SWS Engineering Outlook

- 1. Merrill Field Landfill (MFL)
 - Landfill gas collection update
 - Leachate collection study

- 2. Anchorage Regional Landfill (ARL)
 - ARL gas collection update

ARL leachate collection, treatment and discharge update

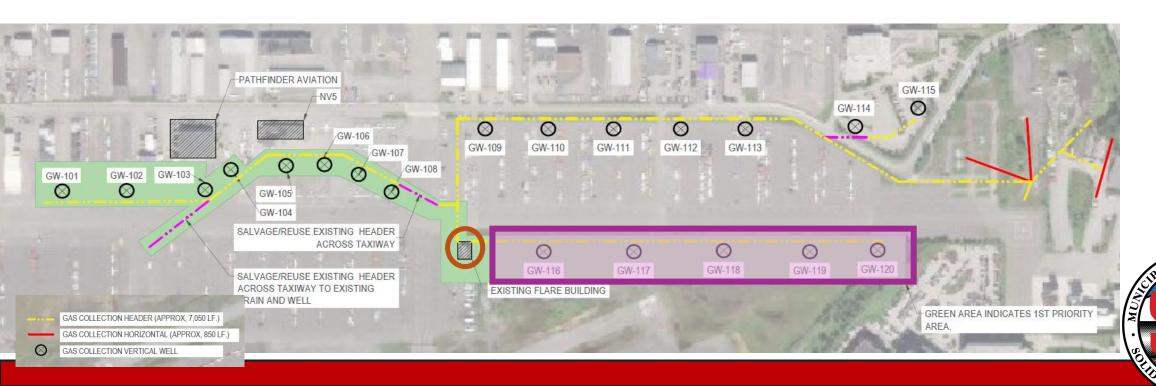

Merrill Field Landfill (MFL) - Closed 1984

Gas Collection and Control System (GCCS) 2025 Upgrade

- O Blower Design & Order In process
- Gas Collection Line, Phase 1- Construction start late June

Merrill Field Landfill (MFL) - Closed 1984

Leachate Collection Improvements

New test production well

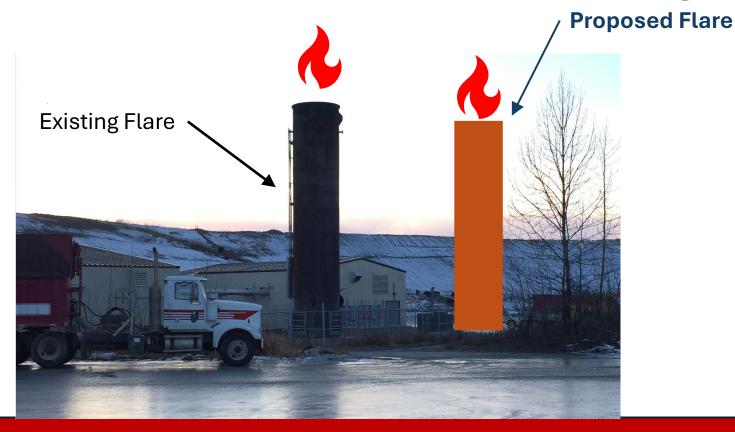

Approx GW Flow

Anchorage Regional Landfill (ARL)

Gas Collection and Control System: Blower building upgrade

Anchorage Regional Landfill (ARL)

Leachate collection, treatment, and discharge

Pond improvement (Under Construction)

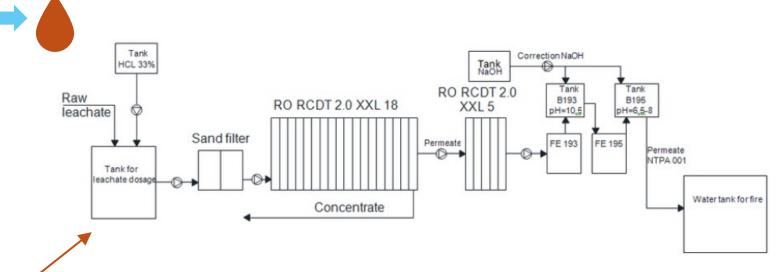

Additional storage

Aeration

• Disposal

- Deep well injection
- Evaporation
- Advanced Treatment Bench Scale Study

June 12, 2025

ARL & MFL Purchasing Actions

- GCCS Operation & Maintenance Request for Proposals
- Landfill Gas Monitoring for Permit Compliance Request for Proposals
