

MUNICIPALITY OF ANCHORAGE
DEPARTMENT GOAL/PROGRAM STATEMENT
Department: Parks and Recreation

Department Goal

The goal of the Parks and Recreation Department for the 1986-1991 Capital Improvement Program is to raise and protect the water quality of local streams, thereby improving those aspects of community life and neighborhood values which depend on clean and aesthetically appealing surface water, through a program of land acquisition along those streams.

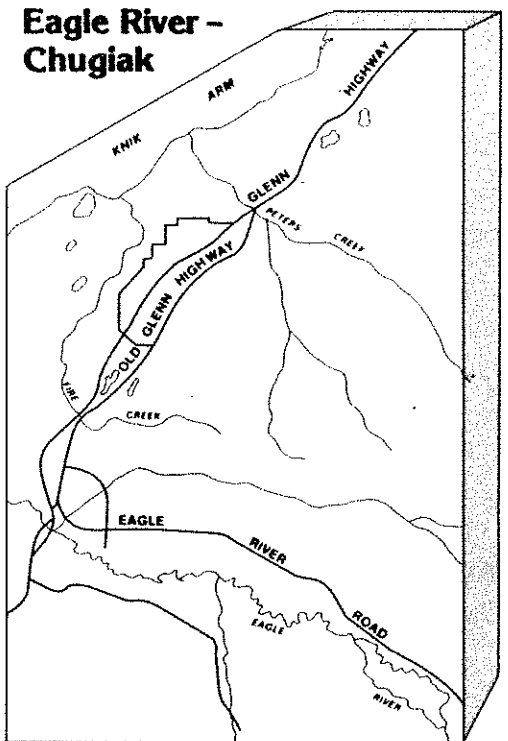

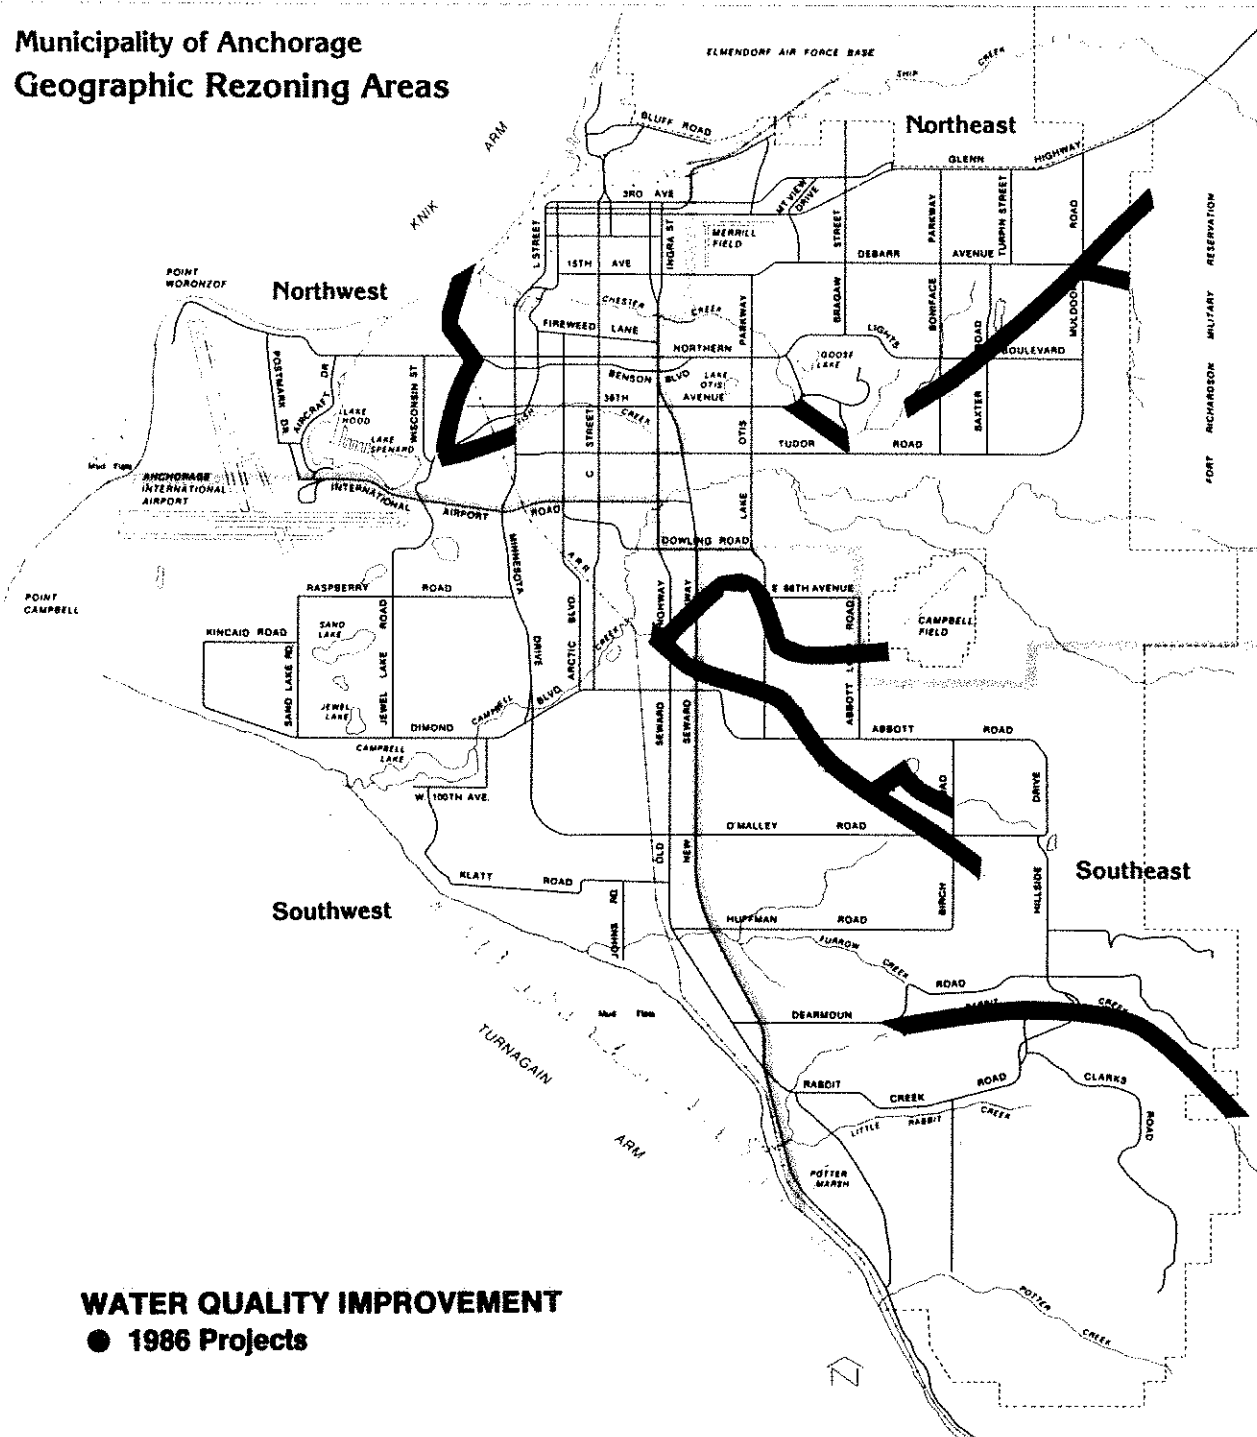

Water Quality Improvements

Acquire land along Rabbit, Fish, Little Campbell and Chester Creeks, as well as others as budget and community priorities direct, sufficient to protect local creeks, creek banks, and the immediate upland area along these creeks from human and domestic animal contamination and encroachment by structures and other "improvements" which would otherwise threaten the water quality.
