## ASSEMBLY MEMORANDUM

No. AM 134-206

Meeting Date: February 28, 2006

**FROM:** Mayor

**SUBJECT:** Resolution to Accept and Appropriate Grant Funds from the Alaska Department of Fish and Game Southeast Sustainable Salmon Fund to the Project Management & Engineering Department within the State Categorical Grant Fund (231) for the Water Quality Monitoring and Education Project.

As partners with the Anchorage Waterways Council and the citizens of Anchorage, the Alaska Department of Fish and Game has granted the Municipality \$42,530 to support water quality education and monitoring to maintain the health of Anchorage creeks for salmon restoration.

The Stream Team program maintains fifteen monitoring sites located on Ship, Chester, Campbell and Little Campbell Creeks in Anchorage. Water quality education and monitoring are crucial to providing a healthy habitat for salmon, salmonid and macroinvertebrates.

This grant will provide 60% of the proposed contractual expense for monitoring stations that are located on creeks eligible for salmon restoration support, and for personnel costs for direct services provided by the Project Management & Engineering Department's Watershed Management Division. The Watershed Management Division is providing the necessary match to cover indirect costs not allowed under the grant agreement for Central Services costs.

The accounting detail is as follows:
