ANCHORAGE, ALASKA
AO No. 2023-34(S), As Amended

1 **AN ORDINANCE AUTHORIZING AND APPROVING ADOPTION OF PORT OF**
2 **ALASKA TERMINAL TARIFF NO. 10.0.**

3
4 **WHEREAS**, pursuant to Anchorage Municipal Code 11.50.030C., the Anchorage Port
5 Commission is charged with promulgating the Port's Terminal Tariff, subject to the
6 approval of the Anchorage Municipal Assembly and notification to the Federal
7 Maritime Commission; and

8
9 **WHEREAS**, there has been significant discussion between the Assembly
10 Enterprise/Utility Oversight Committee, the Municipality Administration, the Port of
11 Alaska users, and the Port staff, over how to proceed with the next steps for financing
12 the Port of Alaska Modernization Program (PAMP) Phase II – Cargo Dock
13 replacement which continues the mission of the administration to ensure food
14 security; and

15
16 **WHEREAS**, the Commission conducted a series of public meetings, held on July 22,
17 2022, August 10, 2022, September 28, 2022, and October 24, 2022, wherein the
18 Commission was provided with information by the Municipality of Anchorage
19 Administration supported by the Port staff, and provided an opportunity for public
20 comment for the Port customers/users and the public concerning the options
21 presented for changes to Port of Alaska Terminal Tariff No. 10.0; and

22
23 **WHEREAS**, this tariff renewal document is designed to put in place a 7-year
24 surcharge and rate plan in support of not only continued port operations, but debt
25 service coverage requirements to continue to support the Port of Alaska
26 Modernization Program (PAMP) by adding Section 2, Item 272, "Port Modernization
27 Surcharge Fees"; and

28
29 **WHEREAS**, the Transportation Infrastructure Finance and Innovation Act (TIFIA)
30 program is designed to provide financing for critical improvements to the nation's
31 transportation system, including ports, which requires a dedicated fund source, such
32 as a tariff surcharge, and the Port of Alaska has indicated it intends to seek TIFIA
33 financing for the cargo terminal phase of the PAMP; and

34
35 **WHEREAS**, the Assembly supports the Port of Alaska seeking financing for the
36 PAMP through the TIFIA program and supports the implementation of a tariff
37 surcharge to secure TIFIA financing; and

38
39 **WHEREAS**, the Commission voted to approve a surcharge addition to the Port of
40 Alaska Terminal Tariff for any future debt service associated with the PAMP with an
41 effective date of January 1, 2024; **and**
42

~~**WHEREAS, as of the date of this ordinance, the Municipality has not currently specified a planned use for revenue bonds associated with this tariff surcharge, beyond the requirement to utilize bonds to finance future expenditures for one or more phases of the PAMP; and**~~

~~**WHEREAS, the large scale of the multi-phase project, the likelihood of a continuing trajectory of cost increases for capital projects, and the general best practice of planning for contingencies in total project cost all indicate that planning for potential future cost increases is prudent; and**~~

~~**WHEREAS, the uniform tariff and surcharge concept is intended to apply to all remaining phases of the PAMP, which would include the cargo docks including any future build out of Terminal 2 to the same width as Terminal 1 to be considered a phase of the project; now, therefore,**~~

THE ANCHORAGE ASSEMBLY ORDAINS:

Section 1. The Municipality of Anchorage is authorized to adopt the Port of Alaska Terminal Tariff No.10.0, described in detail in **Exhibit B** [AND SUPPORTED BY THE PORT COMMISSION RESOLUTION R23-01, **EXHIBIT A**].

Section 2. All funds collected in excess of revenue bonds issued utilizing revenue from Item 272 of Terminal Tariff 10.0 are exclusively for use on Assembly Approved PAMP related expenditures and shall not be expended for any other purpose. Expenditures of these funds shall be limited to those directly related to one or more phases of the Port of Alaska Modernization Program, including debt financing, construction expenses, contingency due to cost increases, and major repairs when needed.

Section 32. Upon passage and approval by the Assembly this ordinance shall become effective January 1, 2024.

PASSED AND APPROVED by the Anchorage Assembly this 25th day of July, 2023.

<p style="text-align: center;">ENVIRONMENTAL PARAMETERS (Continued)</p> <p>DEPTH OF WATER</p> <p>The waters of the Cook Inlet are heavily loaded with silts and sediments that originate from the numerous glacially fed rivers and streams that empty into the Inlet. Two glacial rivers, the Knik and Matanuska, feed the Knik Arm of the Cook Inlet near the Port.</p> <p>The US Army Corps of Engineers maintains the navigation channels to the Port through an annual dredging program with the following goals:</p> <ul style="list-style-type: none"> • Federally authorized depth at the dock face: -35 feet MLLW • Federally authorized depth at the Knik Arm Navigation Channel: -38 feet MLLW <p>Seasonal shoaling and sedimentation are likely. Dredging operations are conducted in the ice-free months and depth information is regularly updated. Vessels are advised to contact the US Army Corps of Engineers, Alaska District Civil Works Division for the latest soundings on Knik Arm Navigation Channel and alongside the dock, and closely coordinate operations with the tide cycles paying special attention to low or minus tides.</p> <p>WINTER USE OF THE PORT</p> <p>The Port is open year-round. However, extreme temperatures, winter siltation, and ice provide a number of challenges during the winter months. Ice in the navigation channel and at the berths can cause difficulty in maneuvering and can exert unusually high mooring line forces. Winter siltation may cause decreases in available draft. Machinery, including fuel systems, cooling systems, winches, anchors, ballast water systems, and other auxiliary systems must be winterized and maintained in a state for use in the extreme environment. Tug assistance aids in mitigating these conditions.</p> <p>The US Coast Guard (USCG) Captain of the Port (COTP) has published operating guidelines for ice conditions in Cook Inlet. Copies of this document are available from the USCG.</p> <p>NOTE: SECTION 1, PART 5, PARAGRAPH 1 APPLIES IN FULL.</p>	<p>130</p>

USE OF TERMINAL

1. BERTHING

Vessels berthing or departing piers or wharves subject to this tariff must use sufficient tugs so that vessel can be berthed or removed in a safe manner.

2. ALLOWABLE VESSEL APPROACH VELOCITY

The fendering system at the Port is designed for the following conditions:

Vessel Displacement	Allowable Approach Velocity Perpendicular to Dock Face		
	Knots	Feet/Minute	Feet/Second
Long Ton*			
30,000 or less	0.21	21	0.36
30,000 to 50,000	0.16	16	0.28
50,000 to 70,000	0.14	14	0.23
Greater than 70,000	0.1	10	0.18

*One long ton equals 2,240 pounds.

These velocities shall not be exceeded. Tug assist may be required.

3. MOORING LINE LOAD GUIDELINES

There are three general types of mooring points at the Port: double bitt bollards, single bitt bollards, and 36-inch cleats. The allowable line loads for these are listed below:

- 36-inch cleat – allowable line load 30,000 pounds
- Single bitt bollard – allowable line load 50,000 pounds
- Double bitt bollard – allowable line load 50,000 pounds per post

24-Hour Line Tending: Due to the extreme tide range and strong currents in the Cook Inlet, 24-hour mooring line tending is mandatory for all vessels moored at the Port.

5. DOCKAGE

- (a) **DOCKAGE PERIOD – CALCULATION:** Dockage shall commence when a vessel's first line is made fast to a wharf, pier or other facility, or when a vessel is moored to another vessel so berthed and shall continue until such vessel is completely freed from and has vacated the berth. No deductions will be made for Sundays or holidays.
- (b) **BASIS FOR COMPUTING CHARGES:** Dockage charges will be assessed on the length-over-all of the vessel. For dockage billing purposes, length-over-all of the vessel as published in "Lloyd's Register of Shipping" will be used. If no such figure appears in "Lloyd's Register", the Port reserves the right to: (1) obtain the length-over-all from the vessel's register, or (2) measure the vessel.
- (c) **VESSEL DOCKED TO REPAIR, SHORE, OUTFIT OR FUMIGATE:** Full dockage will be charged if and when a vessel is permitted to make repairs or alterations, shore for special freight, outfit, store or fumigate while docked at wharf.
