

Curbside Recycling

Curbside recycling is now available to 50,000 households with more on the way. Residents are finding it's an easy way to "do the right thing." If curbside recycling is available in your neighborhood, get on board! All of the "acceptable" materials can be put into one recycling roll cart – no sorting necessary. Collection is every other week at your curb – no driving! Follow these simple rules to help keep curbside recycling going strong.

What can go in the recycling roll cart?

ACCEPTABLE

- Aluminum cans
- Steel cans (tin)
- Plastic PET #1 bottles
- Plastic HDPE #2 jugs
- Mixed paper (including gift wrap)
- Cardboard
- Newspaper
- CLEAN pizza boxes (no grease or cheese)

NOT ACCEPTABLE

- Glass
- Plastic bags*
- Green or food waste
- Scrap metal*
- Electronics*
- Milk/juice cartons
- Paper plates
- Paper cups
- Paper napkins
- Plastic cups or tubs (yogurt etc.)
- Plastic fruit or bakery containers
- Aerosol, paint or fuel cans
- Waxed cardboard

*See page 8 for locations to recycle these materials.

Important Reminder: As more of Anchorage's residential trash service becomes automated, it is even more important to observe the recycling rules listed above. Be sure to leave at least three feet of space around and between your carts so that the collection truck's automated arm has enough room to pick up the carts.

Where is Curbside Recycling available?

Check the map on page 7 to see if your neighborhood is included.

Curbside recycling services are provided by two different residential service providers. Check the map for boundaries. For more information about sign-up for service or when service will be coming to your area, contact your service provider.

Alaska Waste
563-3717
