PUBLIC TRANSPORTATION

PUBLIC TRANSPORTATION DEPARTMENT

Department Goal

The goal of the Public Transportation Department for the 2005-2010 Capital Improvement Budget/Program is to enhance the overall quality of life in our community by providing safe, reliable and efficient transportation in a fiscally and environmentally responsible manner.

The Public Transportation Improvement Budget/Program is based on goals established for future transit service in the Anchorage Metropolitan Area Transportation Study (AMATS) Long Range Transportation Plan, the AMATS Transportation Improvement Plan, the Transit Development Plan, and the Americans with Disabilities Act (ADA) Paratransit Plan and a 2002 Route Restructure Plan.

The current Capital Improvement Budget/Program represents a multi-faceted approach to meeting the department's goal. This approach includes:

- paratransit vehicles for those unable to use standard buses,
- van pooling,
- improvements to bus stops,
- construction of neighborhood transit centers,
- replacement of major vehicle drive train components,
- efficiency improvements to buses and computer systems and
- transit fleet replacement and expansion.
