
Planning Department

Anchorage: Performance. Value. Results.

Mission Statement

The Planning Department's mission is to guide Anchorage land use development and community resources to meet the quality of life, economic, social, environmental, and physical needs of present and future residents.

Description

The Planning Department provides professional, technical, and analytical expertise to help the community identify and implement goals, policies, and objectives that shape growth and future development within the Municipality of Anchorage. Through this work, the Department plays a central role in creating a livable and resilient northern community. It ensures development complies with Anchorage's zoning and subdivision regulations and prepares comprehensive, long-range land use plans that reflect community aspirations, economic opportunities, and environmental characteristics.

Deemed an essential municipal service, the Department supports Anchorage's economic vitality and quality of life by facilitating residential and commercial development through timely land use entitlements and consistent interpretation and application of adopted plans and codes. These efforts promote responsible growth and maintain public confidence in the planning process.

Measure WC: Managing Workers' Compensation Claims

Reducing job-related injuries is a priority for the Administration by ensuring safe work conditions and safe practices. By instilling safe work practices, we ensure not only the safety of our employees but reduce the potential for injuries and property damage to the public. The Municipality is self-insured and every injury poses a financial burden on the public and the injured worker's family. It just makes good sense to WORK SAFE.

Results are tracked by monitoring monthly reports issued by the Risk Management Division.
