Appendix H

Guideline for Budgeting for Vacancies

For FY 2010 OMB adopted a new framework to budget for vacancy savings in department budgets. This is a savings that is taken up front in the budget process and is based on the expectation that not all positions will be filled 100% of the time during the course of a fiscal year.

To budget for savings due to vacancy and turnover, OMB is using the following guidelines:

| # FT Positions | Minimum Vacancy Factor | Maximum Vacancy Factor |
|-------------------|------------------------------|------------------------------|
| 10 or less | 0% | 3% |
| 11 to 20 | 1% | 4% |
| 21 to 30 | 2% | 5% |
| 31 to 50 | 3% | 6% |
| 51 plus | 4% | 7% |

For departments with a large number of seasonal or part-time positions, it may be appropriate to budget a vacancy factor above the maximum since the above percentages are based on full-time position counts only.

Conversely, if a department has experienced very low turnover, it may be appropriate to budget using a percentage less than the minimum.

Once the FY 2011 budget decisions were made, OMB applied a vacancy factor percentage that considered a department's past level of turnover as well as other issues that were likely to influence the turnover rate for the next budget year.

¹ Some services provided by the Municipality must be offered on an "areawide" basis under State law or as provided for in the Municipal Charter. These include services such as health and environmental protection, social services, animal control, library, museum, mass transit, emergency medical services, planning and zoning, property assessment, and tax collection.

^{*} Property taxes for Old City Road Service, Limited Road Service Areas and Street Lighting Service Areas, where applicable, are not included. Other Road Service Areas are included.
