DISCUSSION QUESTIONS

These are the questions we've worked to answer via our strategic action plan.

The Big Question:

What will the Assembly do to make the most impact on housing?

- What would success look like a year from now (by end of 2024), as a direct result of our efforts? And in next 3 to 5 years?
- What policy actions do you think will have the biggest positive impact on our housing problems overall?
- What would have the most impact on housing in your district?
- **What are you already working on? What do you want to work on?**

ACTION PLANNING INSTRUCTIONS

1. Challenge to all members!
 - Choose something in **at least 2 of the 6** strategy areas!
 - Sign up for **at least 1 action** you're excited about.

2. Review the actions on the big sheets on the wall.
