Eklutna Hydroelectric Project
1991 Fish & Wildlife Agreement
Implementation

Final Study Plans

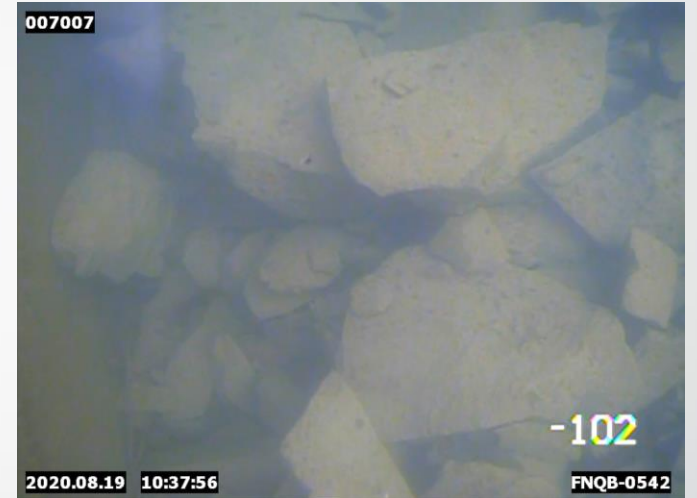

May 2021

Initiated Field Work in May 2021

Drainage Outlet Gate

- **August 2020** – Condition assessment revealed large pile of rocks/debris in front of the drainage gate
- **March 2021** – Ordered new drainage gate
- **June 2021** – Divers successfully removed most of the rocks/debris from in front of the drainage gate
- **July/Aug 2021** – Install new drainage gate
- **September 2021** – Study Flow Releases

Site Visit with the TWG in June 2021

Additional Stakeholder Outreach

- Native Village of Eklutna
- Chugiak Community Council
- AWWU Board of Directors
- Quarterly Newsletters
- Quarterly Update Calls
- Project Website

Next Steps

- Continue field work
- Install new drainage gate
- Obtain remaining permits and authorizations for flow releases
- Continue stakeholder engagement
- Study planning for 2022
