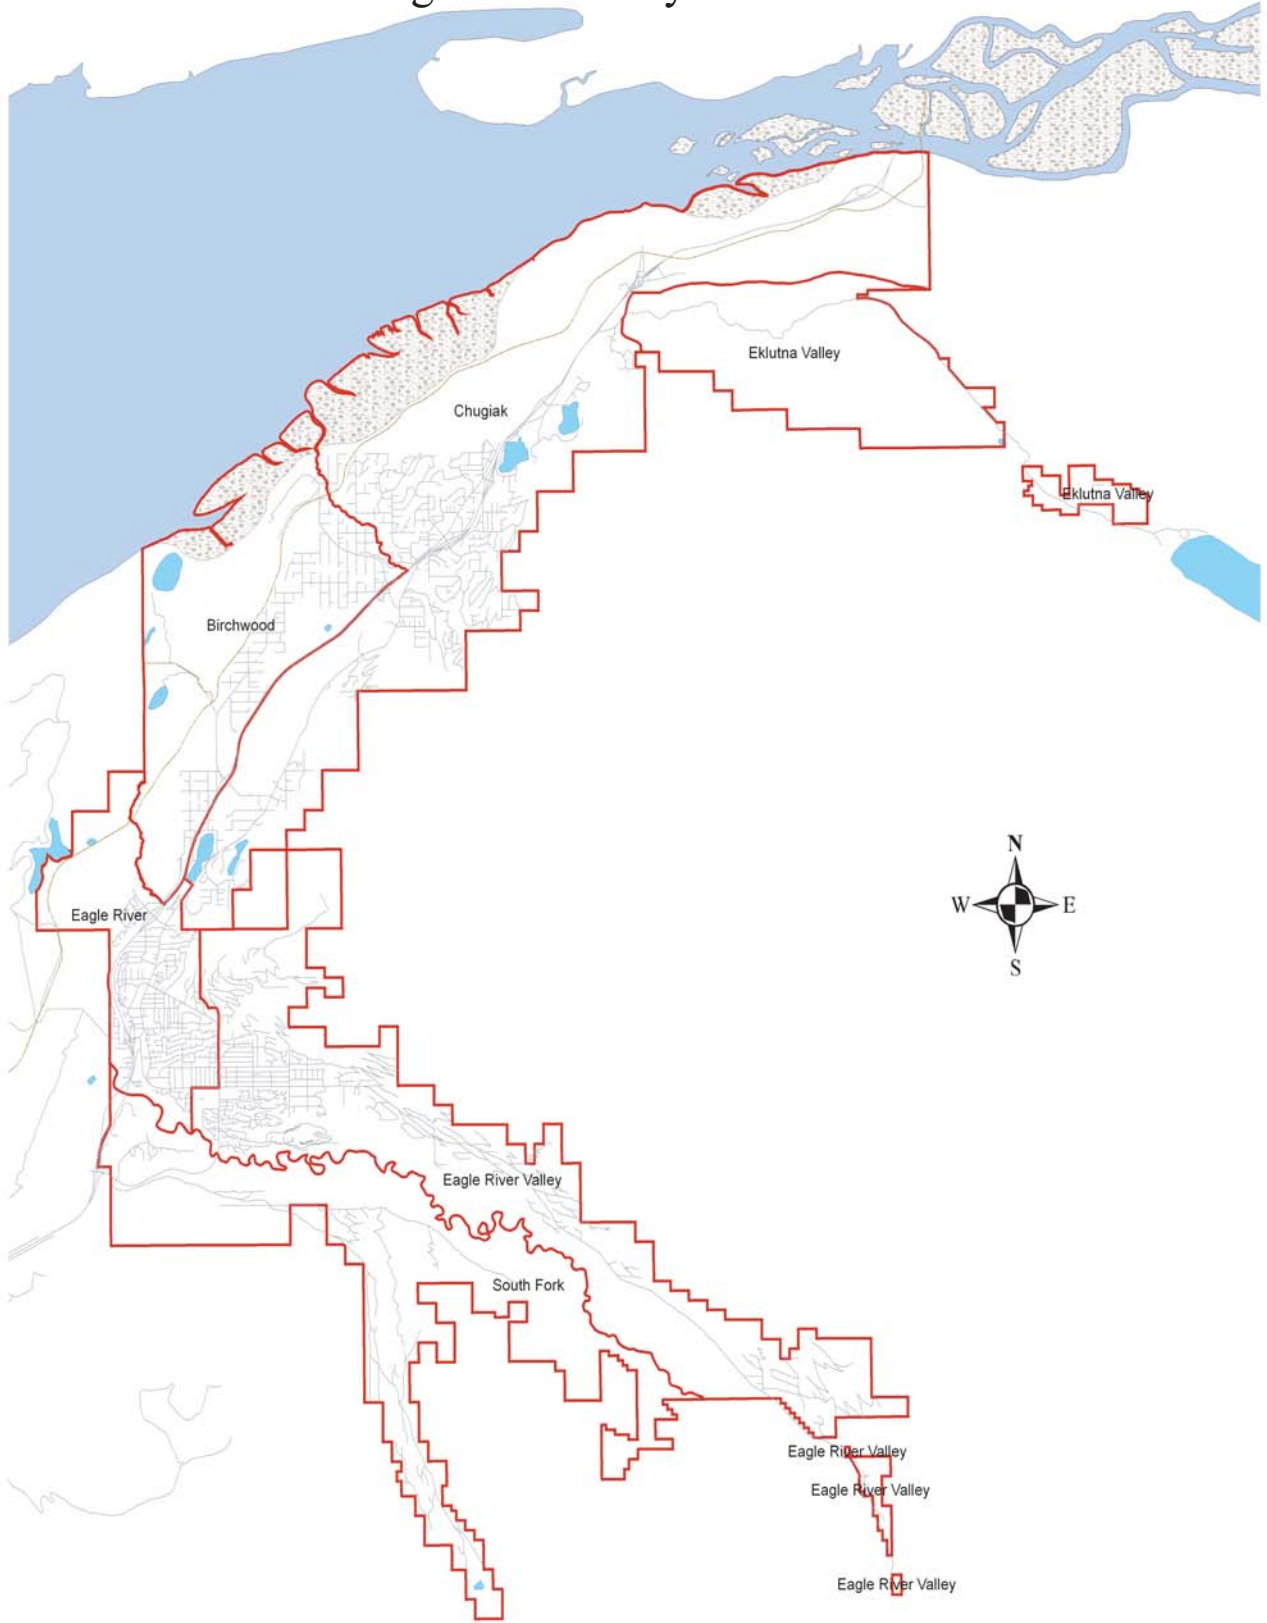

Beginning in 2008 calls for service will be reported by Community Council area instead of by APD Districts. This is an effort to make the call data more meaningful to Anchorage neighborhoods. The Community Councils are listed in alphabetical order.

The sum of Community Council totals will not equal total Calls for Service due to inexact address and the fact that the Community Council pages show only public safety and public order calls for service.
