- Suboxone - 5 grams
- Marijuana - 2937 grams
- Currency - $115,516
- Weapons - 17
- Arrest - 9
- Key - 1000 grams = 2.2 pounds
• There was a spike in suspected fentanyl related incidents at ASD during the early spring of the 2022/2023 school year.

• ASD Healthcare Services Director Kathy Bell reported there were four incidents that involved a total of 10 students. The incidents occurred both on and off campus. The APD School Resource Officers unit investigated all of the incidents. There were no criminal charges against those involved and the officers were not given any information about how the substances were obtained.

• Naloxone was administered during several of these incidents.

• Only 1 student was confirmed to have fentanyl in their system. Another incident involved the students using Benadryl (TIKTOK challenge) and the remaining incidents are undetermined.

• ASD made efforts during the school year to educate students, parents and staff. There were no additional incidents following these education efforts.
