MUNICIPALITY OF ANCHORAGE ASSEMBLY MEMORANDUM

NO. AM 184–2006

Meeting Date: March 28, 2006

From:

Assemblymember Bauer

Subject:

AO 2006-51 - Naming of Municipal Buildings, Other Fixed Facilities and

Public Places.

A consistent municipal naming policy is important to ensure that public places are easily identified, that their names enhance the heritage of the municipality and are compatible with community desire. A sound naming policy recognizes that naming and renaming should be approached cautiously, with forethought and deliberation. Names should be appropriate and the public should be involved in the process.

In 1987, on the recommendation of an Assembly Committee headed by former Assembly member Jim Kubitz, the assembly adopted an ordinance for naming municipal buildings, other fixed facilities, and public places. The naming policy enacted in 1987 adopted no specific criteria and there have been no subsequent amendments to add standards. AO 2006-51 adds criteria; by way of example, under these amendments, an honorary name shall be limited to a one-time use of an individual's name.

This ordinance adds language to AMC 3.97.010 establishing that one of the purposes of a naming policy is to foster continuity and a sense of neighborhood by recognizing that common usage and natural or geographic attributes shall have considered priority. A definition for a *public place* is added clarifying that buildings, fixed facilities, municipal or park lands, and interior and component spaces integral to the whole are included in the naming and renaming of public places.

Amendments to AMC 3.97.020 prioritize naming policies. One primary policy is to encourage the practice of honoring individual citizens through naming of internal areas, fixtures and features integral to public spaces, as was recently done in the naming The Alden Todd Board Room of the library. As an "All American City," Anchorage is a community of countless generous citizens. The policy will encourage honoring living persons through the naming of interior areas or integral spaces — such as board rooms, atriums, tracks, and fountains.

Criteria are also prioritized: In the naming of a main facility, building or place, consideration must be given to location, function, and natural features. This priority is illustrated in such well-known places as Delaney Parkstrip (historic person, geographic and natural feature); 4th Avenue Theater (location, function, historic building name), and Baxter Bog Park (geographic/geological feature). With specific naming criteria, all of our public places will not, over time, become designated memorials to the deceased, and the historic and geographical names that give a sense of place to our communities will be retained.

Prepared by:

 Attached is an inventory of some of the city's favorite parks. In time, many of these could bear another name under current policy and practice, without the benefit of sound policy considerations and established criteria. Just since November of 2005, three parks and a park facility have officially lost their familiar names – Birch Park, Conifer Park, Gladys Wood Park, and Russian Jack Springs Chalet.

In AMC 3.97.030, the Public Facilities Advisory Commission will replace the five-member naming panel which must now be put together on a case-by-case basis. Upon an assembly or mayoral proposal to specifically name a public place or seek a name, the commission will solicit other potential names from the community and prioritize selection, before making a recommendation. The intent of this change is to broaden and standardize the public process, and to ensure that appropriate names for public buildings and spaces are chosen in the larger context of other important contributors to the community.

This ordinance also repeals sections 3.97.040 and 3.97.050, as they contained very brief general statements, and much more specific criteria are now incorporated into section 3.97.025.

Streets and roads continue to be exempt from this chapter, except insofar as any proposal for an honorary re-naming of a street or road shall meet the general criteria for honorary renaming.

The policy objectives set out in AMC 3.97.020 retain the Office of Economic & Community Development's plan to allow for the sale of naming rights through issuance of an RFP or an ITB, as approved by the Assembly in AO 2005-114, per AM 604-2005.
