REVENUES

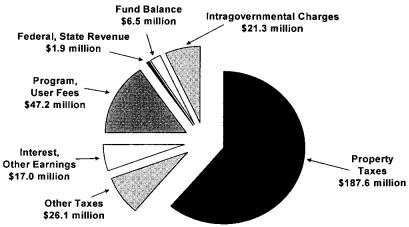

OVERVIEW OF 2004 REVENUES

An early part of developing each year's budget is projecting revenues for the upcoming fiscal year. The revenue projection process starts in the spring. To be as accurate as is possible, a first step is to compare actual revenues collected in the prior year to what was expected.

An important next step is to make a preliminary estimate of the next year's tax cap. This involves updating population, inflation, and property valuation information for the next year. It also requires the Municipal Treasurer to estimate the amount of expected revenue from non-property taxes. Much of this work takes place in late summer and early fall when the Municipality is closer to the start of the next fiscal year.

2004 Revenue Projection

Projected revenues for 2004 total \$307,580,340, which is \$18.4 million higher than the 2003 Revised Budget. Of this amount, \$16.2 million is expected in additional property taxes of which \$1.9 million will come from new construction. The following further discusses specific revenues projected for 2004.

2004 Projected Revenues

Property Taxes: \$187.6 million

The majority of the revenues that support the general government operating budget come from property taxes. For 2004, the preliminary tax limit calculation is that up to \$187.6 million in property taxes could be collected. The 2004 Proposed Budget reflects a \$186.8 million use of property taxes, of which \$39.8 million is for voter-approved debt service. This includes another \$2.1 million approved by voters in April 2002 to operate the new fire stations at Baxter and Southport.

Other Taxes: \$26.1 million

The Municipality collects four taxes that are within the tax limit and the Hotel/Motel Bed Tax that is excluded from the tax limit because it was in effect at enactment of the Tax Cap.

Automobile Registration Tax - \$5.3 million, which is the same amount expected in 2003 Revised Budget. The tax, which is collected by the state at the time Anchorage residents register their vehicle, is based on the class and year of the vehicle.

Tobacco Tax - \$4.9 million, which is \$400,000 below 2003. The tax on cigarettes is 14.5 mills. The tax on tobacco products is 15% of the wholesale price. Both are adjusted annually by the Consumer Price Index.

Aircraft Registration Tax - \$195,000, which is the same as 2003 Revised Budget. The tax is \$75 per year for a single engine aircraft, hot air balloon, and glider. It is \$125 per year for aircraft with two or more engines.

Rental Vehicle Tax - \$4.2 million, which is \$250,000 below 2003. The tax is 8 percent of the total fees and cost charged for the rental of a motor vehicle.

Hotel/Motel Bed Tax - \$11.5 million, which is the same as 2003. It is an eight percent tax on lodging. One-half of this tax's proceeds is used to promote tourism (currently as a contract to the Anchorage Convention and Visitors Bureau). The other half goes into the Municipality's treasury.

Interest, Other Earnings: \$17.0 million

The 2004 projection for these revenues is \$1.4 million less than 2003 Revised Budget, primarily because of the reduction in the MOA Trust Fund contribution.

The "dividend" the Municipality receives from the MOA Trust Fund was created when the Municipality sold its telephone utility. Last year, the Municipality received a \$8.2 million dividend, which goes into the general treasury to help pay for Municipal services. In April 2002 voters approved converting the MOA Trust Fund into an endowment, which changes how the annual dividend will be calculated. By 2004 it will be based on a five-percent payout formula under which the dividend will drop to \$7 million (the good news is that because of the endowment structure, this amount will be sustained over time). As a result, by 2004 the Municipality needs to ratchet down the dividend amount to \$7 million from the current \$8.2 million. For 2004, the proposed budget reflects a dividend amount of \$6.6 million.

The Building Safety Fund (Fund 181) is also providing a one-time contribution to General Government of \$3.0 million.

Other 2004 revenues included in this category range from penalty and interest on delinquent taxes (\$2.6 million) and a Payment in Lieu of Taxes from the Anchorage Parking Authority (\$220,000).

Program-Generated Fees/Fines: \$47.2 million

Program-generated revenues are expected to be about \$10.8 million higher than 2003 Revised Budget. This category of revenue achieves a policy goal of more closely associating cost-causer with cost-payer. These fees and fines range from building and electrical permits (\$5.2 million), library book fines (\$254,420), reimbursement from the State to maintain traffic signals (\$1.3 million), emission certificate fees (\$1.9 million), parking enforcement fines (\$1.1 million), to court fines (\$8.3 million).

Federal/State Revenues: \$1.9 million

In 2003, the Governor of the State of Alaska approved the deletion of the State's Revenue Sharing and Safe Communities programs. The deletion of these programs contributed about \$10 million to the Municipality's fiscal dilemma. Other examples of revenue in this category include Payment in Lieu of Taxes from the State and Federal governments (\$609,540), which compensates the Municipality for non-taxable land located within Anchorage's boundaries. This category does not include grants that are received from the State and Federal governments for specific services (the general government operating budget includes information about each department's grants, but the grant amounts are not reflected in the Municipality's overall operating budget total).

Intragovernmental Charges (IGCs): \$21.3 million

These are charges for services provided by one Municipal organization to another. For example, the Maintenance and Operations Department maintains all general government buildings. Maintenance costs are budgeted in Maintenance and Operations and charged out to the appropriate users. By

using an intragovernmental charge system, the full cost of a program — including overhead — ends up in the budget for the program. This system also allows general government departments/agencies to properly charge Municipal utilities, grants, and capital projects for services provided.

Fund Balance: \$6.5 million

Over the years the Municipality has used tax dollars and other revenue left over at the end of one year to help pay for services in the next year (often referred to as "Applied Fund Balance"). The amount of fund balance available from one year to the next is unpredictable and over the years has ranged from a low of \$1.8 million in 2002 to a high of more than \$20 million in 2000. The proposed 2004 budget applies \$6.5 million to pay for 2004.

REVENUE DISTRIBUTION SUMMARY

NOTE: Program revenues, which are earned by particular budget units, are budgeted in the units which anticipate them in 2004. Allocated revenues, such as state revenue sharing, are allocated to the

appropriate funds on the basis described for each revenue.

	appropriate funds on the basis descr	ibed for each revenue.	Amount Budgeted				
	Description of Revenue/	2004	2001	2002	2003	2004
