Mr. Hal Hart, Director
Community Development
Municipality of Anchorage
PO Box 196650
Anchorage, AK 99519-6650

Subject: Letter of Authorization
U-Med Professional Park Subdivision, Tract 1, Zoning Map Amendment

Dear Mr. Hart:

The University of Alaska Anchorage is the Owner of the parcel legally described as U-Med Professional Park Subdivision, Tract 1. The parcel is approximately 7.16 acres in size and located in the U-Med District of Anchorage, Alaska at the southeast corner of the intersection of Providence Drive and Lake Otis Parkway.

I authorize DOWL to act on the University of Alaska Anchorage's behalf to submit and process a Zoning Map Amendment and Major Site Plan Review for the above-mentioned property. Please free to contact me if you need further information on this request.

Thanks for your continued cooperation.

Sincerely,

A handwritten signature in black ink, appearing to read 'Chris Turlletes', is written over a large, circular, scribbled-out area.

ZONING MAP AMENDMENT

UNIVERSITY *of* ALASKA ANCHORAGE™

U-Med Professional Park Subdivision, Tract 1

January 3, 2017

January 3, 2017

Mr. Hal Hart, Director
Community Development
Municipality of Anchorage
PO Box 196650
Anchorage, AK 99519-6650

Subject: Letter of Authorization
U-Med Professional Park Subdivision, Tract 1, Zoning Map Amendment

Dear Mr. Hart:

The Board of Regents of the University of Alaska is the Owner of the vacant parcel legally described as U-Med Professional Park Subdivision, Tract 1. The parcel is approximately 7.16 acres in size and located in the U-Med District of Anchorage, Alaska at the southeast corner of the intersection of Providence Drive and Lake Otis Parkway.

I authorize DOWL to act on my behalf to submit and process a Zoning Map Amendment and Major Site Plan Review for the above mentioned property.

Sincerely,

Board of Regents of the University of Alaska

Application for Zoning Map Amendment

APPLICATION CHECKLIST
1. Zoning map amendments require a minimum of 1.75 acres of land excluding right-of-way or a boundary common to the requested zoning district. (For exceptions, see AMC 21.03.160B.)
2. In the case of multiple owners, the petitioning property owners must provide documentation showing ownership of at least 51% of property to be rezoned.

ZONING MAP AMENDMENT STANDARDS (AMC 21.03.160)

A rezoning request may only be approved if it meets the approval criteria stated in AMC 21.03.160E. Please explain how the proposal meets the required criteria:

1. The rezoning shall be in the best interest of the citizens of Anchorage and shall promote the public health, safety, and general welfare.
2. The rezone complies with and conforms to the comprehensive plan, including the comprehensive plan map(s). (If the proposed rezone does not conform to the comprehensive plan, it may be considered along with a comprehensive plan amendment.)
3. The rezoning is generally consistent with the zoning district purpose in the requested zone, and the purpose of this title.
4. The rezoning is compatible with surrounding zoning and development, and protects areas designated for specific uses on the zoning map from incompatible land uses or development intensities.
5. Facilities and services (including roads and transportation, water, gas, electricity, police and fire protection, and sewage and waste disposal, as applicable) are capable of supporting the uses allowed by the zone or will be capable by the time development is complete, while maintaining adequate levels of service to existing development.
6. The rezoning is not likely to result in significant adverse impacts upon the natural environment, including air, water, noise, storm water management, wildlife, and vegetation, or such impacts shall be substantially mitigated.
7. The proposed rezoning is not likely to result in significant adverse impacts upon adjacent land uses, or such impacts shall be mitigated through stipulations.
8. The rezone does not extent or exacerbate a land use pattern that is inconsistent with the comprehensive plan.
9. The rezoning does not result in a split-zoned lot.

INTRODUCTION

The Board of Regents of the University of Alaska (UA Board of Regents), owns a 7.16-acre parcel of land, generally located south of Providence Drive, west of Laurel Street, north of East 38th Avenue, and east of Lake Otis Parkway, in Anchorage (Figure 1 – Location Map). The parcel is legally described as U-Med Professional Park Subdivision, Tract 1 (Tract 1). The parcel is zoned General Business with special limitations (B-3 SL) per Assembly Ordinance 2003-142 (Appendix A). The UA Board of Regents is requesting approval to rezone the parcel from B-3 SL to Public Lands and Institutions (PLI) District (Figure 2 – Existing Zoning Map and Figure 3 – Proposed Zoning Map).

BACKGROUND

Zoning History

The property was originally zoned PLI District, when the property was purchased by a private land owner who was interested in developing the land commercially, it was rezoned to a B3 District in 2003. As part of that rezoning process special limitations were included to assure the community that the development in the B3 District would be limited and have similar design standards to a PLI District development. Since that time, the property has gone back to UA Board of Regents ownership. The purpose of this rezone is to change the property back to PLI District so that the University can use and develop the property to support the University of Alaska Anchorage (UAA) campus.

For the near future (approximately the next 10 years or more) the site will continue to be used as an outdoor storage yard to support the university. Outdoor storage yards are a permitted use, subject to approval of a Major Site Plan Review, in the PLI District. It is likely that in the long-term the site will be developed with an Administration Building, which is subject to need and funding availability. Any future development will be subject to the Title 21 dimensional and design standards and development of University related buildings will be subject to a Major Site Plan Review (per the Table of Allowed Uses in Chapter 5 of Title 21 under use type “College or University”).

Previous Site Plan Approval

In 2013, the Planning and Zoning Commission approved a public hearing site plan review for the temporary use of this parcel as an outdoor storage yard under Resolution 2013-025 (Appendix B). Type II fill, two feet in depth, was installed over fabric over an existing vegetative mat to accommodate the temporary use as a construction storage area. A portion of this fill overlapped an area designated as a

100-year flood plain identified on the FEMA Flood Insurance Rate Map. Although the parcel is no longer within a flood plain, as it is identified as such by FEMA, it was subject to approval of a Flood Hazard Permit. This resulted in the high development costs for the storage yard at almost \$800,000. Removal of the materials, as required by the Flood Hazard Permit would be an additional almost \$800,000.

The site was specifically developed as an outdoor storage yard to support the newly constructed School of Engineering and Industry Building, and renovations on the School of Engineering Building, both completed in 2016. Due to the success of the site in facilitating campus construction and facility maintenance, and the investment that was required in developing it, the UA Board of Regents is seeking approval to continue to use the site as an outdoor storage yard to support current and future campus project needs. UAA is a dynamic campus with ongoing maintenance and new construction. Having an on-campus site that serves as staging for construction and equipment and facility maintenance storage provides efficiencies for the University and reduces impacts of construction on other undisturbed places within the campus. The outdoor storage yard site plan will be modified to meet the dimension and design standards of Title 21 and will be subject to a public hearing for Major Site Plan Review by the Urban Design Commission (UDC) prior to final approval of the use of the site as an outdoor storage yard.

Surrounding Area

Adjacent parcels include PLI District parcels to the north and east (Figure 2). The property to the north is part of the UAA campus, to the east is the Mental Health Trust's property with the McLaughlin Youth Center. Both are designated as institutional land uses (Figure 4 – Existing Land Use Map). To the south is the Orthopedic Physicians of Anchorage office which is zoned B-3. To the west, across Lake Otis Parkway are parcels zoned B-1A District and R O District, and include commercial development and vacant lots. To the northwest across the Providence Lake Otis intersection are parcels zoned R-2A and are designated single-family use. These land uses and zoning districts are compatible with the proposed PLI District.

PLANNING OBJECTIVE

The objective of this rezone to a PLI District is to continue to use the site for outdoor storage associated with a community use. Outdoor storage in the PLI District is permitted subject to approval of a Major Site Plan Review per Planning and Zoning Commission Case 2016-0128; AO No. 2017-(Appendix C). Rezoning the parcel to a PLI District will match the surrounding PLI zones of the UAA campus and allow

other future development to be compatible with surrounding institutional uses. The proposed special limitation is to preserve and maintain the existing vegetative buffer along north and west property lines adjacent to Providence Drive and Lake Otis Parkway.

COMMUNITY MEETING

DOWL with representatives from UAA attended the November 2, 2016 University Area Community Council (UACC) meeting to discuss the proposed zoning map amendment and future major site plan review. 140 mailers were sent out to residents within a 500-foot radius of parcel, including to the presidents of the UACC, Rogers Park Community Council, and the Tudor Area Community Council on October 10, 2016, 21 days in advance of the meeting (Appendix D – University Area Community Council Meeting).

The project team presented the proposed rezone from B-3 SL District to PLI SL District and explained how the rezone would allow for the continued use of the parcel as an outdoor storage yard or until funding is available for a new administrative building, which is not expected for at least 10 years. It was also explained that this rezone will bring the parcel more in line with uses indicated by the adopted Land Use Policy Map within the Anchorage Bowl Comprehensive Plan (Anchorage 2020) and the University Medical (UMED) District Plan, as well as the UAA Master Plan. There were few questions about the proposed rezone and major site plan review, which included: 1) will the existing vegetation be retained and 2) clarification that the intent of the rezone was so that the existing use would be allowed to be continued. The UACC voted unanimously to support of resolution of non-objection to the rezone request.

ZONING MAP AMENDMENT STANDARDS

- 1. The rezoning shall be in the best interest of the citizens of Anchorage and shall promote the public health, safety, and general welfare.**

Approval of this zoning map amendment request to PLI District will allow the property to be used for major public and quasi-public, civic, administrative, and institutional uses and activities. The proposed rezone is in line with the goals of the applicable comprehensive and neighborhood plans and would allow for development that fits with the surrounding land uses and the UAA campus.

- 2. Rezone complies with and conforms to the comprehensive plan, including the comprehensive plan map(s). (If the proposed rezone does not conform to the comprehensive plan, it may be considered along with a comprehensive plan amendment.)**

ANCHORAGE BOWL COMPREHENSIVE PLAN

The goal of Anchorage 2020 is to provide direction for the preferred long-term growth and development in the community. Per Chapter 5, Plan Implementation, the rezone is supported by the following policies:

- **Policy #7 – Avoid incompatible uses adjoining one another.** A PLI District is compatible with surrounding institutional and commercial land uses.

UMED DISTRICT PLAN

The 2016 UMED District Plan Land Use Plan identifies this parcel as “Major Institutional”. Major Institutional is implemented by the PLI District designation and is intended for university campuses, medical centers and other collective community functions. Uses that are supportive to the institution are allowed. Rezoning this site to PLI District supports the Major Institutional land use designation and will support the UAA campus.

- 3. The rezoning is generally consistent with the zoning district purpose in the requested zone, and the purpose of this title.**

The intent of rezoning the parcel to PLI District is to allow for uses that are more supportive of the UAA campus. As stated previously this would allow for major public and quasi-public, civic, administrative, and institutional uses and activities.

- 4. The rezoning is compatible with the surrounding zoning and development, and protects areas designated for specific uses on the zoning map from incompatible land uses or development intensities.**

As discussed in the background section adjacent parcels include PLI District parcels to the north and east; to the south is a B-3 parcel; to the west, across Lake Otis Parkway are parcels zoned B-1A District and R O District; and to the northwest across the Providence Lake Otis intersection are parcels zoned R-2A (Figure 2). The surrounding uses include UAA campus property to the

north; the McLaughlin Youth Center to the east; the Orthopedic Physicians of Anchorage office to the south; commercial development and vacant lots to the west; and residential lots to the northwest. The surrounding zoning districts and land uses are compatible with the proposed PLI District.

- 5. Facilities and services (including roads and transportation, water, gas, electricity, police and fire protection, and sewage and water disposal, as applicable) are capable of supporting the uses allowed by the zone or will be capable by the time development is complete, while maintaining adequate levels of service to existing development.**

The property is located on the periphery of the UAA campus and is bordered to the north by Providence Drive, a Class II Minor Arterial and to the east by Lake Otis Parkway, a Class III Major Arterial. This area is well served by public facilities and services that will support uses in a PLI District.

- 6. The rezoning is not likely to result in significant adverse impacts upon the natural environment, including air, water, noise, storm water management, wildlife, and vegetation, or such impacts shall be substantially mitigated.**

Rezoning the property to PLI District will have no significant impacts to air, water, noise, storm water management, or wildlife associated with the proposed development.

For any future development the site will be upgraded with landscaping meeting Title 21 requirements and all stormwater will be handled in a capacity and quality consistent with both Municipal and State specifications.

- 7. The proposed rezoning is not likely to result in significant adverse impacts upon adjacent land uses, or such impacts shall be mitigated through stipulations.**

This rezone is compatible with the surrounding land uses. As previously stated, PLI development would serve the UAA campus. Landscaping, as required by the new Title 21, will minimize any impacts to the surrounding properties. The special limitation to preserve the existing landscape buffer will help mitigate any use impacts.

- 8. The rezone does not extend or exacerbate a land use pattern that is inconsistent with the comprehensive plan.**

As previously stated in response to item 2, the proposed rezone is consistent with the comprehensive and the district plan. This rezone is a house keeping measure to bring the property back in line with UA Board of Regents holdings. Converting the property from B3 to PLI brings the property into a greater consistency with the surrounding Districts.

- 9. The rezoning does not result in a split-zoned lot.**

The rezone will not result in a split-zoned lot.

AMENDED AND APPROVED

Date: 12-2-03

Anchorage, Alaska
AO 2003-142, Amended

AN ORDINANCE OF THE ANCHORAGE MUNICIPAL ASSEMBLY AMENDING THE ZONING MAP AND PROVIDING FOR THE REZONING OF APPROXIMATELY 14 ACRES FROM PLI (PUBLIC LANDS AND INSTITUTIONS) TO B-3 SL (GENERAL BUSINESS DISTRICT) WITH SPECIAL LIMITATIONS FOR TRACT E, MENTAL HEALTH TRUST LAND SUBDIVISION; GENERALLY LOCATED AT THE SOUTHEAST CORNER OF LAKE OTIS PARKWAY AND PROVIDENCE DRIVE.

(University Area Community Council) (Planning and Zoning Commission Case 2003-072)

THE ANCHORAGE ASSEMBLY ORDAINS:

Section 1. The zoning map shall be amended by designating the following described property as B-3 SL (General Business District) with special limitations zone:

Tract E, Mental Health Trust Land Subdivision, as shown on Exhibit "A" (Planning and Zoning Commission Case 2003-072).

Section 2. The zoning map amendment described in Section 1 above shall be subject to the following special limitations:

- A. Prior to the issuance of a grading and excavation permit for any development on Tract E, a site plan shall be submitted to the Planning and Zoning Commission for public hearing of each development, except that the internal circulation roadways, as depicted in the "U-Med Study" and utilities may be permitted following an administrative review by the MOA Planning Director. The parcel shall have the road improvements under construction within two years of the effective date of the rezone.
- B. A landscape plan shall be submitted with the site plan that details required and recommended landscaping features.
- C. Building setback standards.
 1. There shall be a building setback of at least 20 feet from the northern property boundary along Providence Drive to maintain the gateway/parkway appearance of Providence Drive.
 2. There shall be a building setback of 50 feet from the southern property boundary to allow for the future construction of East 40th Avenue.

3. The building setback on the western property boundary, along Lake Otis Parkway, shall coincide with the 10-foot Telephone and Electrical easement.
4. Along the east boundary of the property, there shall be an 8-foot landscape buffer.

D. Building height standard: building height shall be limited to 5-stories.

E. Site design standards:

1. On the northern half of Tract E, no parking areas shall be allowed between buildings and Providence Drive, and between buildings and Lake Otis Parkway. On the southern half of Tract E, there shall be no more than one driving aisle between buildings and Lake Otis Parkway. The aisle may have parking rows on both sides.
2. The planned internal access drive shall be designed as a two-lane local access street (as illustrated in the 2003 draft "U-Med District Plan," page 34) with a separated sidewalk on the western side of the street. An 8-foot landscape buffer along this sidewalk shall be provided adjacent to parking areas.
3. Two free-standing signs are allowed on each tract. A free-standing sign shall have a maximum height of 12-feet, and a maximum 80-square foot area. Pole signs are prohibited.
4. Snow storage areas shall be identified on the site plan. To facilitate snow plowing and snow removal, snow storage areas equal to at least 15% of the total area of parking, access drives, walkways, and other snow-clearing surfaces must be designated in the site plan. Half (50%) of snow storage areas shall be exclusive of required parking and required landscaping areas (per minimum code requirements).
5. All dumpsters and trash collection areas outside of buildings shall be surrounded with screens that include the following elements:
 - a. a roofed structure with a bottom no lower than 3 feet above the highest point of the container, and with a minimum roof height of 8 feet; and
 - b. an enclosure depth of a minimum 6 feet with placement of stops in back of the enclosure to prevent containers from hitting the back wall; and

c. gates that are hinged to swing open at least 180 degrees (prevent bollards or other structures from blocking the gate swinging open) and can be latched open, or have a roll-up door.

6. All outdoor light fixtures shall direct light toward the ground. The light source must not be visible from abutting streets or properties. All parking lot lighting shall have full cutoff fixtures as defined by the Illuminating Engineering Society of North America (IESNA) and shall use metal halide lamps.

F. Building and site design guidelines.

1. The facade of any building facing Lake Otis Parkway and/or Providence Drive should not appear to be the back or rear of the building. Buildings along these major roadways should include windows and/or other architectural designs/methods that break up the building façade(s).
2. The mass of a single building or group of buildings should appear as an arrangement of smaller-sized, connected structures. Upper level offices, or residential floors, may be incorporated into the roof form to help reduce the apparent height and mass of the buildings.
3. The design of the building(s) and the site should allow pedestrians access to the site via walkways along and between buildings. Access points to buildings should permit direct and easy access to primary building entrances for pedestrians.
4. To maintain an active, vital storefront appearance, at least 30% of the total ground floor (ceiling to floor) wall surface, facing a public right-of-way, should be glazed with clear (or tinted) glass windows. Upper stories should provide fenestrations, appropriate to the building design, which make the upper floors appear as active, occupied space.
5. Use, design and placement of buildings near the intersection of Lake Otis Parkway and Providence Drive should not detract from the gateway image to the U-Med District. A landmark design feature should be considered for a structure at this corner.
6. Surface parking should be designed with clear and direct pedestrian access routes. Landscaping and appropriate lighting should be provided to facilitate pedestrian use.
7. The planned internal access drive should be designed as a private road/driveway incorporating traffic calming techniques.

8. A usable outdoor space, preferably with solar orientation, should be provided for public, customer and employee use.

G. General.

1. The site plan should demonstrate compliance with the intent of mixed-use development as described in Anchorage 2020 and the 2003 draft University-Medical District Framework Master Plan, and with the Design Guidelines recommended in the 2003 draft University-Medical Framework Master Plan, to the maximum extent practicable.
2. Prior to the issuance of a grading and excavation permit for any development other than the internal circulation road and utilities on Tract E, a Traffic Impact Study (TIA) shall be completed and submitted with the first public hearing site plan review by the Planning and Zoning Commission.

H. Uses.

1. Retail uses shall be limited to 40% of the combined gross square footage of all buildings on each tract.
2. No beverage dispensary liquor license shall be allowed unless associated with a Restaurant with more than 50% of its gross business related to food.
3. Prohibited uses.
 - a. Package liquor stores.
 - b. Gasoline service stations, auto repair maintenance, bulk fuel dealers, primary tire change facilities.
 - c. Car washes.
 - d. Vehicle rentals or sales.
 - e. On-site dry cleaning.
 - f. Bars or taverns.
 - g. Video or amusement arcades or pool halls.
 - h. Adult-style entertainment (adult bookstores, peepshows, topless/bottomless dancers, massage parlors, escort services, and similar uses).
 - i. Transmission towers.
 - j. Mini-storage facilities.
 - k. Taxidermists, meat or game processing and lockers.
 - l. Pawn shops.
 - m. Gun shops.
 - n. Funeral parlors and crematoriums.
 - o. Drive-through retail establishments of any kind.

MUNICIPALITY OF ANCHORAGE
ASSEMBLY MEMORANDUM

No. AM 789-2003

Meeting Date: October 7, 2003

From: Mayor

Subject: AO 2003-142 Planning and Zoning Commission Recommendation of Approval to rezone 14 +/- acres from PLI to B-3 SL for Mental Health Trust Lands Subdivision, Tract E; generally located on the southeast corner of Lake Otis Parkway and Providence Drive.

1 The Mental Health Trust Land (MHTL) Office petitioned to rezone approximately 14 +/-
2 acres from PLI (Public Lands and Institutions District) to B-3 SL (General Business
3 District) with special limitations. The property fronts onto Lake Otis Parkway and
4 Providence Drive.

5
6 MHTL offered design standards, and use limitations as special limitations. The Planning
7 and Zoning Commission accepted revised special limitations that had been worked out
8 between MHTL and the Planning Department Staff, which incorporated concepts found in
9 the *Universities and Medical District Framework Master Plan (U-Med Plan) Final Draft*,
10 April 2003. The revised special limitations outline use and general special limitations
11 (including a site plan review and a Traffic Impact Study); standards for building setbacks,
12 building design, site design; and guidelines for building design and site design.

13
14 The present zoning code does not easily provide for mixed-use development on this
15 property without the use of special limitations. While the R-O, residential-office, district
16 seems more appropriate to the character of development anticipated here, it does not permit
17 the type of accessory retail use suitable for a mixed-use area. In contrast, the B-3, general
18 commercial, district essentially permits all commercial uses with a focus on areas exposed
19 to heavy automobile traffic. Although the B-3 does permit offices and other uses found in
20 mixed-use areas, retail use on this property should be restricted to accessory use only, not
21 primary. Given that, the revised special limitations for the proposed B-3 SL rezone would
22 meet the intent of the mixed-use category in both *Anchorage 2020* and the 2003 draft U-
23 Med District Framework Master Plan, and prevent the development of strip commercial
24 along a major arterial.

25
26 B-3 SL zoning with the revised special limitations generally meets the standards for a
27 zoning map amendment as required by AMC 21.20.090, the Anchorage 2020 Plan
28 Transition guidelines required by AMC 21.05.080.C.4.c (how applications would be
29 viewed in the transition between adoption of *Anchorage 2020* and the adoption of more
30 specific land use plans and the policies and strategies of *Anchorage 2020*, including
31 Policies 1, 4-7, 9-14, 21-23). *Anchorage 2020* designates this area as a Major

1 p. Stand-alone video rental stores.
2

3 **Section 3.** The special limitations set forth in this ordinance prevail over any inconsistent
4 provisions of Title 21 of the Anchorage Municipal Code, unless specifically provided for
5 otherwise. All provisions of Title 21 of the Anchorage Municipal Code not specifically
6 affected by the Special Limitations set forth in this ordinance, shall apply in the same manner
7 as if the district classification applied by this ordinance were not subject to Special
8 Limitations.
9

10 **Section 4.** The Director of the Planning Department shall change the zoning map
11 accordingly.
12

13 **Section 5.** This ordinance shall become effective within ten (10) days after the Director of
14 the Planning Department has received written consent of the owners of the property within the
15 area described in Section 1 above to the special limitations contained herein. The rezone
16 approval contained herein shall automatically expire and be null and void if the written
17 consent is not received within 120 days after the date on which this ordinance is passed and
18 approved. In the event that no special limitations are contained herein, this ordinance is
19 effective immediately upon passage and approval.
20

21 **Section 6. The Municipal Assessor shall be notified immediately of this rezone.**
22

23 PASSED AND APPROVED by the Anchorage Assembly this
24

25 2nd day of December 2003.

REZONING 2003-072

EXHIBIT A

1 Employment Center and Redevelopment/Mixed-Use Area, and is directly adjacent to the
2 Lake Otis Transit Supportive Development Corridor making this property desirable for
3 mixed use development.
4

5 The Tudor Area Community Council provided a letter asking for special limitations, in
6 addition to those already proposed, for a 40-foot buffer of trees, a transit center located off
7 the street; traffic concerns be addressed; minimize parking; provide pedestrian amenities;
8 require a three story height limitation; require an acoustics study (that lights not shine onto
9 adjacent property).
10

11 The Commission voted unanimously to recommend approval to rezone the subject
12 property to B-3 SL. The Administration supports the proposed B-3 SL zoning for the
13 subject property.

MUNICIPALITY OF ANCHORAGE
PLANNING AND ZONING COMMISSION RESOLUTION NO. 2013-025

A RESOLUTION GRANTING APPROVAL OF A SITE PLAN FOR TEMPORARY USES IN ACCORDANCE WITH AO 2003-142, WITHIN U-MED PROFESSIONAL PARK SUBDIVISION, TRACT 1, GENERALLY LOCATED SOUTH OF PROVIDENCE DRIVE, WEST OF LAUREL STREET, NORTH OF EAST 38TH AVENUE, AND EAST OF LAKE OTIS PARKWAY, IN ANCHORAGE.

(Case 2013-070)

WHEREAS, a petition has been received from the University of Alaska Anchorage requesting approval of a site plan for temporary uses in accordance with AO 2003-142, within U-MED Professional Park Subdivision, Tract 1, generally located south of Providence Drive, west of Laurel Street, north of East 38th Avenue, and east of Lake Otis Parkway, in Anchorage; and

WHEREAS, ninety-three public hearing notices were mailed, and a public hearing was held on the June 3, 2013.

NOW, THEREFORE BE IT RESOLVED, by the Municipal Planning and Zoning Commission that:

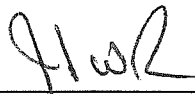

- A. The Commission makes the following findings of fact:
 - 1. The petition site contains approximately seven acres and is zoned B-3 SL per AO 2003-142. The special limitations require a public hearing site plan review prior to the issuance of a grading and excavation permit.
 - 2. The site plan is consistent with AMC 21.50.200 *General standards for site plan approval*.

- B. The Commission approves a site plan for a temporary use per AMC 21.50.200 and AO 2003-142, subject to the following conditions:
 - 1. A notice of zoning action shall be filed with the State of Alaska Recorder's Office. Proof of such shall be submitted to the Planning Division.
 - 2. All construction and improvements related to this approval shall be substantially in compliance with the questionnaire, narrative, and with Appendix B: Temporary Uses Site Plan, drawn by DOWL HKM, dated March 27, 2013.
 - 3. This approval expires on July 29, 2016.

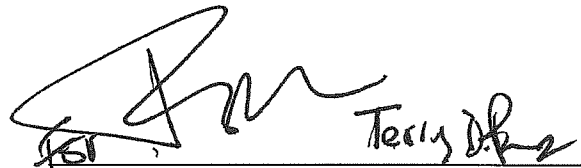

4. The staging area and crew parking area hours of operation will be from 6:00am to 7:00pm, Monday through Saturday, with no work or use on Sundays and holidays.
5. The maintenance yard hours of operation will be from 6:00am to 7:00pm, Monday through Saturday, with no work or use on Sundays and holidays, except in the case of an emergency.
6. All noise from operations shall comply with Chapter 15.70 Noise Control of the Anchorage Municipal Code.
7. No fill or gravel stockpiling is permitted.
8. Barbed wire and concertina wire is prohibited on or inside of the chain link fence.

PASSED AND APPROVED by the Municipal Planning and Zoning Commission the 3rd day of June 2013.

ADOPTED by the Anchorage Municipal Planning and Zoning Commission this 10th day of June, 2013. This written decision/resolution of the Planning and Zoning Commission is final and any party may appeal it within twenty (20) days to the Board of Adjustment pursuant to Anchorage Municipal Code 21.30.030.

Planning and Zoning Commission Case 2016-0128

AO No. 2017-

Submitted by: Chair of the Assembly at the
Request of the Mayor
Prepared by: Planning Department
Reviewed by: Department of Law
For reading:

ANCHORAGE, ALASKA
AO NO. 2017-

AN ORDINANCE OF THE ANCHORAGE MUNICIPAL ASSEMBLY AMENDING ANCHORAGE MUNICIPAL CODE CHAPTER 21.05 AND SECTION 21.10.050 TO ADD OUTDOOR STORAGE AND VEHICLE STORAGE ASSOCIATED WITH A COMMUNITY USE AS ALLOWED PRINCIPAL USES IN ANCHORAGE AND EAGLE RIVER IN THE PUBLIC LANDS AND INSTITUTIONS (PLI AND CE-PLI) AND PARKS AND RECREATION (PR AND CE-PR) ZONING DISTRICTS; AS ALLOWED ACCESSORY USES IN THE GENERAL BUSINESS (B-3 AND CE-B-3), PUBLIC LANDS AND INSTITUTIONS (PLI AND CE-PLI), AND PARKS AND RECREATION (PR AND CE-PR) ZONING DISTRICTS; AND TO INCLUDE DEFINITIONS AND USE-SPECIFIC STANDARDS FOR THESE ADDED PRINCIPAL AND ACCESSORY USES.

(PLANNING AND ZONING COMMISSION CASE 2016-0128)

WHEREAS, the Planning and Zoning Commission unanimously adopted Resolution 2016-044 recommending the code amendments proposed in this ordinance, and finding the need for outdoor storage of goods and materials and the need for storage of vehicles and equipment associated with community uses was not accommodated in new Title 21; and

WHEREAS, the Commission also found there is a need for facilities, such as hospitals, schools, parks, public facilities, and other community uses to assign space for storage and vehicles, both as a principal use and as an accessory use; and

WHEREAS, the Commission further found that impacts of storage facilities and vehicle storage areas to adjacent residences and other uses can be mitigated through use-specific standards including site plan approvals, screening requirements, and through requirements for parcel size; now, therefore,

8. Outdoor Storage Associated with a Community Use

a. Definition

Outdoor storage of goods and/or materials (but not “junk” as defined by chapter 21.14) associated with a community principal use.

b. Use-Specific Standards

Goods and/or materials associated with a community principal use shall be allowed subject to the following standards:

- i. Goods stored in an approved outdoor storage area shall be limited to items used for maintenance, repair, replacement, or new construction as part of an associated principle use.

- ii. Each outdoor storage area shall be screened from view from all property lines and adjacent rights-of-way by an opaque fence or wall between six and eight feet in height that incorporates at least one of the predominant materials used in the principal structure. The fence or wall may exceed eight feet in height where the difference in grade between the right-of-way and the outdoor storage area makes a taller fence or wall necessary to effectively screen the area. Alternatively, if it can be demonstrated that existing topography or vegetation adequately screens the storage area, in the opinion of the Director, the fence requirement may be waived. Materials may not be stored higher than fifteen feet from existing grade. The outer perimeter of the fence or wall shall be landscaped with L1 visual enhancement landscaping. A landscaped earth berm may be used instead of or in combination with a required fence or wall, provided it meets the same height requirements.

- iii. Flammable liquids or gases in excess of 1,000 gallons shall be stored underground.

- iv. No goods and/or materials may be stored in areas required for vehicular or pedestrian circulation or parking.

- v. Minimum lot size shall be no less than three acres. The director may reduce the minimum lot size when it can be demonstrated that the lot is in close proximity to the community use and there will be no impacts to neighboring properties.

- vi. “Hazardous material,” “hazardous chemical,” and “hazardous waste,” as defined by AMC 16.110.020, shall be stored in accordance with all applicable municipal, state, and federal laws.

9. Outdoor Storage of Vehicles and/or Equipment Associated with a Community Use

- a. Definition
The outdoor storage or parking of vehicles and/or equipment (but not “junk” as defined by chapter 21.14) used in support of a community use.

- b. Use-Specific Standards
Vehicles and/or equipment accessory to a community principal use shall be allowed subject to the following standards:
 - i. Vehicles and/or equipment stored in an approved outdoor storage area shall be limited to those under ownership of and for use by the associated principal community use.

 - ii. Each outdoor vehicle storage area shall be screened in accordance with the provisions of subsection 21.07.080E.2.b. Alternatively, if it can be demonstrated that existing topography or vegetation adequately screens the vehicle storage area, in the opinion of the Director, the other landscape requirements may be waived.

 - iii. Vehicle fueling stations associated with vehicle storage areas are allowed. Flammables liquids or gases in excess of 1,000 gallons shall be stored underground.

 - iv. “Hazardous material,” “hazardous chemical,” and “hazardous waste,” as defined by AMC 16.110.020, shall be stored in accordance with all applicable municipal, state, and federal laws.

¹ For uses allowed in the CE-DO (Downtown Eagle River Overlay District), when the abbreviation of the approval process is followed by a "R", that indicates the use is allowed only in the portion of the overlay district where the underlying zoning is RO. When the abbreviation of the approval process is followed by a "B", that indicates the use is allowed only in the portion of the overlay district where the underlying zoning is B-3. If the abbreviation of the approval process has no suffix, then the use is allowed anywhere in the overlay district. For example, "P-R" means that the use is permitted only in the portion of the overlay district where RO is the underlying district.

⁴ Accessory dwelling units in the CE-R-1 and CE-R-1A districts are limited to attached ADUs, which are added to or created within single-family dwellings.

⁵ In the CE-R-3 district, outdoor keeping of animals is only permitted accessory to a single-family detached dwelling.

MEETING SUMMARY

Date:	11/2/16	Time:	7:00pm
Meeting called by:	University Area Community Council	Attendees:	
Project:	UAA Zoning Map Amendment	DOWL UAA	
Project Number:	1132.62308.01		
Subject:	Community Council Meeting		

Meeting Notes:

Background:

DOWL and UAA attended the University Area Community Council (UACC) on November 2nd, 2016 to present the proposed zoning map amendment request from General Business with Special Limitations (B-3 SL) District to Public Lands and Institution (PLI) District as well as discussed that a major site plan review would likely also be required for the outdoor storage yard.

The use of the site as an outdoor storage yard is expected for at least the next 10 years. The long-term development of the site would likely be an Administration Building.

Community Questions and Comments

Community (C): Will the existing vegetation along Lake Otis Boulevard and Providence Drive be retained?

DOWL: Yes, the proposed site plan retains that vegetation. Setback requirements in the PLI District are greater than that for the B-3 District (25 feet versus 10 feet) which will provide future protection that the existing buffer will be retained.

**UNIVERSITY AREA COMMUNITY COUNCIL (UACC)
RESOLUTION 2016-07**

**A Resolution of UACC Pertaining to UAA Zoning Map Request to Amend Parcel
T1N R3W Section 28 SW1/4**

WHEREAS the Anchorage Municipal Charter Art, VIII, Sec 8.01 establishes Community Councils as representatives for neighborhoods in planning and development; **and**

WHEREAS Community Councils are intended to reflect actual neighborhoods and provide guidance advice on management of lands within their boundaries; **and**

WHEREAS UAA's parcel is currently zoned as General Business with Special Limitations (B3 SL); **and**

WHEREAS the current use is not expected to change in the near future; **and**

WHEREAS this rezone will bring the site in line with the adopted University Medical (UMED) District Plan and the UAA Master Plan as-well-as bringing the property in line with the rest of UAA's land holdings; **and**

NOW THEREFORE UACC resolves not oppose the rezoning of Parcel B3 SL to PLI.

Resolution Vote: For 12 Against: 0 Abstain: 0

This resolution was approved by the University Area Community Council this day of **November 2, 2016.**

Signed

Paul R Stang, Present, UACC
