

PRESS RELEASE

Address Verification Cards Mailed and New Ballot Tracking System Launched

December 1, 2021

FOR IMMEDIATE RELEASE

This week, the Municipality of Anchorage Elections mailed an address verification postcard to all registered voters in the Municipality of Anchorage. This postcard shows the address to which the ballot package for next April's election will be mailed, and provides information about how a voter may update their voter registration if the mailing address (or residence address) is not correct. The postcard is forwarded if USPS has a forwarding address for the recipient. Postcards returned as undeliverable will be sent to the State of Alaska Division of Elections to update that voter's status to UN (undeliverable).

In addition to address verification information, the postcard introduces our new ballot tracking system to voters. MOA Elections has contracted with BallotTrax to provide ballot tracking. Voters may sign up at [anchoragevotes.com](https://www.anchoragevotes.com) to receive text, email, or voicemail alerts regarding the status of their ballot at various phases of the election process, or may check their ballot status at that site without signing up for alerts. More information about ballot tracking can be found on the Elections website.

For more election information, please visit [muni.org/elections](https://www.muni.org/elections).
