**Fire Engine Replacement**

<b>Project ID</b>	AFD07011	<b>Department</b>	Fire
<b>Project Type</b>	Replacement	<b>Start Date</b>	May 2015
<b>Location</b>	Assembly: Areawide, HD 50: Anchorage Areawide, Community: Anchorage Fire Service Area	<b>End Date</b>	

**Description**

This project is to replace Fire Engine(s) in accordance with AFD's apparatus replacement schedule. The AFD has a replacement schedule that follows national standards for replacement of front line fire apparatus. The Engine Company is the most common apparatus in the fleet and carries a pump, water tank, and fire hose. It responds to all types of emergencies including fires and medical emergencies. Engine Companies typically have a lifespan of 15 years or 150,000 miles. The Municipality is requesting funding to replace three Engine Companies in 2015, and may include tools, equipment and fire hose.

**Fire Ladder Truck Replacement**

**Project ID** AFD07018 **Department** Fire  
**Project Type** Replacement **Start Date** May 2016  
**Location** **End Date**

**Description**

This project is to replace front line ladder truck companies in accordance the AFD's apparatus replacement schedule. The AFD has a replacement schedule that follows national standards for replacement of front line fire apparatus. The truck company carries a ladder, pump and hose. It responds to all types of emergencies including fire and medical emergencies.

**Fire Personal Protective Gear Decontamination**

<b>Project ID</b>	AFD2012010	<b>Department</b>	Fire
<b>Project Type</b>	New	<b>Start Date</b>	May 2015
<b>Location</b>	HD 50: Anchorage Areawide, Community: Areawide	<b>End Date</b>	December 2015

**Description**

Firefighters are required to wash their protective gear after an exposure to hazardous materials to help reduce carcinogen exposure which are often encountered during all types of emergencies. Gear dryers will reduce the chance that firefighters at busy stations would be forced to respond in wet protective gear, reducing the occurrence of steam burns.

**Fire Replacement of Air Resources Equipment**

<b>Project ID</b>	AFD2015001	<b>Department</b>	Fire
<b>Project Type</b>	Upgrade	<b>Start Date</b>	May 2015
<b>Location</b>		<b>End Date</b>	December 2016

**Description**

This project would replace the entire inventory of Self-Contained Breathing Apparatus (SCBAs) for Anchorage Fire Department and replace the air compressors required to support the equipment. The fire department seeks SCBA's that provide reliable in-mask communications and comply with the current national standards. The AFD has \$325,000 that is intended as a match to the State request to fund the project.

**Fire Rescue Boat Refurbishment**

**Project ID** AFD2015002 **Department** Fire  
**Project Type** Rehabilitation **Start Date** May 2015  
**Location** Assembly: Areawide, HD 50: Anchorage **End Date** December 2015  
 Areawide, Community: Areawide

**Description**

This project would be to refurbish the Naiad boat currently owned by AFD. The boat is 21-years old and in need of new engines and an overhaul. This will repower it and bring all components up to current standards. Once completed, the Naiad will be just like a brand new boat at a fraction of the cost. The boat would be shipped to Washington state for the refit at the Naiad factory. Between this refurbished Naiad boat and the new Safe Boat (also SOA legislative funding), the fire department has coverage for the water rescue teams. If this project is not funded through an interest appropriation the fire department is requesting it be submitted as a Legislative Request to the State of Alaska.

**Fire Rescue Struts Replacement**

<b>Project ID</b>	AFD2012007	<b>Department</b>	Fire
<b>Project Type</b>	Replacement	<b>Start Date</b>	April 2015
<b>Location</b>	HD 50: Anchorage Areawide, Community: Areawide	<b>End Date</b>	December 2015

**Description**

The fire department has 6 sets of steel Rescue 42 struts. They are used to stabilize a vehicle that is resting on its side during vehicle extrication. These sets are on front-line apparatus and with the urban search and rescue team. The steel sets are in need of replacement with Kevlar struts. The Kevlar composite struts have many benefits over the steel ones; specifically that composite is ½ the weight with 4 times the strength, and much more resistant to environmental damage.

**Fire Uniform Laundry Equipment Upgrades**

<b>Project ID</b>	AFD2012004	<b>Department</b>	Fire
<b>Project Type</b>	Replacement	<b>Start Date</b>	May 2015
<b>Location</b>	HD 50: Anchorage Areawide, Community: Areawide	<b>End Date</b>	December 2016

**Description**

The purpose of this project is to install washer and dryers at Anchorage fire stations for use washing uniforms and other required clothing. Currently each fire station has a commercial washer and dryer for personal protective equipment though the National Fire Protection Association requires that personal clothing not be washed and dried in these units. This project would entail design, engineering and construction to consist of modifying the structural, electrical, mechanical and plumbing associated with each station for the washer and dryers. The following Fire Stations are in need: 9 (Huffman), 10 (Rabbit Creek), 11 (Eagle River), 14 (Campbell Airstrip), 15 (Southport). If this project is not funded through an interest appropriation the fire department is requesting it be submitted as a Legislative Request to the State of Alaska.

**Fire Vehicle Extrication Equipment**

<b>Project ID</b>	AFD10997	<b>Department</b>	Fire
<b>Project Type</b>	Replacement	<b>Start Date</b>	May 2015
<b>Location</b>	Community: Anchorage Fire Service Area	<b>End Date</b>	December 2015

**Description**

This project would purchase three eDraulic extrication tools to outfit the remaining Ladder Truck companies in AFD with this rescue tool. The tool is similar to the Jaws of Life and would assist in the rapid extrication of victims entrapped in vehicles or collapsed buildings/structures, including fire fighters. This tool is battery powered, increasing its portability and convenience of use. The AFD has purchased these tools in the past three years and has found them to be very reliable and efficient.

**Fire Water Craft Rescue Equipment**

**Project ID** AFD2011003 **Department** Fire  
**Project Type** New **Start Date** May 2015  
**Location** Assembly: Areawide, HD 50: Anchorage **End Date** December 2015  
Areawide, Community: Areawide

**Description**

This project will purchase personal water craft for use in lakes, rivers and shallow water applications. The fire department maintains a Swift Water Rescue team at Fire Station 11, which responds to water rescue calls throughout the Municipality. They have tested an aluminum wave runner. It is capable of running the whole river including the rapids. This in itself makes searching and rescue much more rapid and efficient. The hull is durable enough to beach on gravel. The platform is quite stable; in testing the firefighters were unable to roll it. It is both powerful and maneuverable for swift water applications. We were able to search the river in a third of the time it would take using the department's existing jet boat. It has shallow draft and near impossible to swamp. To date, it is the best water craft for our needs. These are easier to launch, operate and markedly faster than a jet boat. Further, because of the sealed cooling system, these craft are designed to assist in salt water searches and rescues as well as fresh water. Station 11, together with the Chugiak Volunteer Fire Department, have a significant increased capability to respond in those places where large boats are unable to access.

**New Fire Station in the Midtown Area**

<b>Project ID</b>	AFD2013001	<b>Department</b>	Fire
<b>Project Type</b>	New	<b>Start Date</b>	May 2016
<b>Location</b>		<b>End Date</b>	

**Description**

This is for a new fire station in the Midtown area of Anchorage; in the general location of Fireweed and C St. One of the two existing Engine Companies at the downtown fire station would be redeployed at this location. This area is a high call volume area, where the AFD is not able to meet its 4-minute response time goal. The goal is to arrive in 4 minutes 90% of the time, and the current results are between 50% and 60% in this response area. This is a strategic location that will improve our response times. This project is being presented in phases; the first phase was the purchase of the land and this request is to secure funding for the fire station. This station is the fire department's highest priority and is identified as such in the strategic audit prepared by the consulting firm Matrix.
