PUBLIC TRANSPORTATION DEPARTMENT

Department Goal

The goal of the Public Transportation Department for the 1998-2003 Capital Improvement Budget/Program is to enhance the overall quality of life in our community by providing safe, reliable and efficient transportation in a fiscally and environmentally responsible manner.

The Public Transportation Improvement Budget/Program is based on goals established for future transit service in the Anchorage Metropolitan Area Transportation Study (AMATS) Long Range Transportation Plan, the AMATS Transportation Improvement Plan, the Transit Development Plan, and the Americans with Disabilities Act (ADA) Paratransit Plan.

The current Capital Improvement Budget/Program represents a multi-faceted approach to meeting the department's goal. This approach includes replacements of buses that have exceeded their useful life, expansion of the bus fleet beginning in 2001, paratransit vehicles for those unable to use standard buses, van pooling, improvements to bus stops, construction of neighborhood transit centers, replacement of major vehicle drive train components, and efficiency improvements to buses and computer systems.

BUS STOP SAFETY IMPROVEMENTS This project funds the upgrading of bus stops and pullouts to meet federally mandated Americans with Disabilities Act (ADA) requirements. Improvements are consistent with facility design recommended in the Transit Facilities Design Guidelines. Typical improvements include bus shelters, grading, paving, utility relocations, lighting, curb adjustments, drainage and constructing paths.
