DEPARTMENT SUMMARY

DEPARTMENT HEALTH AND HUMAN SERVICES

MISSION

To enhance the quality of life for the people of Anchorage by promoting good physical and mental health, preventing illness and injury, protecting the environment and providing helping services to people in need.

MAJOR PROGRAMMING HIGHLIGHTS

- Continue to conduct a comprehensive Air Quality Management Program, incorporating the air quality monitoring and Vehicle Inspection and Maintenance functions.
- Initiate an air quality traffic corridor study to complement the Air Quality Program.
- Continue environmental sanitation and food service inspection services. Coordinate these services with other code enforcement activities.
- Expand the delivery of quality child care services by public and private agencies.
- Enforce the revised wastewater code and continue investigation of on-site wastewater disposal system problems, and implement a major education program concerning the proper operation and maintenance of on-site systems.
- Manage numerous federal and state grant funded programs providing direct assistance to meet basic health and human service needs, including Day Care Assistance, Career Development and Training, and Home Weatherization.
- Implement a community-wide drug education program.
- Implement the goals adopted in the Health and Human Services Plan, as resources allow.
- Develop a plan for coordinating municipal, state, federal and United Way funding to non-profit agencies.

1988 PROGRAM PLAN

DEPARTMENT: HEALTH & HUMAN SERVICES DIVISION: ADMINISTRATION
PROGRAM: Health and Human Services Planning

PURPOSE:

Implement comprehensive health and human services plan, evaluate the consistency of health and human service policy, resource allocations, and programs in relation to this plan, and begin updating information base for use in preparing 1989 comprehensive plan.

1987 PERFORMANCES:

- Collect and organize health and human service delivery system database including detailed analysis of changes in expenditures and revenue sources between FY 1987 and FY 1988.
- Compare health and social problems to existing programs and establish priorities, goals, and objectives (strategies).
- Assembly adopts Anchorage's (first) comprehensive plan as recommended by the Health and Human Services Commission.
- Plan is implemented. Recommendations in the plan are communicated and integrated into resource allocation processes including the Social Services Block Grant, the HHS Department's budget, etc. Resource allocations are evaluated as to their conformance with the plan.
- Review and make recommendations on legislation, budgets, programs, and policies based on conformance with the comprehensive plan.
- Provide staff support to the Health and Human Services Commission.
- Provide a significant citizens' participation program in the development of all plans and policy recommendations.

1988 OBJECTIVES:

- Prepare implementation strategies for policy recommendations/objectives identified in Anchorage's 1987 Comprehensive Health and Human Services Plan and begin initial implementation phase.
- Continue long-range planning process (as mandated by AMC 4.60.060, new plan completed every two years) by updating the information base and re-examining Anchorage's most critical health and social service issues. Provide staff support to the Health and Human Services Commission.
- Provide a significant citizens' participation program in the development of all plans and policy recommendations.
- Review and make policy recommendations on legislation, budgets, programs, and policies and determine their conformance with Anchorage's 1987 Comprehensive Health and Human Services Plan.
- Develop program evaluation (effectiveness) capability and implement evaluations on designated programs.

1988 PROGRAM PLAN

DEPARTMENT: HEALTH & HUMAN SERVICES DIVISION: ENVIRONMENTAL SERVICES
PROGRAM: Environmental Quality

PURPOSE:

Manage the Environmental Services Division, providing staff supervision, administrative support, clerical support, cashiering and other necessary customer services.

1987 PERFORMANCES:

- Expand professional capacity to improve surface and ground water quality.
- Expand capacity to respond to and solve citizen complaints and, thereby, provide improved service.
- Co-locate operating sections of the division to realize benefits of combined administrative and clerical staff.
- Operate a successful Vehicle Inspection and Maintenance program in order to attain National Air Quality Ambient Air Standard for Carbon Monoxide by December 31, 1987.
- Assuming the availability of adequate computer support, complete automation of the Environmental Services Division's various data collection and analysis functions.

1988 OBJECTIVES:

- Finish computerization of environmental data processing, especially for the On-Site Sewer and Water program.
- Improve response time to customer service inquiries, particularly with respect to requests made by phone.
- Increase clerical staff accessibility to word processing.
- Maintain an acceptable response time, with respect to the investigation of nuisance and other complaints, in spite of staff limitations.
- Maintain adequate staff expertise for prompt and accurate response to water emergencies, such as contaminated private wells and failing septic systems.
- Secure additional sources of non-tax revenue to support On-Site and Water Quality programs.
- Compile standards and procedures to assist staff and the public in their efforts to meet the requirements of ordinances for activities associated with the I/M, Sanitation and Water Quality programs.

DEPARTMENT: HEALTH & HUMAN SERVICES DIVISION: ENVIRONMENTAL SERVICES
PROGRAM: Water Quality

PURPOSE:

Protect surface and ground water quality by enforcing existing codes.
Investigate and eliminate sources of pollution. Develop a data base for surface and ground water quality in order to evaluate future trends and impacts.

1987 PERFORMANCES:

- Investigate complaints and pollution sources.
- Perform two areawide bacteriological surveys.
- Measure water levels and collect samples for 35 shallow monitoring wells.
- Initiate expanded surface and groundwater baseline monitoring program, utilizing supplemental funding from 1986 general obligation bonds.
- Conduct weekly bacteria surveys of Fish, Chester, and Campbell Creeks.
- Participate in additional cooperative surface water stream flow and seep studies, in conjunction with ongoing activities conducted by the U. S. G. S.

1988 OBJECTIVES:

- Investigate complaints and pollution sources.
- Conduct municipal-wide surface and groundwater baseline monitoring.
- Oversee the administration of expanded water quality monitoring and enhancement projects funded by voter-approved general obligation bonds.

DEPARTMENT: HEALTH & HUMAN SERVICES DIVISION: ENVIRONMENTAL SERVICES
PROGRAM: On-Site Sewer & Water

PURPOSE:

Enforce the on-site wastewater and well code to assure proper installation and maintenance and to prevent surface and groundwater contamination.

1987 PERFORMANCES:

- Review setback distance waiver requests.
- Review and approve (or deny) requests for on-site sewer and/or water installations (i.e., permits).
- Implement and enforce the revised wastewater code.
- Continue investigation of areas with high water table problems which are adversely affecting the performance of existing on-site septic systems and subsequently result in degradation of the shallow groundwater.
- Assuming the availability of adequate computer support, develop and implement a program to enforce the mandated bi-annual pumping of septic tanks, and automate the on-site wastewater and private well data for easy access and retrieval.
- Monitor the results of several field test sites of innovative wastewater disposal systems.
- Coordinate with the Water Quality program staff in the overall surface and groundwater quality study, protection, and improvement effort.
- Write and issue a public brochure regarding residential septic systems.

1988 OBJECTIVES:

- Review setback distance waiver requests.
- Review & take action on requests for on-site sewer and/or water permits.
- Implement and enforce the revised wastewater code.
- Continue investigation of areas with high water table problems, as they relate to the performance of on-site septic systems, and coordinate these efforts with the Water Quality staff in the study of surface and groundwater conditions throughout the community.
- Prepare and implement a surface and subsurface drainage ordinance.
- Identify and computerize all on-site septic and well files.
- Automate tracking program to enforce bi-annual pumping ordinance and initiate comprehensive information program for septic system owners.
- Monitor results of innovative wastewater system field tests.
- Implement annual "operating permit" and related fee for all single-family on-site septic systems and revise AMC 15.55, Well Water Standards.
- Instruct excavators, pumpers and engineers on wastewater code; and prepare and distribute information to on-site sewer and water users.

PROGRAM: Vehicle Inspection Program

PURPOSE:

To reduce carbon monoxide emissions from vehicles registered and/or operated in Anchorage by conducting an annual inspection and maintenance program.

1987 PERFORMANCES:

- Monitor over 125 active I/M stations, over 450 I/M certified mechanics and over 6000 Referee facility actions.
- Perform quarterly audits of stations and begin the recertification/decertification of all I/M stations and mechanics.
- Investigate any suspected cases of fraud or other program violations.
- Collect data and prepare required local, state, and federal reports.
- Upgrade the data acquisition and reporting system.
- Expand the use of the Referee Facility to include certification testing, computer data tracking and documented vehicle visits.

1988 OBJECTIVES:

- Monitor I/M station and I/M mechanic performance and enforce compliance with applicable municipal code, program rules and regulations.
- Perform federally required quarterly audits of I/M stations and certify and/or decertify stations, mechanics, and analyzers as required.
- Take and resolve motorists complaints and investigate any suspected cases of fraud and/or other program violations.
- Collect and analyze program data and submit required local, state and federal reports.
- Complete the I/M program data acquisition and reporting system to include required upgrades and enhancements.
- Maximize the capabilities and resources of the Referee facility to better the efficiency and increase the quality of service provided by the vehicle inspection program.
- Coordinate with state and federal officials to further compliment efforts to enforce compliance among those individuals who intentionally avoid the requirements of the vehicle inspection program.
