Description

This would provide for station maintenance and updates that are of substantial cost.

Comments

Old Station #3 has been utilized for warm storage and needs some renovations so it may be converted into useable space. This funding would provide temporary office space for shop staff while the shop is renovated. Would then be utilized for parts storage, office space, and light duty vehicle maintenance. It is cost prohibitive to expand the current shop space. This building would provide much needed relief to the shop.
