

**WATER QUALITY  
IMPROVEMENT  
PROGRAM**

MUNICIPALITY OF ANCHORAGE  
WATER QUALITY IMPROVEMENTS CAPITAL PROGRAM  
Department: Health and Human Services

Department Goal:

Building on staffing and monitoring work initiated in 1985 and 1986 the Department of Health and Human Services will use capital resources of 1987 and beyond to expand water quality preservation and improvement measures. The purposes are to assure clean stream and lake water for recreational use and aquatic life, and safeguard the drinking water aquifers from contamination by pollutants in the shallow ground water table. Three of the projects started in 1986 are designed for the on-going collection and analysis of extensive and community-wide data regarding the quality of surface and shallow ground water. The selection of preventative and corrective capital projects for 1987 and ensuing years will be based on this data.

**1987 CAPITAL IMPROVEMENT BUDGET**

Department Health and Human Services	Project Category Improvement Projects			Fund Code 0401	
PROJECT TITLE AND DESCRIPTION	1987 PROJECT COST <small>S-State O-Other F-Federal B-Bonds</small>	COSTS IN THOUSANDS OF DOLLARS			
		ESTIMATED START DATE	ESTIMATED COMPLETION DATE	O&M COST DEBT SERVICE	COMMUNITY COUNCIL
<p>Correction of Point Source Pollution - Consists of systematic investigation of selected subdivisions which are next to streams and/or lakes. The purpose is to determine if the on-site septic systems in these subdivisions are contaminating the shallow ground water and, in turn, the nearby lakes and/or streams. The project calls for installation of permanent creek monitoring stations and test wells. Study will be ongoing and long term.</p>	B-260	3/87	12/87	0.0 27.5	Areawide (A11)
<p>Water Quality Monitoring Systems - Extend and expand the current water quality monitoring activities so as to establish a comprehensive and municipal-wide baseline ground and surface water monitoring program. This will allow study of current conditions and the establishment of a data base for assessing future developmental impacts.</p>	B-680	3/87	12/87	0.0 71.8	Areawide (A11)

<p>Hazardous Waste Program - The capital costs for construction of a hazardous waste collection center at the new landfill site and a household hazardous waste drop off station at the existing shredder facility as recommended in the Hazardous Waste Management Plan are included in the Solid Waste Utility's capital budget. The operation and maintenance costs included here will expand the current testing of streams, groundwater and sediments to include toxic pollutants. Waste sites will also be investigated to identify potential hazardous pollutants.</p>	0-0	N/A	N/A	183.8 0.0
