

2 CLERK'S OFFICE
APPROVED
Date: 7-21-98

Requested by: Chairman of the Assembly at the
Request of the Mayor
Prepared by: On-Site Wastewater Systems
Technical Review Board
For reading: July 21, 1998

6
7 ANCHORAGE, ALASKA
8 AR NO. 98 - 243
9

10
11 A RESOLUTION OF THE MUNICIPALITY OF ANCHORAGE REGARDING THE
12 IMPLEMENTATION OF THE RECOMMENDATION OF THE ON-SITE WASTEWATER
13 SYSTEMS TECHNICAL REVIEW BOARD TO AMEND THE ANCHORAGE WASTEWATER
14 MASTER PLAN TO INCLUDE SEWER CAPACITY WITHIN THE ANCHORAGE WASTEWATER
15 SERVICE AREA TO ALLOW FOR SERVICE TO THE HILLSIDE WASTEWATER
16 MANAGEMENT PLAN AREA

17
18 WHEREAS, the Hillside Wastewater Management Plan, adopted by Ordinance in 1982,
19 stipulates construction of on-site systems for disposal of wastewater in designated areas within the Plan
20 boundaries; and

21
22 WHEREAS, an increasing number of on-site wastewater disposal systems within the Plan
23 Area are failing primarily due to maturing development and poor soil conditions and the poor soil
24 conditions preclude installation of on-site wastewater systems; and

25
26 WHEREAS, the Anchorage Wastewater Master Plan provides for wastewater collection
27 and disposal outside of the Hillside Wastewater Management Plan Area; and

28
29 WHEREAS, property owners within the Hillside Wastewater Management Plan Area
30 have in the past and will likely in the future successfully petition the Municipality for connection to the
31 Anchorage Wastewater Collection System if, 1) the on-site wastewater system has failed, and 2)
32 corrective work is very difficult due to site restrictions and/or cost prohibitive compared to connecting to
33 the sanitary sewer collection system; and

34
35 WHEREAS, a review of the petition by Anchorage Water and Wastewater Utility
36 Engineering staff to determine the system capacity as a condition of connection to the Anchorage
37 Wastewater Collection System is fragmented and constitutes only a "spot check" of the local sanitary
38 sewer and the entire basin collection trunk sewer system; and

39
40 NOW, THEREFORE, the Anchorage Assembly resolves:

41
42 Section 1. That the Anchorage Water and Wastewater Utility prepare amendments to the
43 Anchorage Wastewater Master Plan to include:

- 44
45 a. A review of the existing and ultimate capacities of the South Anchorage Wastewater
46 Collection System to determine System requirements, including pipe-oversizing, to serve all
47 of the area regardless of wastewater disposal designation in the Hillside Wastewater
48 Management Plan Area; and
49

- 1 b. A requirement that all future sewer collection system construction within the Anchorage
2 Wastewater Master Plan Area which is also planned to serve the Hillside Wastewater
3 Management Plan Area be oversized to convey wastewater from the Hillside Wastewater
4 Master Plan Area.

5
6 PASSED AND APPROVED by the Anchorage Assembly this 21st day of July, 1998.
