Green Sites & Apps

Use your laptop and phone to go green. This is just a small sampling of the green web sites and apps (all the apps are found in the iTunes app store). App prices range from free to about \$5. These include resources about recycling, transportation and travel, energy use, purchasing, and product use. Web sites for local and state resources are included inside this Guide.

WEB SITES

Ecogeek.org

Explores the symbiosis between nature and technology.

Earth911.org

Searchable recycling locations, articles, and event listings.

GoodGuide.com

Find healthy, green, ethical products according to scientific ratings.

PlanetGreen.com

Find information, videos, articles, quizzes and lists all about sustainable living and working. Visit Planet Green on TV too.

Treehugger.com

Media outlet striving to be a one-stop shop for green news, solutions, and product information.

APPS

Carbon Calc (free)

Compare your footprint with the average carbon footprint in the US, Europe, and the world.

Carbon Tracker (free)

Track your monthly carbon footprint against goals you set.

Car Care

(\$2.99 on sale from \$4.99)

Track gas mileage and maintenance to increase efficiency.

Green Charging (\$.99)

Save money and reduce energy use with this alarm that makes your phone charging more efficient.

Green Gas Saver (free)

Tells you when you're driving too aggressively and wasting gas.

Go Green (free)

Get collectible green tips and save to your green list. Your green status changes as you earn more tips.

GoodGuide (free)

Helps you find safe, healthy, and green products while shopping by rating hundreds of products using bar code scanning.

iGreen (\$.99)

Keep up with the latest green tech, solar, hybrid and other green news.

iRecycle (free)

Earth 911's app identifies your local recycling locations. Read green articles and find events on the run.

MeterRead

(\$.99 on sale from \$2.99)

Record and track home energy use to save money

Twavel (free)

Green your travel by tracking your carbon footprint and network with others about how to reduce your footprint.

Watts Plus (\$1.99)

Computes the approximate electricity cost of running electrical appliances and compares usage scenarios.
