

# Summary of Changes

## 2003 Action Plan

### Amendment 1

The 2003 Action Plan was amended and adopted August 27, 2003. While there are numerous minor modifications throughout the document, the most significant changes are in *Section 1: General Narratives* beginning on page 1-1 and in *Section 5: Proposed Project Descriptions* beginning on page 5-1.

In Section 1, the most significant change has its origin on page 1-5 under the subsection Annual Actions for the 2003 Program Year. The section has been revised to reflect the goals, priorities, and strategies stated in the draft *Housing and Community Development Consolidated Plan for 2003 – 2007*.

The significant changes in Section 5 begin on page 5-3 with the inclusion of the Housing and Community Development Resources subsection. The next major change to Section 5 resides in the Table 5-1 Proposed CDBG Projects on page 5-5. The table restates the original funding-allocations, indicates the 2003 revisions, and provides the new proposed-funding balances. The next difference resides in the subsection CDBG Projects Descriptions beginning on page 5-6. The descriptions have been refined for clarity and the accompanying tables contain the adjusted numbers found in Table 5-1.

The Amended *2003 Action Plan* outlines the Community Development Division's proposal of what analysis indicates as the best method to meet the priorities and objectives laid out in the *Housing and Community Development Consolidated Plan for 2003 - 2007* and to comply with the CDBG regulations. For more information regarding this Amended *2003 Action Plan*, please call the Community Development Division at 343-4881 or call James Boehm, Senior Neighborhood Planner at 343-4285.
