

PROPERTY ACCESS AGREEMENT

between

MUNICIPALITY OF ANCHORAGE ("MUNICIPALITY")

and

[FIRST & LAST NAME] ("PROPERTY OWNER")

BACKGROUND

MUNICIPALITY OF ANCHORAGE ("MUNICIPALITY") has retained a team of contractors (led by Stantec Consulting Services Inc. and collectively referred to as the "CONSULTANT") to conduct Environmental Site Assessments (ESAs), site cleanup/reuse planning, and related activities on sites approved by the U.S. Environmental Protection Agency (EPA) for the Brownfields Assessment Grant project.

If Phase I ESA activities are warranted and requested by the PROPERTY OWNER, property access is required for the CONSULTANT to visually inspect existing conditions and identify if recognized environmental conditions (RECs) are present (as defined by ASTM E 1527-13). Upon completion of a Phase I ESA, the PROPERTY OWNER will be provided a copy of the *Phase I ESA Report* summarizing RECs (if present) and, if necessary, recommendations for supplemental assessment activities (such as a Phase II ESA). If supplemental assessment activities are warranted and requested by the PROPERTY OWNER, additional property access is required for the CONSULTANT to collect environmental samples (i.e. soil, groundwater, soil vapor, and/or air) and/or samples of hazardous building materials to verify the presence, nature and extent of environmental impacts at the property. Prior to conducting Phase II ESA activities, the CONSULTANT will prepare a site-specific Sampling and Analysis Plan (SAP) for review by the MUNICIPALITY, PROPERTY OWNER and EPA. Upon completion of the Phase II ESA, the PROPERTY OWNER will be provided a copy of the *Phase II ESA Report*.

REQUEST

[FIRST & LAST NAME] ("PROPERTY OWNER"), hereby grants the CONSULTANT permission to enter upon the location(s) identified below (collectively referred to as the "site" or "property") to conduct Phase I and/or II ESA and/or cleanup/reuse planning activities (collectively referred to as the "WORK").
