TO WHOM IT MAY CONCERN:

Re: 2026 Opening of Municipality of Anchorage Rights of Way for Construction Work

Following consultation with the Municipal Engineer and consideration of Municipality of Anchorage Geotechnical Lab reports, the Rights of Way (ROW) of the Municipality of Anchorage **will open to normal construction activities requiring excavation within the road prism effective Tuesday, May 26, 2026, at 8:00 a.m.**

**Seasonal Weight Restrictions are still in effect for both AKDOT Central Region and MOA roadways. Please, remember to comply with Municipal and State of Alaska load limits and locate requirements.**

Should you have any questions or need additional information concerning this subject, please contact our Right of Way Permit Office at [MOAROWrequests@muni.org](mailto:MOAROWrequests@muni.org), or 907-343-8240.

Please ensure your ROW permit application information is accurate, complete, concise and your desired construction dates are accurately identified. Any incorrect or missing information or change orders due to incomplete planning requires unnecessary additional resource expenditure and slows down projects.

Best wishes for a safe and successful construction season.

Sincerely,

John W Snelson  
Chief, Code Enforcement  
&  
Right-of-Way Supervisor
