Subject: Pending AWWU Questions, Assembly Worksession, Outstanding Records Request
Attachments: LTR Fluoride and APD Questions Meeting and Records 011320222_W Dec 12 ltr attach[3].pdf

Dear Municipal Manager Demboski:

Please consider this a formal invitation to Mark Corsentino, General Manager of the Anchorage Water and Wastewater Utility, to participate in an Assembly worksession scheduled at 1 pm on January 21, 2022 to answer outstanding questions relating to the utility's compliance with Anchorage Municipal Code Section 26.40.050. Many questions have been raised while few have been answered. You and Kolby Hickel are also invited to participate and anyone else you determine warrants attendance.

Attached you will find a letter from Assembly leadership regarding 1) pending questions concerning AWWU, 2) the upcoming Assembly worksession and 3) Assembly leadership's outstanding records request regarding allegations related to APD. The document also includes excerpts from the December 16, 2021 Assembly Enterprise and Utility Oversight Committee-of-the-Whole meeting and the letter of December 12, 2021 that Assembly leadership sent to Mr. Corsentino requesting a response to alleged interference with fluoridation of the municipal water supply.

Thank you for your attention to this matter.

Sincerely,

Suzanne LaFrance
