SELECTED ECONOMIC CHARACTERISTICS

2010 American Community Survey 1-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, for 2010, the 2010 Census provides the official counts of the population and housing units for the nation, states, counties, cities and towns.

Subject	Alas ka			
	Estimate	Estimate Margin of Error	Percent	Percent Margin of Error
EMPLOYMENT STATUS				
Population 16 years and over	546,981	+/-1,582	546,981	(X)
In labor force	391,864	+/-5,049	71.6%	+/-0.9
Civilian labor force	373,703	+/-5,089	68.3%	+/-0.9
Employed	337,683	+/-5,648	61.7%	+/-1.0
Unemployed	36,020	+/-2,726	6.6%	+/-0.5
Armed Forces	18,161	+/-1,899	3.3%	+/-0.3
Not in labor force	155,117	+/-4,970	28.4%	+/-0.9
Civilian labor force	373,703	+/-5,089	373,703	(X)
Percent Unemployed	(X)	(X)	9.6%	+/-0.7
Females 16 years and over	262,474	+/-1,206	262,474	(X)
In labor force	172,202	+/-3,799	65.6%	+/-1.4
Civilian labor force	170,655	+/-3,774	65.0%	+/-1.4
Employed	156,353	+/-4,071	59.6%	+/-1.5
Own children under 6 years	62,130	+/-1,928	62,130	(X)
All parents in family in labor force	36,413	+/-2,611	58.6%	+/-3.8
Own children 6 to 17 years	117,222	+/-2,227	117,222	(X)
All parents in family in labor force	84,134	+/-4,328	71.8%	+/-3.2
COMMUTING TO WORK				
Workers 16 years and over	343,424	+/-5,810	343,424	(X)
Car, truck, or van -- drove alone	230,116	+/-5,965	67.0%	+/-1.4
Car, truck, or van -- carpooled	45,376	+/-4,438	13.2%	+/-1.3
Public transportation (excluding taxicab)	4,034	+/-1,011	1.2%	+/-0.3
Walked	27,069	+/-2,322	7.9%	+/-0.7
Other means	18,024	+/-1,897	5.2%	+/-0.5
Worked at home	18,805	+/-3,141	5.5%	+/-0.9
Mean travel time to work (minutes)	18.8	+/-0.6	(X)	(X)
OCCUPATION				
Civilian employed population 16 years and over	337,683	+/-5,648	337,683	(X)
Management, business, science, and arts occupations	118,437	+/-4,662	35.1%	+/-1.3
Service occupations	60,506	+/-4,081	17.9%	+/-1.2
Sales and office occupations	78,109	+/-4,306	23.1%	+/-1.1
Natural resources, construction, and maintenance occupations	39,854	+/-3,356	11.8%	+/-1.0

Subject	Alaska			
	Estimate	Estimate Margin of Error	Percent	Percent Margin of Error
Production, transportation, and material moving occupations	40,777	+/-2,702	12.1%	+/-0.8
INDUSTRY				
Civilian employed population 16 years and over	337,683	+/-5,648	337,683	(X)
Agriculture, forestry, fishing and hunting, and mining	17,519	+/-2,359	5.2%	+/-0.7
Construction	24,162	+/-3,019	7.2%	+/-0.9
Manufacturing	15,169	+/-2,333	4.5%	+/-0.7
Wholesale trade	7,105	+/-2,338	2.1%	+/-0.7
Retail trade	36,856	+/-3,141	10.9%	+/-0.9
Transportation and warehousing, and utilities	25,614	+/-2,843	7.6%	+/-0.8
Information	6,404	+/-1,393	1.9%	+/-0.4
Finance and insurance, and real estate and rental and leasing	12,977	+/-2,220	3.8%	+/-0.6
Professional, scientific, and management, and administrative and waste management services	24,732	+/-2,439	7.3%	+/-0.7
Educational services, and health care and social assistance	78,618	+/-4,026	23.3%	+/-1.1
Arts, entertainment, and recreation, and accommodation and food services	30,483	+/-2,905	9.0%	+/-0.8
Other services, except public administration	13,104	+/-2,107	3.9%	+/-0.6
Public administration	44,940	+/-3,588	13.3%	+/-1.1
CLASS OF WORKER				
Civilian employed population 16 years and over	337,683	+/-5,648	337,683	(X)
Private wage and salary workers	224,286	+/-6,272	66.4%	+/-1.3
Government workers	92,059	+/-4,521	27.3%	+/-1.3
Self-employed in own not incorporated business	20,227	+/-2,050	6.0%	+/-0.6
workers				
Unpaid family workers	1,111	+/-699	0.3%	+/-0.2
INCOME AND BENEFITS (IN 2010 INFLATION-ADJUSTED DOLLARS)				
Total households	254,610	+/-2,804	254,610	(X)
Less than \$10,000	10,654	+/-1,598	4.2%	+/-0.6
\$10,000 to \$14,999	11,818	+/-1,646	4.6%	+/-0.6
\$15,000 to \$24,999	20,729	+/-2,215	8.1%	+/-0.9
\$25,000 to \$34,999	22,768	+/-1,903	8.9%	+/-0.7
\$35,000 to \$49,999	31,180	+/-2,428	12.2%	+/-0.9
\$50,000 to \$74,999	48,616	+/-3,122	19.1%	+/-1.2
\$75,000 to \$99,999	33,925	+/-3,048	13.3%	+/-1.2
\$100,000 to \$149,999	45,846	+/-3,029	18.0%	+/-1.2
\$150,000 to \$199,999	16,204	+/-2,316	6.4%	+/-0.9
\$200,000 or more	12,870	+/-1,536	5.1%	+/-0.6
Median household income (dollars)	64,576	+/-2,085	(X)	(X)
Mean household income (dollars)	81,290	+/-2,177	(X)	(X)
With earnings	221,611	+/-3,233	87.0%	+/-0.9
Mean earnings (dollars)	77,072	+/-2,017	(X)	(X)
With Social Security	46,274	+/-2,200	18.2%	+/-0.8
Mean Social Security income (dollars)	14,252	+/-547	(X)	(X)
With retirement income	44,302	+/-2,860	17.4%	+/-1.1
Mean retirement income (dollars)	30,784	+/-3,831	(X)	(X)
With Supplemental Security Income	10,780	+/-1,559	4.2%	+/-0.6
Mean Supplemental Security Income (dollars)	8,631	+/-769	(X)	(X)
With cash public assistance income	16,963	+/-1,764	6.7%	+/-0.7
Mean cash public assistance income (dollars)	3,858	+/-419	(X)	(X)
With Food Stamp/SNAP benefits in the past 12 months	26,973	+/-2,080	10.6%	+/-0.8
Families	170,859	+/-4,484	170,859	(X)
Less than \$10,000	5,110	+/-1,233	3.0%	+/-0.7
\$10,000 to \$14,999	4,157	+/-808	2.4%	+/-0.5
\$15,000 to \$24,999	10,763	+/-1,539	6.3%	+/-0.9
\$25,000 to \$34,999	12,602	+/-1,681	7.4%	+/-1.0
\$35,000 to \$49,999	18,190	+/-1,826	10.6%	+/-1.0
\$50,000 to \$74,999	32,339	+/-2,718	18.9%	+/-1.5

Subject	Alaska			
	Estimate	Estimate Margin of Error	Percent	Percent Margin of Error
\$75,000 to \$99,999	25,707	+/-2,461	15.0%	+/-1.5
\$100,000 to \$149,999	36,500	+/-2,804	21.4%	+/-1.5
\$150,000 to \$199,999	13,990	+/-2,118	8.2%	+/-1.2
\$200,000 or more	11,501	+/-1,471	6.7%	+/-0.8
Median family income (dollars)	76,962	+/-2,545	(X)	(X)
Mean family income (dollars)	93,329	+/-2,957	(X)	(X)
Per capita income (dollars)	30,598	+/-770	(X)	(X)
Nonfamily households	83,751	+/-4,087	83,751	(X)
Median nonfamily income (dollars)	40,843	+/-1,825	(X)	(X)
Mean nonfamily income (dollars)	52,590	+/-2,546	(X)	(X)
Median earnings for workers (dollars)	32,140	+/-769	(X)	(X)
Median earnings for male full-time, year-round workers (dollars)	56,643	+/-1,642	(X)	(X)
Median earnings for female full-time, year-round workers (dollars)	42,376	+/-1,554	(X)	(X)
HEALTH INSURANCE COVERAGE				
Civilian noninstitutionalized population	689,249	+/-1,872	689,249	(X)
With health insurance coverage	552,409	+/-7,293	80.1%	+/-1.1
With private health insurance	446,356	+/-9,511	64.8%	+/-1.4
With public coverage	162,955	+/-6,276	23.6%	+/-0.9
No health insurance coverage	136,840	+/-7,333	19.9%	+/-1.1
Civilian noninstitutionalized population under 18 years	187,984	+/-558	187,984	(X)
No health insurance coverage	22,843	+/-3,332	12.2%	+/-1.8
Civilian noninstitutionalized population 18 to 64 years	449,435	+/-2,182	449,435	(X)
In labor force:	353,720	+/-4,983	353,720	(X)
Employed:	320,782	+/-5,226	320,782	(X)
With health insurance coverage	249,779	+/-6,375	77.9%	+/-1.3
With private health insurance	237,104	+/-6,593	73.9%	+/-1.5
With public coverage	25,005	+/-2,414	7.8%	+/-0.7
No health insurance coverage	71,003	+/-4,226	22.1%	+/-1.3
Unemployed:	32,938	+/-2,423	32,938	(X)
With health insurance coverage	16,345	+/-1,832	49.6%	+/-4.6
With private health insurance	10,881	+/-1,528	33.0%	+/-4.1
With public coverage	6,249	+/-1,154	19.0%	+/-3.3
No health insurance coverage	16,593	+/-2,016	50.4%	+/-4.6
Not in labor force:	95,715	+/-4,624	95,715	(X)
With health insurance coverage	70,488	+/-4,439	73.6%	+/-2.5
With private health insurance	50,518	+/-3,647	52.8%	+/-2.8
With public coverage	24,402	+/-2,764	25.5%	+/-2.4
No health insurance coverage	25,227	+/-2,532	26.4%	+/-2.5
PERCENTAGE OF FAMILIES AND PEOPLE WHOSE INCOME IN THE PAST 12 MONTHS IS BELOW THE POVERTY LEVEL				
All families	(X)	(X)	7.2%	+/-0.9
With related children under 18 years	(X)	(X)	10.9%	+/-1.3
With related children under 5 years only	(X)	(X)	19.2%	+/-4.0
Married couple families	(X)	(X)	2.8%	+/-0.6
With related children under 18 years	(X)	(X)	4.0%	+/-1.1
With related children under 5 years only	(X)	(X)	6.4%	+/-3.9
Families with female householder, no husband present	(X)	(X)	24.3%	+/-3.2
With related children under 18 years	(X)	(X)	29.0%	+/-4.0
With related children under 5 years only	(X)	(X)	60.6%	+/-10.2
All people	(X)	(X)	9.9%	+/-0.9
Under 18 years	(X)	(X)	12.9%	+/-1.6
Related children under 18 years	(X)	(X)	12.5%	+/-1.6
Related children under 5 years	(X)	(X)	18.8%	+/-2.8
Related children 5 to 17 years	(X)	(X)	9.9%	+/-1.8
18 years and over	(X)	(X)	8.9%	+/-0.8
18 to 64 years	(X)	(X)	9.2%	+/-0.8

Subject	Alaska			
	Estimate	Estimate Margin of Error	Percent	Percent Margin of Error
65 years and over	(X)	(X)	5.7%	+/-2.1
People in families	(X)	(X)	7.6%	+/-0.9
Unrelated individuals 15 years and over	(X)	(X)	18.8%	+/-1.9

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Selected earnings and income data are not available for certain geographic areas due to problems with group quarters data collection and imputation. See the ACS User Notes for details.

There were changes in the edit between 2009 and 2010 regarding Supplemental Security Income (SSI) and Social Security. The changes in the edit loosened restrictions on disability requirements for receipt of SSI resulting in an increase in the total number of SSI recipients in the American Community Survey. The changes also loosened restrictions on possible reported monthly amounts in Social Security income resulting in higher Social Security aggregate amounts. These results more closely match administrative counts compiled by the Social Security Administration.

Employment and unemployment estimates may vary from the official labor force data released by the Bureau of Labor Statistics because of differences in survey design and data collection. For guidance on differences in employment and unemployment estimates from different sources go to Labor Force Guidance.

The Census Bureau introduced an improved sequence of labor force questions in the 2008 ACS questionnaire. Accordingly, we recommend using caution when making labor force data comparisons from 2008 or later with data from prior years. For more information on these questions and their evaluation in the 2006 ACS Content Test, see the "Evaluation Report Covering Employment Status" at [http://www.census.gov/acs/www/Downloads/methodology/content\\_test/P6a\\_Employment\\_Status.pdf](http://www.census.gov/acs/www/Downloads/methodology/content_test/P6a_Employment_Status.pdf), and the "Evaluation Report Covering Weeks Worked" at [http://www.census.gov/acs/www/Downloads/methodology/content\\_test/P6b\\_Weeks\\_Worked\\_Final\\_Report.pdf](http://www.census.gov/acs/www/Downloads/methodology/content_test/P6b_Weeks_Worked_Final_Report.pdf). Additional information can also be found at <http://www.census.gov/hhes/www/laborfor/laborforce.html>.

Workers include members of the Armed Forces and civilians who were at work last week.

Industry codes are 4-digit codes and are based on the North American Industry Classification System 2007. The Industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U.S. Statistical Agencies," issued by the Office of Management and Budget.

Occupation codes are 4-digit codes and are based on Standard Occupational Classification 2010.

The health insurance coverage category names were modified in 2010. See ACS Health Insurance Definitions for a list of the insurance type definitions.

This table contains new estimates for health insurance coverage status by employment status in 2010.

While the 2010 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2010 American Community Survey

#### Explanation of Symbols:

1. An "\*\*\*" entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An "!" entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An "!" following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An "!" following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An "\*\*\*\*" entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An "\*\*\*\*\*" entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An "N" entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An "(X)" means that the estimate is not applicable or not available.

Subject	Alaska			
	Estimate	Estimate Margin of Error	Percent	Percent Margin of Error
Less than 15.0 percent	10,460	+/-1,459	13.0%	+/-1.7
15.0 to 19.9 percent	11,386	+/-1,914	14.2%	+/-2.4
20.0 to 24.9 percent	10,442	+/-1,727	13.0%	+/-2.0
25.0 to 29.9 percent	9,814	+/-1,678	12.2%	+/-2.0
30.0 to 34.9 percent	7,465	+/-1,554	9.3%	+/-1.9
35.0 percent or more	30,665	+/-2,962	38.2%	+/-3.4
Not computed	11,593	+/-1,654	(X)	(X)

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

The median gross rent excludes no cash renters.

In prior years, the universe included all owner-occupied units with a mortgage. It is now restricted to include only those units where SMOCAPI is computed, that is, SMOCAPI and household income are valid values.

In prior years, the universe included all owner-occupied units without a mortgage. It is now restricted to include only those units where SMOCAPI is computed, that is, SMOCAPI and household income are valid values.

In prior years, the universe included all renter-occupied units. It is now restricted to include only those units where GRAPPI is computed, that is, gross rent and household income are valid values.

The 2009 and 2010 plumbing data for Puerto Rico will not be shown. Research indicates that the questions on plumbing facilities that were introduced in 2008 in the stateside American Community Survey and the 2008 Puerto Rico Community Survey may not have been appropriate for Puerto Rico.

While the 2010 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

#### Explanation of Symbols:

1. An '\*\*\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An 'L' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An 'L' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An 'U' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Renter-occupied housing units	95,293	36.9
Population in renter-occupied housing units	235,441	( X )
Average household size of renter-occupied units	2.47	( X )

X Not applicable.

[1] Other Asian alone, or two or more Asian categories.

[2] Other Pacific Islander alone, or two or more Native Hawaiian and Other Pacific Islander categories.

[3] One of the four most commonly reported multiple-race combinations nationwide in Census 2000.

[4] In combination with one or more of the other races listed. The six numbers may add to more than the total population, and the six percentages may add to more than 100 percent because individuals may report more than one race.

[5] This category is composed of people whose origins are from the Dominican Republic, Spain, and Spanish-speaking Central or South American countries. It also includes general origin responses such as "Latino" or "Hispanic."

[6] "Spouse" represents spouse of the householder. It does not reflect all spouses in a household. Responses of "same-sex spouse" were edited during processing to "unmarried partner."

[7] "Family households" consist of a householder and one or more other people related to the householder by birth, marriage, or adoption. They do not include same-sex married couples even if the marriage was performed in a state issuing marriage certificates for same-sex couples. Same-sex couple households are included in the family households category if there is at least one additional person related to the householder by birth or adoption. Same-sex couple households with no relatives of the householder present are tabulated in nonfamily households. "Nonfamily households" consist of people living alone and households which do not have any members related to the householder.

[8] The homeowner vacancy rate is the proportion of the homeowner inventory that is vacant "for sale." It is computed by dividing the total number of vacant units "for sale only" by the sum of owner-occupied units, vacant units that are "for sale only," and vacant units that have been sold but not yet occupied; and then multiplying by 100.

[9] The rental vacancy rate is the proportion of the rental inventory that is vacant "for rent." It is computed by dividing the total number of vacant units "for rent" by the sum of the renter-occupied units, vacant units that are "for rent," and vacant units that have been rented but not yet occupied; and then multiplying by 100.

## SELECTED SOCIAL CHARACTERISTICS IN THE UNITED STATES

2010 American Community Survey 1-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, for 2010, the 2010 Census provides the official counts of the population and housing units for the nation, states, counties, cities and towns.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Starting in 2008, the Scotch-Irish category does not include Irish-Scotch. People who reported Irish-Scotch ancestry are classified under "Other groups," whereas in 2007 and earlier they were classified as Scotch-Irish.

Ancestry listed in this table refers to the total number of people who responded with a particular ancestry; for example, the estimate given for Russian represents the number of people who listed Russian as either their first or second ancestry. This table lists only the largest ancestry groups; see the Detailed Tables for more categories. Race and Hispanic origin groups are not included in this table because official data for those groups come from the Race and Hispanic origin questions rather than the ancestry question (see Demographic Table).

Data for year of entry of the native population reflect the year of entry into the U.S. by people who were born in Puerto Rico, U.S. Island Areas or born outside the U.S. to a U.S. citizen parent and who subsequently moved to the U.S.

The Census Bureau introduced a new set of disability questions in the 2008 ACS questionnaire. Accordingly, comparisons of disability data from 2008 or later with data from prior years are not recommended. For more information on these questions and their evaluation in the 2006 ACS Content Test, see the Evaluation Report Covering Disability.

While the 2010 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2010 American Community Survey

#### Explanation of Symbols:

1. An '\*\*\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An 'L' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An 'L' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An 'U' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '\*\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

6. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

SELECTED ECONOMIC CHARACTERISTICS

2010 American Community Survey 1-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, for 2010, the 2010 Census provides the official counts of the population and housing units for the nation, states, counties, cities and towns.

Under 18 years	(X)	(X)	12.3%	+/-2.4
Related children under 18 years	(X)	(X)	11.7%	+/-2.4
Related children under 5 years	(X)	(X)	18.4%	+/-4.1
Related children 5 to 17 years	(X)	(X)	9.0%	+/-2.7
18 years and over	(X)	(X)	8.4%	+/-1.2
18 to 64 years	(X)	(X)	8.6%	+/-1.2

Subject	Anchorage, AK Metro Area			
	Estimate	Estimate Margin of Error	Percent	Percent Margin of Error
65 years and over	(X)	(X)	6.2%	+/-3.6
People in families	(X)	(X)	7.0%	+/-1.3
Unrelated individuals 15 years and over	(X)	(X)	19.4%	+/-2.9

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Selected earnings and income data are not available for certain geographic areas due to problems with group quarters data collection and imputation. See the ACS User Notes for details.

There were changes in the edit between 2009 and 2010 regarding Supplemental Security Income (SSI) and Social Security. The changes in the edit loosened restrictions on disability requirements for receipt of SSI resulting in an increase in the total number of SSI recipients in the American Community Survey. The changes also loosened restrictions on possible reported monthly amounts in Social Security income resulting in higher Social Security aggregate amounts. These results more closely match administrative counts compiled by the Social Security Administration.

Employment and unemployment estimates may vary from the official labor force data released by the Bureau of Labor Statistics because of differences in survey design and data collection. For guidance on differences in employment and unemployment estimates from different sources go to Labor Force Guidance.

The Census Bureau introduced an improved sequence of labor force questions in the 2008 ACS questionnaire. Accordingly, we recommend using caution when making labor force data comparisons from 2008 or later with data from prior years. For more information on these questions and their evaluation in the 2006 ACS Content Test, see the "Evaluation Report Covering Employment Status" at [http://www.census.gov/acs/www/Downloads/methodology/content\\_test/P6a\\_Employment\\_Status.pdf](http://www.census.gov/acs/www/Downloads/methodology/content_test/P6a_Employment_Status.pdf), and the "Evaluation Report Covering Weeks Worked" at [http://www.census.gov/acs/www/Downloads/methodology/content\\_test/P6b\\_Weeks\\_Worked\\_Final\\_Report.pdf](http://www.census.gov/acs/www/Downloads/methodology/content_test/P6b_Weeks_Worked_Final_Report.pdf). Additional information can also be found at <http://www.census.gov/hhes/www/laborfor/laborforce.html>.

Workers include members of the Armed Forces and civilians who were at work last week.

Industry codes are 4-digit codes and are based on the North American Industry Classification System 2007. The Industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U.S. Statistical Agencies," issued by the Office of Management and Budget.

Occupation codes are 4-digit codes and are based on Standard Occupational Classification 2010.

The health insurance coverage category names were modified in 2010. See ACS Health Insurance Definitions for a list of the insurance type definitions.

This table contains new estimates for health insurance coverage status by employment status in 2010.

While the 2010 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2010 American Community Survey

#### Explanation of Symbols:

1. An '\*\*\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '\*\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

SELECTED HOUSING CHARACTERISTICS

2010 American Community Survey 1-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, for 2010, the 2010 Census provides the official counts of the population and housing units for the nation, states, counties, cities and towns.

Subject	Anchorage, AK Metro Area			
	Estimate	Estimate Margin of Error	Percent	Percent Margin of Error

No rent paid	3,719	+/-1,085	(X)	(X)
GROSS RENT AS A PERCENTAGE OF HOUSEHOLD INCOME (GRAPI)				
Occupied units paying rent (excluding units where GRAPI cannot be computed)	43,170	+/-2,544	43,170	(X)

Subject	Anchorage, AK Metro Area			
	Estimate	Estimate Margin of Error	Percent	Percent Margin of Error
Less than 15.0 percent	4,949	+/-1,155	11.5%	+/-2.5
15.0 to 19.9 percent	5,770	+/-1,277	13.4%	+/-2.9
20.0 to 24.9 percent	5,427	+/-1,220	12.6%	+/-2.8
25.0 to 29.9 percent	5,661	+/-1,467	13.1%	+/-3.4
30.0 to 34.9 percent	3,804	+/-1,164	8.8%	+/-2.6
35.0 percent or more	17,559	+/-2,210	40.7%	+/-4.5
Not computed	3,894	+/-1,055	(X)	(X)

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

The median gross rent excludes no cash renters.

In prior years, the universe included all owner-occupied units with a mortgage. It is now restricted to include only those units where SMOCAP1 is computed, that is, SMOC and household income are valid values.

In prior years, the universe included all owner-occupied units without a mortgage. It is now restricted to include only those units where SMOCAP1 is computed, that is, SMOC and household income are valid values.

In prior years, the universe included all renter-occupied units. It is now restricted to include only those units where GRAP1 is computed, that is, gross rent and household income are valid values.

The 2009 and 2010 plumbing data for Puerto Rico will not be shown. Research indicates that the questions on plumbing facilities that were introduced in 2008 in the stateside American Community Survey and the 2008 Puerto Rico Community Survey may not have been appropriate for Puerto Rico.

While the 2010 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

#### Explanation of Symbols:

1. An '\*\*\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An 'L' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An 'L' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An 'U' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Population in renter-occupied housing units	126,859	( X )
Average household size of renter-occupied units	2.50	( X )

X Not applicable.

[1] Other Asian alone, or two or more Asian categories.

[2] Other Pacific Islander alone, or two or more Native Hawaiian and Other Pacific Islander categories.

[3] One of the four most commonly reported multiple-race combinations nationwide in Census 2000.

[4] In combination with one or more of the other races listed. The six numbers may add to more than the total population, and the six percentages may add to more than 100 percent because individuals may report more than one race.

[5] This category is composed of people whose origins are from the Dominican Republic, Spain, and Spanish-speaking Central or South American countries. It also includes general origin responses such as "Latino" or "Hispanic."

[6] "Spouse" represents spouse of the householder. It does not reflect all spouses in a household. Responses of "same-sex spouse" were edited during processing to "unmarried partner."

[7] "Family households" consist of a householder and one or more other people related to the householder by birth, marriage, or adoption. They do not include same-sex married couples even if the marriage was performed in a state issuing marriage certificates for same-sex couples. Same-sex couple households are included in the family households category if there is at least one additional person related to the householder by birth or adoption. Same-sex couple households with no relatives of the householder present are tabulated in nonfamily households. "Nonfamily households" consist of people living alone and households which do not have any members related to the householder.

[8] The homeowner vacancy rate is the proportion of the homeowner inventory that is vacant "for sale." It is computed by dividing the total number of vacant units "for sale only" by the sum of owner-occupied units, vacant units that are "for sale only," and vacant units that have been sold but not yet occupied; and then multiplying by 100.

[9] The rental vacancy rate is the proportion of the rental inventory that is vacant "for rent." It is computed by dividing the total number of vacant units "for rent" by the sum of the renter-occupied units, vacant units that are "for rent," and vacant units that have been rented but not yet occupied; and then multiplying by 100.

	Estimate	Estimate Margin of Error	Percent	Percent Margin of Error
Same county	39,147	+/-5,589	10.4%	+/-1.5
Different county	32,492	+/-3,899	8.6%	+/-1.0
Same state	10,626	+/-2,446	2.8%	+/-0.6
Different state	21,866	+/-3,084	5.8%	+/-0.8
Abroad	3,908	+/-1,382	1.0%	+/-0.4
PLACE OF BIRTH				
Total population	382,964	*****	382,964	(X)
Native	352,762	+/-2,907	92.1%	+/-0.8
Born in United States	343,266	+/-2,982	89.6%	+/-0.8
State of residence	130,684	+/-5,800	34.1%	+/-1.5
Different state	212,582	+/-6,446	55.5%	+/-1.7
Born in Puerto Rico, U.S. Island areas, or born abroad to American parent(s)	9,496	+/-1,681	2.5%	+/-0.4
Foreign born	30,202	+/-2,907	7.9%	+/-0.8
U.S. CITIZENSHIP STATUS				
Foreign-born population	30,202	+/-2,907	30,202	(X)
Naturalized U.S. citizen	15,629	+/-2,013	51.7%	+/-6.0
Not a U.S. citizen	14,573	+/-2,586	48.3%	+/-6.0
YEAR OF ENTRY				
Population born outside the United States	39,698	+/-2,982	39,698	(X)
Native	9,496	+/-1,681	9,496	(X)
Entered 2000 or later	3,409	+/-1,140	35.9%	+/-10.9
Entered before 2000	6,087	+/-1,551	64.1%	+/-10.9
Foreign born	30,202	+/-2,907	30,202	(X)
Entered 2000 or later	9,970	+/-2,386	33.0%	+/-6.4
Entered before 2000	20,232	+/-2,239	67.0%	+/-6.4
WORLD REGION OF BIRTH OF FOREIGN BORN				
Foreign-born population, excluding population born at sea	N	N	N	(X)
Europe	N	N	N	N
Asia	N	N	N	N
Africa	N	N	N	N
Oceania	N	N	N	N
Latin America	N	N	N	N
Northern America	N	N	N	N
LANGUAGE SPOKEN AT HOME				
Population 5 years and over	353,835	+/-759	353,835	(X)
English only	301,203	+/-3,618	85.1%	+/-1.0
Language other than English	52,632	+/-3,567	14.9%	+/-1.0
Speak English less than "very well"	18,715	+/-2,685	5.3%	+/-0.8
Spanish	11,748	+/-2,068	3.3%	+/-0.6
Speak English less than "very well"	3,580	+/-1,251	1.0%	+/-0.4
Other Indo-European languages	9,895	+/-1,836	2.8%	+/-0.5
Speak English less than "very well"	2,360	+/-958	0.7%	+/-0.3
Asian and Pacific Islander languages	25,586	+/-2,693	7.2%	+/-0.8
Speak English less than "very well"	11,264	+/-2,057	3.2%	+/-0.6
Other languages	5,403	+/-1,495	1.5%	+/-0.4
Speak English less than "very well"	1,511	+/-795	0.4%	+/-0.2
ANCESTRY				
Total population	382,964	*****	382,964	(X)
American	17,963	+/-3,853	4.7%	+/-1.0
Arab	930	+/-624	0.2%	+/-0.2
Czech	3,163	+/-1,749	0.8%	+/-0.5
Danish	2,468	+/-965	0.6%	+/-0.3
Dutch	8,592	+/-1,583	2.2%	+/-0.4
English	35,344	+/-4,712	9.2%	+/-1.2
French (except Basque)	17,184	+/-2,838	4.5%	+/-0.7
French Canadian	5,966	+/-1,784	1.6%	+/-0.5
German	72,651	+/-6,270	19.0%	+/-1.6
Greek	809	+/-503	0.2%	+/-0.1

Subject	Anchorage, AK Metro Area			
	Estimate	Estimate Margin of Error	Percent	Percent Margin of Error
Hungarian	948	+/-501	0.2%	+/-0.1
Irish	45,329	+/-4,326	11.8%	+/-1.1
Italian	11,446	+/-2,335	3.0%	+/-0.6
Lithuanian	1,007	+/-632	0.3%	+/-0.2
Norwegian	15,762	+/-2,902	4.1%	+/-0.8
Polish	10,719	+/-2,413	2.8%	+/-0.6
Portuguese	1,249	+/-703	0.3%	+/-0.2
Russian	4,701	+/-1,497	1.2%	+/-0.4
Scotch-Irish	4,540	+/-1,163	1.2%	+/-0.3
Scottish	13,033	+/-3,012	3.4%	+/-0.8
Slovak	536	+/-408	0.1%	+/-0.1
Subsaharan African	2,349	+/-1,188	0.6%	+/-0.3
Swedish	9,343	+/-2,111	2.4%	+/-0.6
Swiss	2,629	+/-1,360	0.7%	+/-0.4
Ukrainian	1,046	+/-694	0.3%	+/-0.2
Welsh	3,409	+/-1,156	0.9%	+/-0.3
West Indian (excluding Hispanic origin groups)	894	+/-522	0.2%	+/-0.1

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Starting in 2008, the Scotch-Irish category does not include Irish-Scotch. People who reported Irish-Scotch ancestry are classified under "Other groups," whereas in 2007 and earlier they were classified as Scotch-Irish.

Ancestry listed in this table refers to the total number of people who responded with a particular ancestry; for example, the estimate given for Russian represents the number of people who listed Russian as either their first or second ancestry. This table lists only the largest ancestry groups; see the Detailed Tables for more categories. Race and Hispanic origin groups are not included in this table because official data for those groups come from the Race and Hispanic origin questions rather than the ancestry question (see Demographic Table).

Data for year of entry of the native population reflect the year of entry into the U.S. by people who were born in Puerto Rico, U.S. Island Areas or born outside the U.S. to a U.S. citizen parent and who subsequently moved to the U.S.

The Census Bureau introduced a new set of disability questions in the 2008 ACS questionnaire. Accordingly, comparisons of disability data from 2008 or later with data from prior years are not recommended. For more information on these questions and their evaluation in the 2006 ACS Content Test, see the Evaluation Report Covering Disability.

While the 2010 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

#### Explanation of Symbols:

1. An '\*\*\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An 'L' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An 'L' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An 'U' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '\*\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

6. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
