STATEMENT OF SIGNIFICANCE

Please describe why a resource is significant and the time period the resource is significant to. Significance is determined by identifying the resource's association to, or with: Important events or persons, design or construction features, or other information that makes the case for why the resource is important. Begin by identifying the type of landmark the resource is, and the criteria under which the resource is eligible for nomination. (See the *Director's Guidance for an example Statement of Significance.*)

Public Review Draft 6-15-2020

ASSESSMENT OF INTEGRITY

Please describe the integrity of the landmark resource. Integrity must always be grounded in an understanding of a resource's physical features and how those features relate to the significance of the resource. A landmark will not qualify for the register without retaining sufficient integrity. The seven aspects of integrity are location, design, setting, materials, workmanship, feeling, and association. A landmark does not need to retain all seven aspects of integrity, but they must retain a majority of the aspects of integrity. Your assessment should fully explain how the landmark retains its integrity. (See *Director's Guidance for sample Assessment of Integrity.*)
