

ON-SITE SYSTEMS TECHNICAL REVIEW BOARD

SUMMARY OF ACTION

December 8, 2004

Members Present: Mark Musial, PE, Chairman, Dave Beveridge, PE, Bill Schnabel, Linda Kovac, Homeowner

Advisory Members:

Staff Present: Dan Roth, Program Manager, Julie Makala, PE, Jeff Urbanus, DHHS, Hallie Stewart, AWWU

Guests: Earl Dotten, AK Water Well Association, Dan Young, AK Water Well Association, Wayne Westberg, M-W Drilling, Bob Cowan, S & S Engineering

Meeting called to order at 1130.

November minutes approved with no comments.

Staff committee reports - Dan Roth stated there may be an alternative wastewater system in the near future. Information will be given out when he receives it.

Jeff Urbanus stated that the Health Department mailed out Arsenic Brochures to all people on private wells. Anyone who wants a copy can get one from Jeff.

Well Code - discussion on which version of well code we are working with. Double check all revisions. Update as needed and discussed.

Mark Musial had questions about the appeals process and enforcement issues. Both must be consistent.

Questions were asked on why Excavators can not drill wells. Dan Roth stated that Well Drillers or Pump Installer will be motivated to do the job right. The Excavator would cut the casing cut off and get it below ground so it's no longer seen and then consider it taken care off.

Dan Young had questions about inconsistencies in the code on Page 4 line 44. Does the department approve sanitary well seals? Dan Roth stated that On-Site Services does approve the sanitary seals, but that we don't have a list of seals that are approved.

Further discussion was made on the Well Code and some changes approved.

Adjourned at 1:15 pm.
