

ON-SITE SYSTEMS TECHNICAL REVIEW BOARD

SUMMARY OF ACTION

November 10, 2004

Members Present: Mark Musial, PE, Chairman, Linda Kovac, Homeowner, Jay Marvin, Homeowner, Wes Turner, MD, Bill Schnabel

Advisory Members:

Staff Present: Julie Makala, PE On-Site, Kathleen Maricle, Permit Clerk,

Guests: Earl Dotten, AWWA, Bob Cowen, S&S Engineering

Meeting called to order at 1145. Introductions were made.

October 13, 2004 minutes approved

Old Business - Inviting Engineers, Well Drillers, etc to an informal meeting to discuss Well Code changes. Mark Musial feels that there has already been significant input. Mark asked if the Well Code needs to be sent to Legal before we had an informal meeting.

Well Code update - Linda asked why can't cement being used when decommissioning a well, it was explained why bentonite was a better choice. It was also noted that on page 4 line 14 the wording after "Out Of Service" should read a "well that, etc". Linda also mentioned that on page 6 line 45 a time limit was needed. Wording will be changed to reflect a time limit of 90 days. Earl Dotten would like the wording on page 10 line 32 under Grouting checked. He believes that it had been changed in the past.
