1984 Proposed GENERAL GOVERNMENT BUDGET PROFILE Expenditures by Program Area

This chart shows the relative share each program comprises of the total municipal general government budget in 1984. The program areas of Public Works (which includes street maintenance, traffic control, building inspection) and Police comprise the greatest portions, with Fire services being the third largest. These costs are funded through a variety of sources, as depicted on the preceding page.

PROPOSED FEE CHANGES 1984 PROPOSED (REVISED) BUDGET

October 24, 1983

Transportation Inspection

Increase fees to cover 100% of direct costs of providing transportation inspection program

\$ 89,730

Zoning and Platting

Establish new fee schedule for zoning, platting, land use and other miscellaneous fees which will in most instances recover full Municipal cost of processing and reviewing applications

400,000

Parking

Increase the civil penalty for parking violations from \$5.00 to \$7.00. Increase parking rates at Municipal garage and parking lots to bring the fees into parity with lots operated by the private sector. This will eliminate the need for tax support to Parking Fund.

480,540

\$ 970,270

Other fee increases required due to reallocation of revenues from utilities:

Anchorage Wastewater Utility

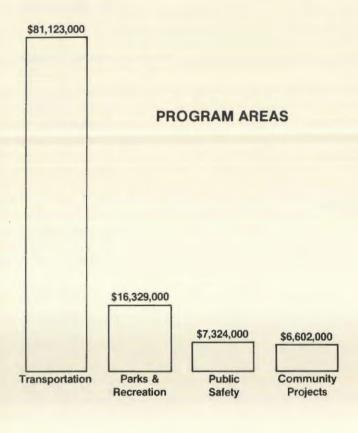

Sewer rates will be increased from the current \$9.55 per month to \$15.36 per month (previous anticipated rate increase was \$9.55 to \$10.71).

Solid Waste Utility

Anchorage service area rates will increase from \$10/ton to \$17.20/ton for landfill charges and from \$11/ton to \$12.50/ton for residential collection.

Eagle River/Chugiak service area will establish a rate of \$1.50/yard.

GENERAL GOVERNMENT Capital Improvement Budget

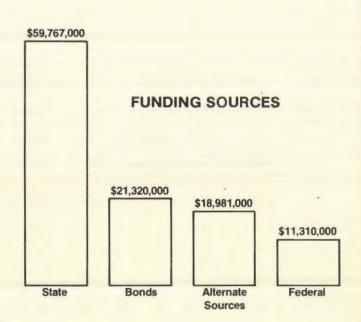

The 1984 Capital Improvement Budget is built around four major program areas. It has been designed to continue to respond to the highest priority needs in each area.

TRANSPORTATION \$81,123,000 Accelerated Road Program Road Improvements Traffic Improvements Transit Maintenance Facility Transit Coaches Parking Garages PUBLIC SAFETY \$ 7,324,000 · Police Headquarters, Phase II Fire & Emergency Medical Vehicles PARKS AND RECREATION \$16,329,000 Parks Acquisition and Development • Trails Coastal Trail COMMUNITY PROJECTS \$ 6,602,000 Library Books Urban Improvements

These high priority needs must be balanced against the total program the Municipality can afford to fund.

The 1984 CIB includes traditional State, Federal, and local bonding funding sources. In addition, alternative funding strategies will be sought to expand our capability to fund needed projects which might otherwise be deferred.

Another factor in determining the affordability of a capital program is the operation and maintenance (O & M) cost impacts of the completed projects. The estimated operation and maintenance costs for the first full year of operation for all 1984 CIB projects is approximately \$2.5 million. This relatively low O & M impact is reflective of the emphasis of the 1984 CIB - the improvement, upgrade and replacement of basic community facilities and assets.
