ASSEMBLY MEMORANDUM

No. 692-2003

Meeting Date: August 19, 2003

FROM: Mayor

SUBJECT: A Resolution Appropriating Thirty Thousand Dollars (\$30,000) of Revenue from the State of Alaska Department of Military and Veterans Affairs Division of Emergency Services to the State Categorical Grants Fund 231 to the Project Management & Engineering Department for the Preparation of a Draft Community Hazard Mitigation Plan.

The Alaska Department of Military and Veterans Affairs Division of Emergency Services has granted the Municipality of Anchorage \$30,000 to defray preparation costs of a draft Community Hazard Mitigation Plan. The Plan will identify the most significant natural and man-caused hazards to which the community is exposed (such as earthquakes, wildfires, volcanism, windstorms, terrorism), assess the vulnerability of assets and people to the identified hazards, estimate losses due to selected hazard events, and identify and prioritize mitigation actions to reduce vulnerability and losses from future events. The State of Alaska Division of Emergency Services intends to grant additional funds in the fall of 2003 for costs associated with administering a public review process for the draft Plan and for its revision and completion.

The Federal 2002 Disaster Management Act requires Anchorage and other communities to have a hazard mitigation plan in place and kept current in order to be eligible to receive Hazard Mitigation Program grant funds during a federally declared disaster. These funds are significant and may amount to as much as 20 percent of the total disaster response and recovery costs. These funds are to be used to fund mitigation projects identified in a community's hazard mitigation plan. Completion of the Plan means Anchorage will be eligible to receive the hazard mitigation grant funds when a federally declared disaster occurs.
